

Karel Avenue Project Roadworks Update

Principal Shared Path (PSP) realignment commencing late September 2019.

Construction activity has commenced in various locations across the Karel Avenue Upgrade project, with the impact on road users, pedestrians, cyclists and the surrounding community expected to be limited.

To allow further construction works to commence, a minor Principal Shared Path (PSP) detour is required for users north of the Karel Avenue and Roe Highway bridge.

Detour for cyclists and pedestrians

- **Temporary closure of PSP north of Karel Avenue and Roe Highway bridge**
- PSP users will be detoured via Karel Avenue northbound to Dimond Court and through to Fern Leaf Court (see blue path on map below).
- For younger riders and pedestrians, access across Karel Avenue is available north at the controlled intersection (traffic lights) on Farrington Road.
- Karel Avenue is still open to cyclists, however, for rider safety please utilise the PSP whenever available.

The detour will be in place for an estimated 10 months. A map of the proposed realignment is attached on page two of this update.
