Dear «Salutation»

Procurement of Architectural Services for Bert Jeffrey Park Amenity Building

The City of Melville has awarded a contract for architectural services for the amenity building at Bert Jeffrey Park, Murdoch.

The architect has been procured to produce construction drawings from the concept, as well as provide a 3-D render of the building design. Once produced, the render will be available to view, the render is scheduled to be complete in July, 2020.

The amenity building will be located in the north-west of the reserve and will be composed of two change rooms, a kitchenette, a universally accessible toilet and awning facing the centre of the park, the approximate size for which is 105m², in line with council resolution CD18/8107 (18 September 2018).

At this stage, it is scheduled that the construction of the amenity building will commence in September 2020 and be concluded by early November 2020, this is subject to change and subsequent communications will advise of any amendment to this timeline.

For more information , including a recently added fact sheet, visit:
