The Study

The City of Melville administered a MARKYT[®] Business Scorecard to evaluate performance and priorities among local businesses between 11 March to 15 April, 2020. The study took place following the COVID-19 outbreak on 21 Feb 2020.

The study proceeded as the City considered the importance of staying in touch with the long-term needs of local businesses and the continued need to develop plans and strategies for the local area.

Data was collected using online surveys. Email invitations and one reminder were sent to 1,000 businesses that were randomly selected from the City's business customer database.

In total, **36 businesses** provided valid responses; a response rate of 4%. This is considered to be low. With respect to the challenges businesses were experiencing with COVID-19 challenges, no further reminder emails were sent.

MARKYT® Industry Standards are published throughout this report. When three or more councils have asked a comparable question, we publish the high score to enable participating councils to recognise and learn from the industry leaders. In this report, the 'high score' is calculated from WA councils that have completed an accredited study with CATALYSE® within the past year. Participating councils are listed to the right in alphabetical order.

Throughout this report, when sub-totals equal $\pm 1\%$ of the sum of the parts, this is due to rounding errors to zero decimal places.

MARKYT **Industry Standards**

Participating Councils | 2019 to 2020

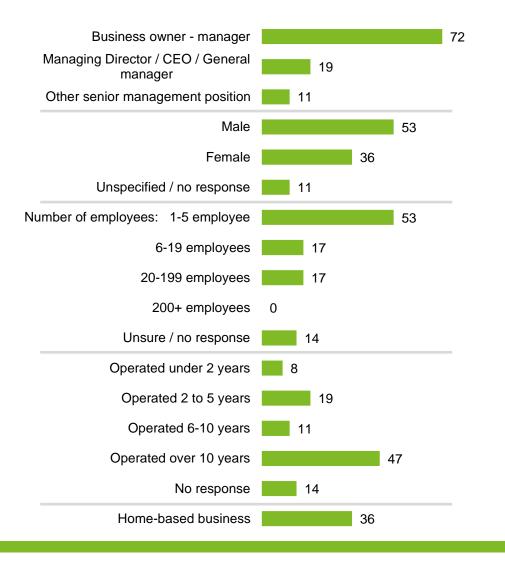

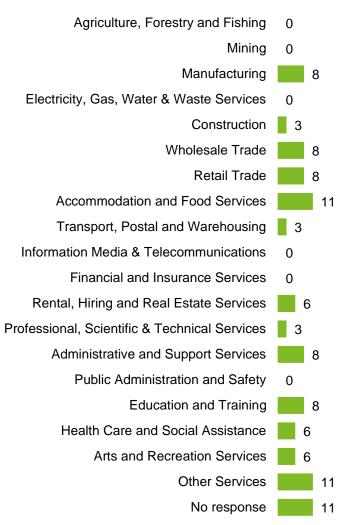

Sample Profile

% of respondents

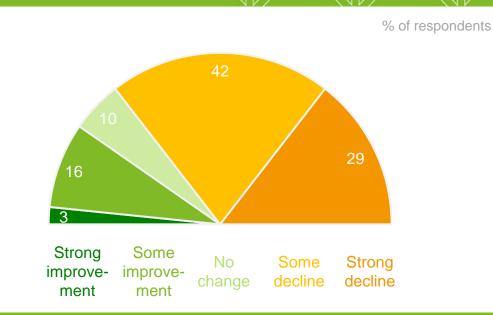

Economic Confidence

Economic expectations for local businesses

COVID-19 has severely impacted local confidence in the economy.

71% of respondents believe their organisation will experience some level of decline over the next 12 months.

19% are optimistic they will see some improvement.

Q. Over the next 12 months, what is your expectation for the economic situation for your organisation? Base: All respondents, excludes 'unsure' and 'no response' (n = 31). MARKŸT🔶

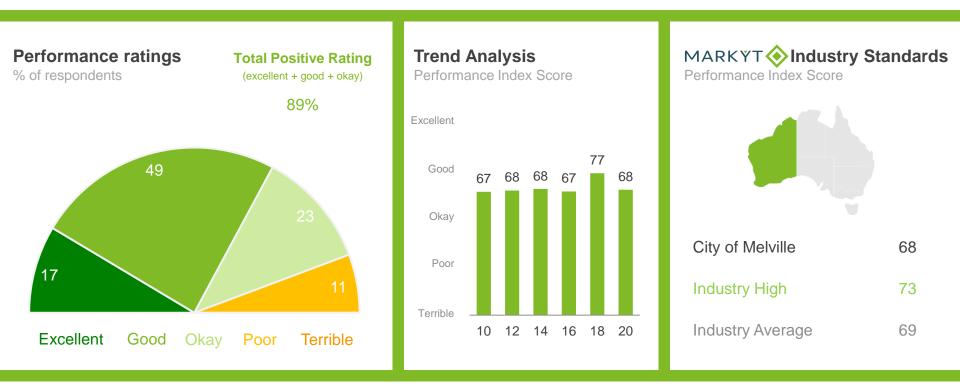

7

Perceptions of place

89% of businesses rate the City of Melville positively as a place to operate a business.

The overall Performance Index Score is 68 out of 100. This indicates an average rating between 'okay' and 'good'. Performance is on par with previous years, with the exception of 2018, the strongest performing year.

Currently, the City of Melville is on par with the industry average.

MARKŸT�

Q. **Overall, how would you rate the City of Melville in the following areas?** Base: All respondents, excludes 'unsure' and 'no response' (n = 35). Likelihood of recommending the City of Melville as a place to operate a business

11% of business respondents are classified as 'promoters', giving a score of 9 or 10 out of 10 for likelihood of recommending the City of Melville as a place to operate a business. 31% are 'passives', giving a score of 7 or 8 and 58% are potential 'detractors', giving a score of 0 to 6.

The Net Promoter Score is calculated by subtracting the percentage of detractors from the percentage of promoters. The score can range from -100 to +100. With more detractors than promoters, the City of Melville's Net Promoter Score is -47.

While COVID-19 may be having an impact on these results, it is recommended that the City follows up with local businesses further explore any underlying issues.

Q. How likely are you to recommend the City of Melville as a place to operate a business? Please give a rating out of 10, where 0 is not at all likely and 10 is extremely likely. Base: All respondents, excludes 'unsure' and 'no response' (n = 36).

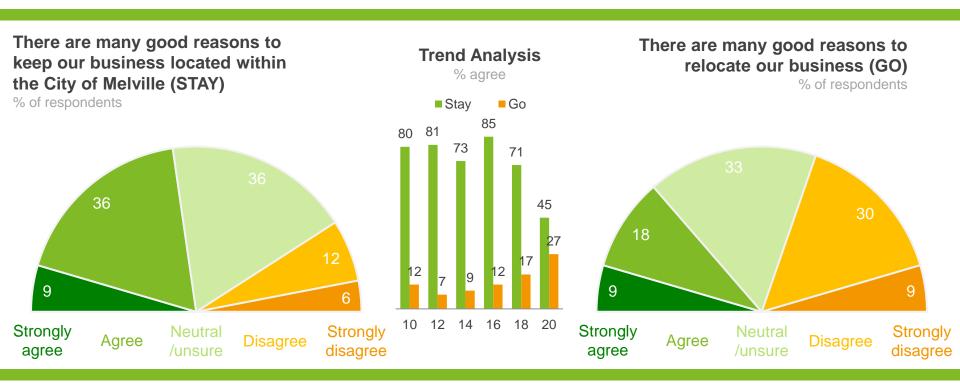

* NPS can range from -100 to +100

10

45% of business respondents agree there are good reasons to stay in the City of Melville. This is down 26% points over the past two years.

27% of business respondents agree there are many good reasons to relocate. The rate of businesses that are considering relocating has been gradually increasing since 2012. The result is up 20% points over the past 8 years.

Q. How strongly do you agree or disagree with the following statements:

Base: All respondents, excludes 'no response' (n = 33 / 33).

33% of business respondents are classified as 'committed' or 'comfortable'; a drop of 31% points from 2018. These businesses agree that there are many good reasons to stay in the City of Melville and they do not agree that there are many good reasons to relocate.

33% of business respondents are a moderate to high risk of relocating.

Level of Comr	nitment	There are many good reasons to relocate our business					
% of respondents		Strongly disagree	Disagree	Neutral	Agree	Strongly agree	
There are many good reasons to keep our business located within the City of Melville	Strongly disagree	3	0	0	0	3	
	Disagree	0	0	3	6	3	
	Neutral	3	6	24	3	0	
	Agree	0	24	3	6	3	
	Strongly agree	3	0	3	3	0	

Q. How strongly do you agree or disagree with the following statements:

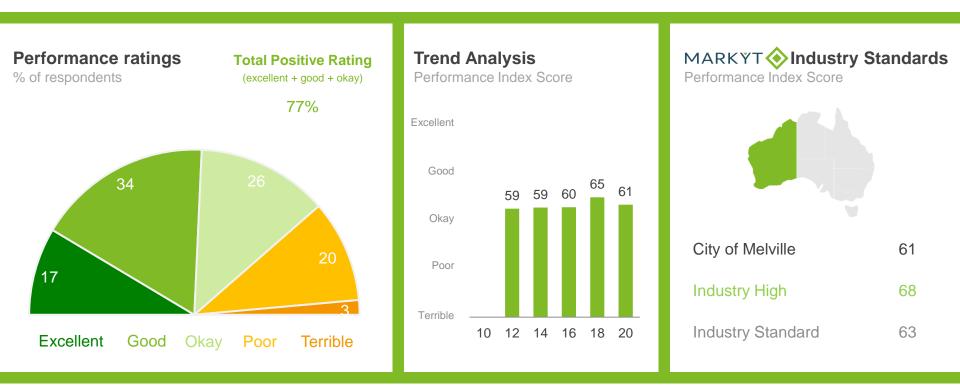

Base: All respondents, excludes 'no response' (n = 33 / 33).

Council performance

77% of businesses rate the City of Melville positively as a governing organisation.

The overall Performance Index Score is 61 out of 100. This indicates an average rating between 'okay' and 'good'. Performance is on par with previous years, with the exception of 2018, the strongest performing year.

Currently, the City of Melville is 2 points below the industry average.

MARKŸT🔶

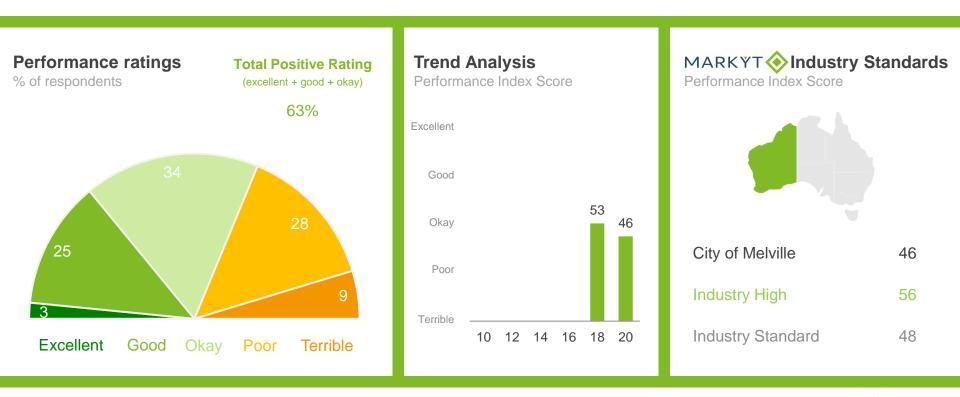

Q. **Overall, how would you rate the City of Melville in the following areas?** Base: All respondents, excludes 'unsure' and 'no response' (n = 35).

Value for money from Council rates

63% of businesses rate the City of Melville positively as a governing organisation.

The overall Performance Index Score is 46 out of 100. This indicates an average rating just below okay.

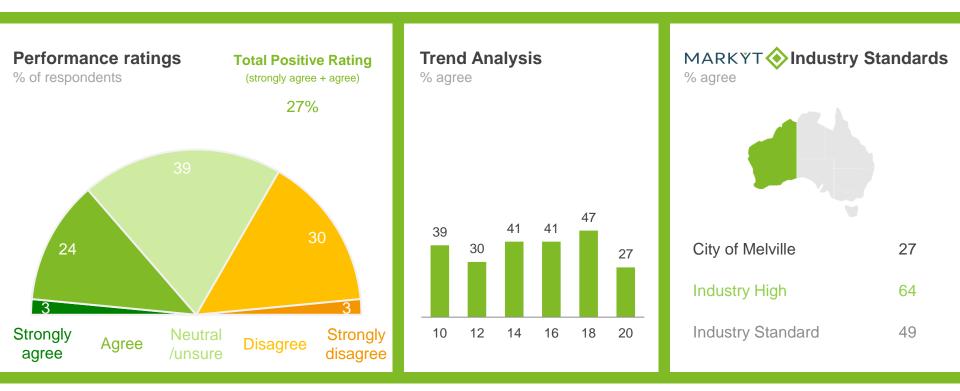

Performance fell 7 index points and is now 2 points below the industry average.

MARKŸT�

Q. **Overall, how would you rate the City of Melville in the following areas?** Base: All respondents, excludes 'unsure' and 'no response' (n = 32). 27% of business respondents believe the City has developed and communicated a clear vision for the area.

This is down 20% points over the past two years; now 22 points below the industry average.

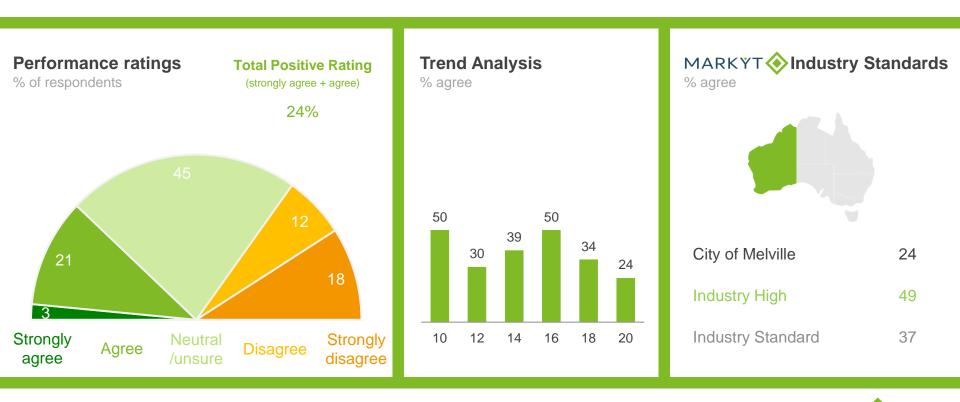

Q. How strongly do you agree or disagree: The City has developed and communicated a clear vision for the area – I am fairly clear about what the area is going to look and feel like in 10 years time?

Base: All respondents, excludes 'no response' (n = 33).

MARKY

24% of business respondents believe the City has a good understanding of issues and challenges facing businesses.

Continuing to fall, this is down 26% points from 50% in 2016 and 13% points below the industry average.

Q. **How strongly do you agree or disagree:** The City has a good understanding of issues and challenges facing business? Base: All respondents, excludes 'no response' (n = 33).

Overall Performance | industry comparisons

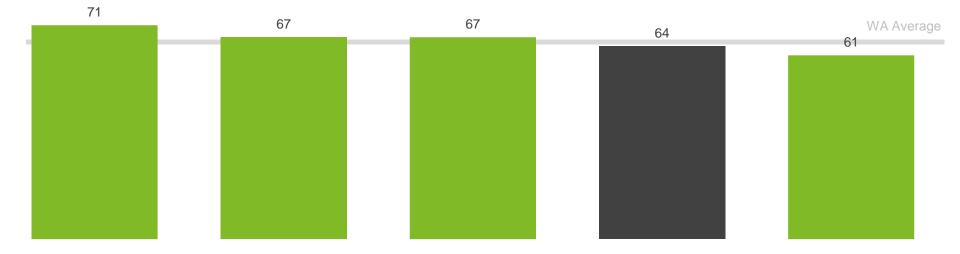

The 'Overall Performance Index Score' is a combined measure of the City of Melville as a 'location to operate a business' and as a 'governing organisation'. The City of Melville's overall performance index score is 64 out of 100, two points below the industry average having dropped 7 points from 71 in 2018. The change in results is likely to have been impacted by the COVID-19 outbreak, though comments suggest there are a number of underlying issues that also need to be addressed.

Overall Performance Index Score

average of 'place to live' and 'governing organisation'

- City of Melville
- Other participating councils

How to read the MARKYT 📀 Benchmark Matrix TM

The MARKYT Benchmark Matrix[™] (shown in detail overleaf) illustrates how businesses rate performance on individual measures, compared to how other councils are being rated by their business community.

There are two dimensions. The vertical axis maps business perceptions of performance for individual measures relative to the average score for all measures. The horizontal axis maps performance relative to the Index Score for Western Australia.

Councils aim to be on the right side of this line, with performance ABOVE the WA Index Score.

<complex-block>

MARKYT

25

As this line represents Council's average performance for all individual measures, around half of the service areas will be placed above the line (above average), and around half will be positioned below the line (below average).

Recommendations

- 1. Review the City's **stakeholder relationship management** practices. There are some concerning signs that businesses are disengaged, including:
 - Low level of survey engagement. While local businesses are being impacted by the COVID-19 pandemic and this may have impacted survey participation rates, we have not seen evidence of this degree of impact in other studies. The results from this study indicate there may be other underlying issues that have impacted participation rates.
 - Declining levels of advocacy and commitment among local businesses. There is a moderate to high level of risk that 1 in 3 businesses will look to relocate out of the area.
- 2. Engage with local businesses to **develop a shared vision** that is relevant, believable and inspiring.
 - The City's current vision is "Working together to achieve community wellbeing for today and tomorrow". Does the vision speak to or resonate with businesses? Results from this study suggest no. A growing number of businesses report that the City lacks vision and that it does not understand local business needs.
 - To be effective, and meaningful, visions must describe what the area will look and feel like in future, supported with tangible, beacon projects that build trust, confidence and hope that the vision is achievable. To communicate visions effectively, use a combination of words, artist impressions, models, video and shared commitment from key partners.
- 3. Review the City's **engagement practices** and seek to understand why performance levels are dropping.
 - 1 in 2 business respondents rated business engagement as poor or terrible. This was the lowest performing measurement.
