

# REVISED CONCEPT

- PEOPLE-FRIENDLY
- EVEN GREATER VERGE SPACE
- ENHANCED GREENERY & SHADE
- IMPROVED ACCESS & WALKABILITY
- MORE PLACES TO SIT & REST
- SPACE FOR ALFRESCO DINING

This concept is based on feedback from engagement carried out in 2023. This version of Kearns Crescent Streetscape Upgrade represents a compromise between parking and universal design. Both sides of Kearns and the road itself have been reworked to allow for safer pedestrian access. Following feedback from the community, seating has been consolidated into key nodes rather than throughout the street. As requested, greater contrast has been implemented to delineate between road and verge, and right-angled parking has been retained as much as possible.
