

Mick Jahn Reserve Playground upgrades

ENGAGEMENT RESULTS

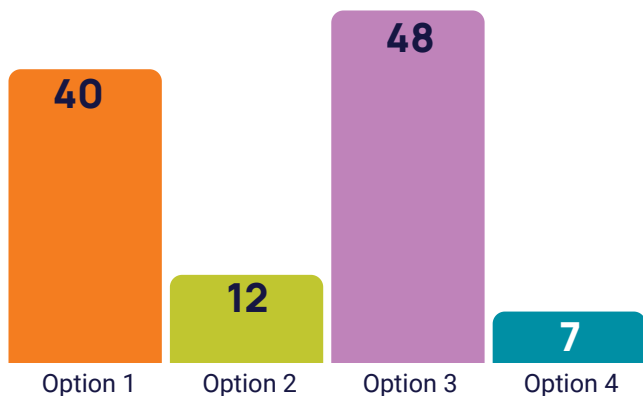

The playground at Mick Jahn Reserve in Attadale is being renewed. To ensure the new play space meets community needs, we invited local residents to view four playground design options and vote for their preferred design.

To make the reserve an even better place for the community to enjoy, we're also adding a few extra park upgrades, including a new drinking fountain and nature play features like rocks and logs for kids to explore.

Engagement was open from **10 to 24 February 2026** on the City of Melville website.

Results

Option 3 received the highest number of votes and will progress to detailed design.

Next steps

The winning playground design is now locked in! We're moving into detailed design and preparing for construction, with works expected to begin in June 2026. For project updates, follow melvillecity.com.au/mickjahn.
