

Montague Hillary Park Playground and Park Upgrade

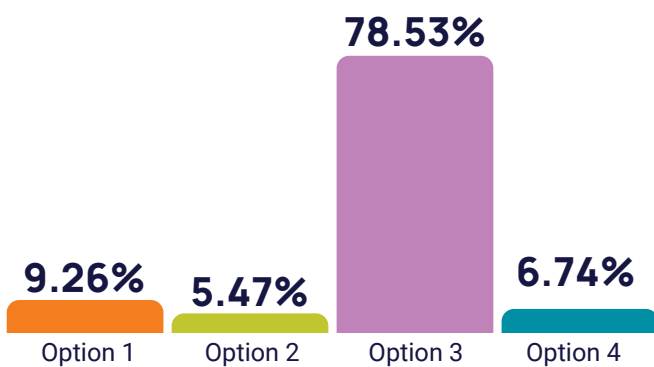

ENGAGEMENT RESULTS

The playground at Montague Hillary Park in Leeming has reached the end of its life and is being renewed to create a more fun, inclusive, and engaging space for local children and families. To ensure the design reflects community needs, we invited those who use it most to help shape its future.

In August, forty-two students took part in a co-design workshop, sharing ideas and wish lists for the new playground. Their feedback inspired four design options. In October, students voted for their preferred design, and the same four concepts were presented to the wider community for voting from **5 to 26 November 2025** on the City's engagement webpage.

Results

Option 3 received the highest number of votes and will progress to detailed design.

Next steps

The winning playground design is now locked in! We're moving into detailed design and preparing for construction, with works expected to begin in April - May 2026. For project updates, follow melvillecity.com.au/montaguehillarypark.
