BACKGROUND:

The *Local Government Amendment (Auditing) Act 2017* was proclaimed in October 2017, giving the Auditor General the mandate to audit local governments and regional councils. The Act allows the Auditor General to take on responsibility for the annual financial audits of local governments as existing audit contracts expire. Since 2019/2020 the Auditor General has been responsible for conducting a statutory financial audit for the Resource Recovery Group and has appointed RSM Australia as its

contractor to undertake the audit on its behalf. The auditor is to audit the statutory accounts and annual financial statements of the Local Government.

REPORT:

Representatives from the Office of the Auditor General and RSM presented their audit report at a meeting on Monday 27 July 2026. The report consisted of:

1. Auditors closing report on the audit for the period 1 July 2025 to 02 June 2026.
2. Draft Office of the Auditor General's Audit Report on the RRG's Financial Report for the period 1 July 2025 to 2 June 2026.

Following the meeting the Acting CEO signed the financial report of the RRG's activities for the period 1 July 2025 to 2 June 2026 which is the subject of the audit and also signed the management representation letter.

Following this within 3 working days the Office of the Auditor General (OAG) will directly provide

1. The OAG stamped financial statements/report for the period 1 July 2025 to 2 June 2026;
2. The signed audit report.

Following receipt of those documents the financial report together with the Final "Annual" Report for the Resource Recovery Group will be submitted to the Minister for Local Government and the Department of Local Government as required by the *Local Government Act 1995* and Regulations.

BACKGROUND:

This report presents the final report of the activities of the Resource Recovery Group (RRG), formerly known as the Southern Metropolitan Regional Council.

REPORT:

The resource recovery activities of the Resource Recovery Group being conducted on land leased from the City of Canning at 350 Bannister Road, Canning Vale since the year 2000, continued up until 30 November 2025. The site, and all the improvements constructed on it by the RRG, was returned to the City of Canning at that date. They re-leased the land to another party from 14 December 2025, who continues similar operations on contract to the City of Canning and the RRG's former members and clients.

Following cessation of operations wind-up activities, including the sale of the RRG's former office accommodation at 9 Aldous Place Booragoon held in freehold, continued up until 2 June 2026 by which time all remaining funds ($5,029,805), had been distributed to the two final withdrawing members, the Cities of Fremantle and Melville, in accordance with their agreed proportions of equity.

The attached Final "Annual" Report covers the period 1 July 2025 to 02 June 2026. No significant or material transactions have occurred after that date.

The City of Melville has taken over custody of the Resource Recovery Groups physical and digital records which will be retained by them in accordance with State Government record keeping requirements and the Record Keeping Plan. The City of Melville has been paid the estimated costs of doing so by the Resource Recovery Group. They have also been paid for other costs associated with the wind-up of the Resource Recovery Group including the estimated fees to be charged by the Office of the Auditor General (OAG) and the costs associated with preparation of the financial statements and final wind-up activities being conducted by the Acting CEO. Any remaining funds after these costs have been paid will also be distributed in accordance with the agreed share of equity to the Cities of Fremantle and themselves. A final payment for the value of carbon abatement units (carbon credits) will be made to the Cities of Fremantle and Canning once the claim has been lodged with and approved by the Clean Energy Regulator later in this calendar year. This claim will be prepared and lodged by the firm Corporate Carbon who were previously contracted to undertake this activity by the RRG. The value of these credits cannot be reliably determined at this time.

This concludes a long history of forward-thinking resource recovery initiatives, begun by visionary elected representatives from member councils through the Project Business Plan titled "Project 2000" and carried out by the Southern Metropolitan Regional Council, later renamed the Resource Recovery Group. These initiatives diverted thousands of tonnes of material previously considered waste from landfill and enabled its beneficial reuse.
