

Warwick Wild Park Playground upgrade

ENGAGEMENT RESULTS

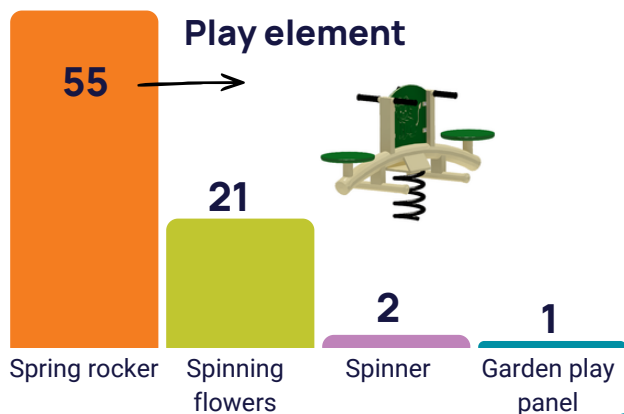

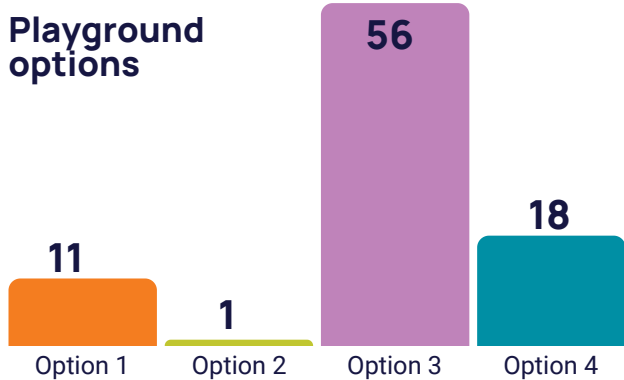

The playground at Warwick Wild Park is being renewed as part of the City's asset renewal program. To ensure the upgraded play space reflects community needs, local residents were invited to vote for their preferred design from four playground options, and select their favourite additional play element.

Engagement was open from **15 April to 3 May 2026** via the City of Melville website.

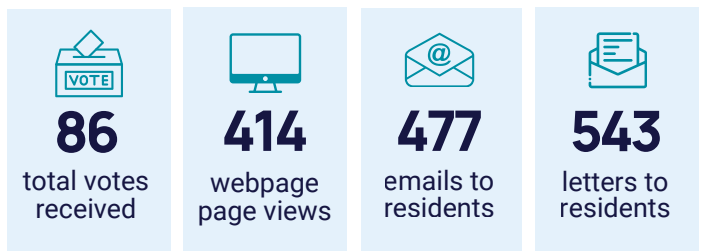

Results

Option 3 received the highest number of votes and will progress to detailed design.

The **spring rocker** will be retained – a two-seated rocker is included in the design for Option 3.

Reach and Participation

Next steps

The winning playground design is now locked in – work is expected to begin in October 2026.
