

Attachment 6

**Concept - No Car Park**

Attachment 5

**Concept - With Car Park**

**Attachment 6 (above left)  
Best fits with  
Urban Forest and Green space Policy  
CP-102**

**Policy Objectives**

1. To protect, preserve and enhance the aesthetic character of the City of Melville.
2. To realise the social, environmental, and economic benefits of trees and other vegetation as an integral element of the urban environment.
3. To contribute to community wellbeing by integrating and aligning the efficient provision of physical, social, and green infrastructure and management of natural areas.
4. To encourage a sense of shared responsibility and balance individual and community rights to equitably distribute the costs and the benefits of a greener City.
5. To ensure that the urban forest and green spaces that are integral to the City's sense of place are not compromised in areas of increased residential density.
