

CLIMATE CHANGE

THE GLOBAL GOALS

We've declared a climate emergency and we're on a race to achieve net zero by 2030!

2015

- Target for 48% reduction by 2050
- Renewable Generation Capacity : 100 kW

2016-17

- Energy Efficiency improvement projects

2018-20

- Smart Grid Project in partnership with Murdoch University

2019

- Cumulative Renewable Generation Capacity : 300 kW
- Sustainable Development Goals (SDGs) are embedded as part of Communities outcome reporting

2020

- Cumulative Renewable Generation Capacity : 450kW
- SDGs are embedded as part of Corporate Business Plan

2021-22

- Cumulative Renewable Generation Capacity to reach 700kW

2021

- City of Melville CLIMATE EMERGENCY DECLARATION
- City of Melville commits to race to zero organisational emissions by 2030

2022

- Develop Climate Action Policy
- Establish Community Climate Reference Group
- Develop Climate Action Plan

2030

100% Net zero organisational emissions

2050

100% Net zero Melville regional emissions

**SUSTAINABLE
DEVELOPMENT**

GOALS
