PROPOSED BUS LANE AND CARPARK SECURITY LIGHTING ON RESERVE 29813, WIRELESS HILL PARK, ALMONDBURY ROAD, ARDROSS (REC) (ATTACHMENT)

Description

- The application is for a bus lane and carpark lighting at Wireless Hill Park.
- The matter was previously reported to the Council in June 2007 and was recommitted pending further investigation.
- Wireless Hill Park is reserved under the Metropolitan Region Scheme and the application is therefore required to be referred to the Western Australian Planning Commission for determination;
- Wireless Hill Park is also heritage listed, which required referral to the Heritage Council of Western Australia. The Heritage Council has no objection to the proposed works.
- 'Friends of Wireless Hill' have indicated their support the proposed development in writing.
- A Concept Holistic Plan is being developed for the site – this is intended as a framework to guide future direction and development at Wireless Hill. This will incorporate all previous studies and plans and therefore includes the existing Master Plan.
- The proposed lighting varies from the Council's Policy 06-PL-006 (Flood and Security Lighting) with respect to the height and the spacing of the poles.
- It is considered reasonable to vary Council Policy due to the likelihood of minimal impact on the amenity of the local area;
- It is recommended that the City of Melville support the application and recommend approval to the Western Australian Planning Commission.
