**KEY ISSUES / SUMMARY**

- Planning Approval is sought for four Multiple Dwellings in a three storey building at Lot 804 (No. 552) Canning Highway, Attadale.
- The proposal requires an exercise of judgement in respect of building size.
- The application was advertised in accordance with the provisions of the R-Codes and LPP1.1 Planning Process and Decision Making. Three submissions were received in opposition to the proposal on the grounds of building bulk impacts arising from the plot ratio and side setbacks. As a result of the objections the side setbacks to the west were amended to comply with deemed to comply provisions of the R-Codes.
- Notwithstanding the objections received, it is considered that the development is now acceptable when assessed against the relevant design principles of the R-Codes.
- It is recommended that the application be approved subject to conditions.

## COMMENT

Planning Approval is sought for four multiple dwellings contained in a three storey building on the northern side of Lot 804 (No.552) Canning Highway, Attadale.

Whilst the proposed development has the appearance of four 3 storey grouped dwellings, the applicant has located a small portion of each dwelling over the top of another and therefore the proposal complies with the definition of multiple dwellings contained in the R-Codes:

**U17/0487 LOT 804 (NO.552) CANNING HWY, ATTADALE FOUR MULTIPLE DWELLINGS IN A THREE STOREY BUILDING (REC) (ATTACHMENT)**

*A **dwelling** in a group of more than one dwelling on a **lot** where any part of the **plot ratio area** of a dwelling is vertically above any part of the plot ratio area of any other but: does not include a **grouped dwelling**; and includes any dwellings above the ground floor in a mixed use development.*

The existing and proposed buildings will be accessed via Groves Road

**Building Size & Side Setbacks**

The proposed plot ratio variation of 0.81 in lieu of 0.6 is considered to meet the design principles of Cl 6.1.1 *Building size* of the R-Codes for the following reasons:

- The additional plot ratio sought results in an additional 415 square metres of floor area across the entire site. The additional floor area does not contribute to a density above and beyond that envisaged by the site's R50 zoning; rather it allows the site to achieve a greater diversity of housing options within the site by providing four, three storey multiple dwellings designed to appear as three storey grouped dwellings.
- The proposed development meets the Deemed to Comply provisions of the R-Codes and Local Planning Policies in relation to key matters such as building height, side setbacks and street setbacks and therefore the bulk and scale is consistent with the local planning framework.

As such, it is considered that there will be no adverse impact in terms of building bulk as a result of the plot ratio proposed.

**ALTERNATE OPTIONS AND THEIR IMPLICATIONS**

This application is proposed to be approved under delegation through the Development Advisory Unit (DAU) process.

Should Elected Members have an alternative view; the DAU 'call-up' procedures provide opportunity to call this matter up for formal Council consideration.

**CONCLUSION**

Based on the above, the application is considered to satisfy the provisions of LPS6, the R-Codes and Council Policy. On this basis, it is recommended that the proposal be approved subject to conditions.

10. The approved landscaping and reticulation plan shall be fully implemented within the first available planting season after the initial occupation of the development and maintained thereafter to the satisfaction of the Manager Statutory Planning. Any species which fail to establish within the first two planting seasons following implementation shall be replaced in accordance with the City's requirements.
11. Prior to commencement of the development, a cash-in-lieu payment of \$10,000.00, being for 1 car parking bay is to be paid to the City of Melville.
12. Prior to the initial occupation of the development, a waste management plan shall be prepared in accordance with council policy – waste and recyclables collection for multiple dwellings, mixed use developments and non-residential developments and submitted in writing for the approval of the manager statutory planning. Once approved, the development is to be constructed and operated in accordance with the waste management plan to the satisfaction of the manager statutory planning.
13. Temporary structures, such as prefabricated or demountable offices, portable toilets and skip bins necessary to facilitate storage, administration and construction activities are permitted to be installed within the property boundaries of the subject site(s) for the duration of the construction period. These structures are to be located so not to obstruct vehicle sight lines of the subject site, the adjacent road network or of adjoining properties to the satisfaction of the manager statutory planning and are to be removed prior to initial occupation of the development.
14. A construction management plan is to be prepared by the applicant and submitted to the manager statutory planning for approval at least 30 days prior to the commencement of works. The construction management plan shall detail how the construction of the development will be managed including the following:
  - public safety and site security;
  - hours of operation,
  - noise and vibration controls;
  - air and dust management;
  - stormwater, groundwater and sediment control;
  - waste and material disposal;
  - Traffic Management Plans prepared by an accredited personnel for the various phases of the construction, including any proposed road closures;
  - the parking arrangements for contractors and sub-contractors;
  - on-site delivery times and access arrangements;
  - the storage of materials and equipment on site (no storage of materials on the verge will be permitted) ; and
  - any other matters likely to impact upon the surrounding properties or road reserve.

Once approved, the development is to be constructed in accordance with the Construction Management Plan to the satisfaction of the Manager Statutory Planning.

**U17/0488 LOT 11 (34) BATEMAN RD, MOUNT PLEASANT - ANCILLARY DWELLING  
(REC) (ATTACHMENT)****COMMENT**

The application was advertised in relation to the proposed setback to the southern boundary which requires assessment having regard to the Design Principles contained in Clause 5.1.3 Lot Boundary Setbacks of the R-Codes.

One objection was received during the consultation period which raised concerns in relation to overshadowing.

The development, which involves additions to the original approval, meets the Deemed-to-Comply provision of Clause 5.4.2 Solar access for adjoining sites of the R-Codes.

The extension of the upper floor is not considered to have a significant detrimental impact on the southern adjoining property in terms of bulk or access to ventilation and sunlight and is considered to meet with the relevant Design Principles of the R-Codes.

Therefore the application as proposed is recommended for approval.

**ALTERNATE OPTIONS AND THEIR IMPLICATIONS**

This application is proposed to be approved under delegation through the Development Advisory Unit (DAU) process.

Should Elected Members have an alternative view, the DAU 'call-up' procedures provide opportunity to call this matter up for formal Council consideration.

**CONCLUSION**

Based on the above, the application is considered to satisfy the requirements of LPS6, the R-Codes and Local Planning Policy, including the design principles for lot boundary setbacks, site works, and visual privacy. On this basis, the proposal is recommended for approval subject to conditions.

**OFFICER RECOMMENDATION****APPROVAL**
