- The purpose of this project is to create a 'Vision for Wireless Hill'. The document is intended as a framework to guide future direction and development at Wireless Hill site for the following 12 years.
- This item provides the City of Melville with the opportunity to approve the draft vision for public comment.

**C09/8012 – WIRELESS HILL VISION 2020 (REC) (ATTACHMENT)****BACKGROUND**

The development of a Vision for Wireless Hill will provide the needed direction to ensure that this regionally significant site stays a community focal point into the future.

With twenty five individual documents related to Wireless Hill across the organisation, from conservation plans to community use surveys, it is recognised that there is a lack of coordinated and shared strategic direction or vision for the site. This lack of a shared Vision has led to community concerns over a period of time. With the recognised diversity of activities occurring at the site a shared vision will pull together themes and objectives to create a framework for the future.

The Wireless Hill Vision 2020 will be an essential tool in capturing community aspirations for the entire site.

The purpose of this project is to create a 'Vision for Wireless Hill'. The document is intended as a framework to guide future direction and development at Wireless Hill site for the following 12 years.

**DETAIL**

The purpose of this project is to create a 'Vision for Wireless Hill'. The vision document will give direction for the following areas:

- Buildings, heritage and development
- Museums and collections
- Natural environment
- Interpretation and conservation
- Recreation and physical activity
- Public use, appropriate use and tourism
- Public art
- Commercial opportunities
- Community groups
- Wireless Hill Centenary 2012

The Wireless Hill Vision will integrate the above areas into a clear all encompassing vision and theme for the future of the site. The vision will be an essential tool in capturing community aspirations for the entire site.

The project stages;

**Step 1 – Document Review**

A review of all documentation relating to the project and consolidated key points of all existing plans was completed.

**C09/8012 – WIRELESS HILL VISION 2020 (REC) (ATTACHMENT)****Step 2 – Project Inception Workshops**

A project inception meeting was held to discuss the proposed approach, any issues, opportunities and constraints relevant to the project.

A Councillor workshop was also held to identify Councillor priorities and expectations for this initiative.

**Step 3 – Community Workshop**

A Community Workshop was held with invitations extended to project stakeholder groups and community and council members. The workshop had approximately 90 people in attendance and was used to:

- understand the key considerations and community aspirations,
- outline the strategic objectives,
- gain initial input and identify any additional opportunities or issues, and
- develop a clear vision for the sustainable future of Wireless Hill.

Interested stakeholders were invited to nominate for the Stakeholder Reference Group.

**Step 4 – Stakeholder Reference Group (SRG) Meetings**

A Stakeholder Reference Group (SRG) of 30 members was recruited to represent the community and discuss issues and opportunities that would be considered for the Vision document. This group met on three separate occasions. Liaison with Council staff occurred throughout to ensure practical and achievable solutions emerged.

**Step 5 – Draft Vision**

A draft consolidated report, titled '*Wireless Hill Vision 2020*', has been prepared. The draft Vision is being presented to Council for consideration in seeking approval to advertise.

**Step 6 – Finalise the Visioning Plan**

Additional work required to finalise the plan

**Step 7 – Public Comment**

The Visioning Plan shall be advertised for public comment. The resultant feedback will be consolidated and reported for review by Council and finalisation of the '*Wireless Hill Vision 2020*'.

**PUBLIC CONSULTATION/COMMUNICATION**

The level of communication in accordance with Stakeholder Consultation Policy 01-PL-005 in relation to this item is to "involve" the community. In this regard, various methods of consultation and involvement were deployed.

The first step in this process was the establishment of a list of key stakeholders. Key stakeholders included;

**DETAIL**

- 2) Identify a sustainable pathway to rapidly “roll out” the Canning Bridge Community Hub.
- 3) Improve the financial and economic performance of each of the following assets.

**Canning Beach Road/Kintail Road site**

In relation to the Canning Beach Road/Kintail Road site business plan, 7 submissions were received as well as a submission from the Western Australian Local Government Association (WALGA), who has previously expressed an interest in developing the site and who submitted further details relating to their proposal and offer.

At the December 2008 Council meeting a steering group was formed consisting of elected members who are advised by suitably qualified:-

- City of Melville officers;
- External Property advisor(s) when and if required and
- External Architectural / Engineering / Environmental Sustainable Design advisor(s) when and if required.

The report indicated that the steering group would deliberate on any submissions of interest that are received and other matters concerning the possible redevelopment or lease/sale of the site.

Copies of the 7 submissions were forwarded to Elected Members on Friday 17 April 2009, as an attachment to the Elected Member Bulletin. The steering group will need to meet to discuss and deliberate on the submissions so that comments can be presented in a further report to the Council on this matter.

**Former Carawatha School site**

In relation to the Carawatha site business plan, no public submissions or comments were received. The South City Church Incorporated presented what they termed a submission, which has been treated as an Expression of Interest. The Church has indicated that they would be interested in developing the site for a community services complex (Community Hub) which would be administered by the Church. Their interest in the land has been acknowledged and the Church will be advised of the Council decision and will have an opportunity to tender or bid for the site should it be offered for lease or sale. A copy of the expression of interest by the South City Church was forwarded to Elected Members on Friday 17 April 2009 as an attachment to the Elected Member Bulletin.

**C09/5066 – ADOPTION OF MAJOR LAND TRANSACTION BUSINESS PLANS – PART LOT 300 (10) ARCHIBALD STREET, WILLAGEE – FORMER CARAWATHA PRIMARY SCHOOL SITE AND LOT 15 (67) AND PART LOT 180 (69) CANNING BEACH ROAD, AND PART LOT 181 (2) KINTAIL ROAD, APPLECROSS (REC)**

A multi-signature letter signed by four hundred and nine residents (409) was received on Friday, 13 March 2009 after the close of the comment period. The letter reads:

*“We would like to support the building of a Medical Centre on the former Carawatha Primary School site, including pathology, radiology and other allied services. As younger families move into the area and the existing population ages, there exists a lack of medical facilities in Willagee. This site represents a central and easily accessible location for Willagee residents.”*

**PUBLIC CONSULTATION/COMMUNICATION**

The advertising of the Major Land Transaction Business Plan in the West Australian Newspaper and the Public consultation has been undertaken.

The public consultation process in regards to the built form, land use and zoning densities for the site will be undertaken when public comment is sought in relation to the proposed Amendment to the Community Planning Scheme Number 5, which relates to this site and will be reported to a future Meeting of Council.

**CONSULTATION WITH OTHER AGENCIES / CONSULTANTS**

Consultation with Craig McClure Planning Consultant, GHD and Ross Hughes Property has been undertaken in relation to conducting the Strategic Land Assets Feasibility Study.

Further consultation with community groups and users of the facilities that are subject to the study will occur during the course of the Strategic Lands Assets Feasibility Study.

**STATUTORY AND LEGAL IMPLICATIONS**

There are no statutory or legal implications with deferring a decision on the business plans.

Section 3.59 of the Local Government Act 1995 and the Local Government (Functions and General) Regulations 1996 require a Local Government to give state-wide public notice of any major land transaction that is under consideration with the criteria being that the value of the transaction is more, or worth more, than either \$1,000,000 or 10% of the operating expenditure incurred by the Local Government from its municipal fund in the last completed financial year. As it is expected that the disposal of these properties, either by lease or outright sale will be valued in excess of \$1,000,000, they are considered to be Major Land Transactions.

The Local Government Act requires the Council to consider any submissions and decide by absolute majority decision whether to proceed with the undertaking or transaction as proposed or so that it is not significantly different from what was proposed. If the Council wishes to commence an undertaking or transaction that is significantly different from that advertised, it can only do so after readvertising the new undertaking or transaction for a further 6 week submission period.

#### **FINANCIAL IMPLICATIONS**

Not applicable in relation to this item.

#### **STRATEGIC AND RISK MANAGEMENT IMPLICATIONS**

The review of strategic land assets will have strategic implications for the City of Melville however, consideration and adoption of this item will not have any strategic or risk implications.

#### **POLICY IMPLICATIONS**

Not applicable in relation to this item.

#### **ALTERNATE OPTIONS AND THEIR IMPLICATIONS**

Proceed with adoption of the advertised Major Land Transaction Business Plans for the former Carawatha Primary School and Canning Bridge sites. This would however result in adoption preceding the strategic land assets study and possibly result in a sub-optimal solution being reached.

#### **CONCLUSION**

The Strategic Land Asset Feasibility Study is due to be concluded in May/June 2009 and consideration of the public submissions and a decision on adopting the major land transaction business plans should be deferred until after consideration of the recommendations contained in the review are considered.

**KEY ISSUES / SUMMARY**

- This report presents the investment statements for the month of March 2009 and recommends that the information detailed in the attachments be noted.
- The report highlights continuing significant reductions in the estimated market value of Council's CDO investments and discusses the actions being taken by Council Officers to ameliorate, in so far as possible, the risk of further losses in value.

**C09/6000 - INVESTMENT STATEMENTS (REC) (ATTACHMENT)****BACKGROUND**

The investment of cash holdings is undertaken in accordance with Council's investment policy, with the objective of maximising returns whilst maintaining low levels of credit risk exposure.

**DETAIL**

The investment of funds is undertaken in accordance with the City of Melville's Investment of Funds Policy 13-PL-003.

[6000A March 2009](#) and [6000B March 2009](#) contain specific details (including **estimated** market and officer valuations) of the investments held at 31 March 2009. Agenda attachment [6000C March 2009](#) is a graph showing the total of funds invested and their estimated market valuations at the end of each month over the past financial year.

Elected Members are well aware of the continuing uncertainty and extreme volatility in world financial markets and the negative impact that it is having on most classes of investments as well as individuals and corporations. This volatility, the subsequent lack of an active market for Collateralised Debt Obligations (CDO's) and a depressed market for the Authorised Deposit Taking Institutions (ADI) sub-ordinated debt investments owned by Council, has created a situation whereby it continues to be extremely difficult to arrive at truly meaningful market valuations for the (CDO) element of the investment portfolio. The valuations for March have been arrived at by using a combination of CDO valuations obtained by Piper Alderman, our legal advisors in regards to the actions being pursued in respect Lehman Brothers, as well as valuations obtained from CPG Research & Advisory (Council's Independent Investment Advisor's) in respect to the ADI investments.

It should be noted that these valuations do not imply that if it were possible for the Council to liquidate the CDO's in particular, the prices received would be in line with these valuations.

There was 1 credit event (Idearc – a US directory provider) in March that has affected Council's CDOs. Due to the continuing difficult global economic conditions facing corporations, it is expected that further credit defaults and ultimately defaults of CDO's themselves will occur in the near future.

The estimate based on officer's valuations and valuations provided as at 31 March 2009, is that if it had been possible to dispose of all investments at the end of March, a loss of \$17,958,835 (27.72%, February 27.72%) would have been realised. The market valuation of the CDO element of the investment portfolio at the end of March represented 23.69% (February 23.69%) of its cost figure, with individual valuations ranging between 3% and 70%.

Major credit rating agencies Standard and Poors, Moodys and Fitch have also reviewed their methodology for assessing the credit ratings of CDO's. This has resulted in many of the CDO's being downgraded to levels where they are not, and would never have been, considered appropriate for inclusion in the Council's portfolio of investments. The review by the credit rating agencies of their CDO credit rating models affirms what some commentators were saying many months ago ie: that the models used to rate CDO's were flawed in some respects. This has unfortunately led to inappropriate investment by many Councils and other bodies holding public monies on the mistaken belief that the ratings applied by these agencies were sound.

**C09/6000 - INVESTMENT STATEMENTS (REC) (ATTACHMENT)**

This post event review by the credit rating agencies is therefore of little value to the present situation the Council finds itself in and the Council's focus must remain on recovering from the situation.

Loss mitigation and recovery strategies such as obtaining expert and independent advice and amending the investment policy have already been undertaken and Council officers will continue to pursue other avenues including legal action against the Council's former investment advisors and fund managers, Lehman Brothers, as well as a potential class action against the ratings agencies.

Summary details of investments held at 31 March 2009 are shown in the table below.

**C09/6000 - INVESTMENT STATEMENTS (REC) (ATTACHMENT)****Credit Ratings and Credit Events**

There was 1 credit rating change in CDOs during March 2009.

Eight credit events impacting on CDOs held by the City have now been recorded. The Companies involved were the Idearc, Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Corporation (Freddie Mac), Lehman Brothers, WaMu, Glitnir, Kaupthing and Landsbanki. The impact on CDOs is shown below:

- Beryl Global Bank Note - Nil credit events. – remaining credit support for 1.0 credit event (Being terminated due to trustee taking control of underlying security).
- Blue Gum - Arranger HSBC Bank US – 7.0 credit events - Freddie Mac, Fannie Mae, Lehman's, WaMu, Glitnir, Kaupthing & Landsbanki – remaining credit support for 2.2 credit events.
- Esperance - Arranger Merrill Lynch International – 1.0 credit event - Lehman's – remaining credit support for 5.0 credit events.
- Glenelg - Arranger Nomura International – 2.0 credit events - Lehman's & Landsbanki – remaining credit support for 7.0 credit events.
- Green - Arranger J.P. Morgan Australia – 4.0 credit events - Lehman's, WaMu, Glitnir & Kaupthing – remaining credit support for 2.4 credit events.
- Henley A - Arranger BNP Paribas – 3.0 credit events – Freddie Mac, Fannie Mae & Lehman's – remaining credit support for 7.0 credit events.

- Merimbula A – Arranger Lehman Brothers 2.0 credit events - Freddie Mac & Fannie Mae – remaining credit support for 7.9 credit events. (Being terminated due to trustee taking control of underlying security)
- Parkes 1A - Arranger Morgan Stanley – 4.0 credit events - Freddie Mac, Fannie Mae, Lehman's & WaMu – remaining credit support for 5.0 credit events.
- Parkes 11A - Arranger Morgan Stanley – 4.0 credit events - Freddie Mac, Fannie Mae, Lehman's & WaMu – remaining credit support for 3.0 credit events.
- Scarborough - Arranger Merrill Lynch – 6.0 credit events – Idearc, Freddie Mac, Fannie Mae, Lehman's, Kaupthing & Landsbanki – remaining credit support for 1.5 credit events.
- Torquay - Arranger J.P. Morgan – 5.0 credit events – Idearc, Freddie Mac, Lehman, Glitnir & Kaupthing – remaining credit support for 3.2 credit events.

It should be noted that further investment in CDO's is specifically excluded under the current Investment Policy. No long term investments are being undertaken as the investment portfolio as previously structured by Lehman Brothers was too heavily weighted into long term products.

Statements 6000A, 6000B and the graph 6000C show the value of the investments based on cost, which is consistent with long standing practice.

**C09/6000 - INVESTMENT STATEMENTS (REC) (ATTACHMENT)**

Interest rates were relatively stable in this period, with the rates for 90 day bank bills increasing by 0.004% from 3.145% to 3.149%, while the 30 day rates fell by 0.05% from 3.27% to 3.22%.

The graphs below summarise movements in valuation since March 2009.

**PUBLIC CONSULTATION/COMMUNICATION**

This report is available to the public on the Council's web-site and hard copies of this agenda and attachments are available for viewing at the Council's 5 public libraries.

In addition the Council's bi-monthly newsletter, Mosaic, has contained several articles that highlight this issue. Numerous press articles have also been published on this topic.

**C09/6000 - INVESTMENT STATEMENTS (REC) (ATTACHMENT)****CONSULTATION WITH OTHER AGENCIES / CONSULTANTS**

CPG (formerly Grove) Research and Advisory the City's investment adviser have reviewed the current investment portfolio with a view to providing strategies to minimise any unnecessary risks.

In 2007 Price Waterhouse Coopers (PWC) were engaged to provide advice in regards to the appropriateness of the City's investment strategy in light of the recent volatility in the credit markets. Following the receipt of their report and further clarification, a revised investment policy was adopted.

The Department of Local Government and Regional Development issued Investment Policy Guidelines during March 2008, well after the global financial crisis, and Council's investment policy has been amended to give effect to the guidelines.

**STATUTORY AND LEGAL IMPLICATIONS**

The following legislation is relevant to this report:

- Local Government (Financial Management) Regulations 1996 Regulation 19 – Management of Investments.
- Trustee Act 1962 (Part 3)

Piper Alderman have been engaged to seek recovery of any losses that may eventually be realised and to seek early termination of the CDO's so that Council gains access to the more valuable collateral representing Councils original investments which is held by Trustees for the Lehman Brothers arranged CDO's.

Due to Lehman Brothers failing and entering into bankruptcy proceedings the City has not received interest payments due in September 2008 estimated at \$120,000. Subsequent quarterly payments have however now been received in relation to the Lehman Brothers arranged CDOs.

Should a class action be mounted against the ratings agencies by a suitably qualified legal firm on a no win no fees basis Council will be requested to consider joining such action.

**FINANCIAL IMPLICATIONS**

As at the end of March 2009, total interest excluding Reserve Fund interest earned was \$1,994,033, against a year to date budget of \$2,027,214. This represents a \$33,181 negative variance. The full year budget was revised down from \$2,550,000 to \$2,150,000, due to recent very significant reductions in interest rates.

Reserve Fund interest earned was \$1,284,164 against a year to date budget of \$1,100,000, a positive variance of \$184,164. The full year budget is \$1,400,000.

In accordance with the Council's revised Investment Policy any surplus investment returns derived as a result of investing in ADI's & CDO's when compared to Bank Bills or Term Deposits will be credited to the Risk Management Reserve.

**C09/6000 - INVESTMENT STATEMENTS (REC) (ATTACHMENT)**

The most material current financial implication in relation to the cash position of the Council relates to the book value of investments moving according to the very significant market volatility that has been experienced since July 2007, which has impacted negatively on the market price and saleability of our CDO and to a lesser extent our ADI investments.

**STRATEGIC AND RISK MANAGEMENT IMPLICATIONS**

Council's investment policy was constructed to minimise credit risk through investing in highly rated securities and diversification.

Due to the continuing and increasing credit market concerns, the risks associated with the Council's investment portfolio have also increased to levels which are of concern. Whilst the Council continues to earn and be paid interest (except for the September default by Lehman Brothers) from its CDO investments, the reassessment by the major rating agencies of their credit risk models used to assess the credit ratings associated with CDO portfolios, has resulted in significant downgrading of CDO investments to credit rating levels that would not meet the Council's investment policy. However, due to the lack of an active market for CDO's, these investments must continue to be held.

The risk of loss due to the default of CDO's is extreme whilst the risk of loss due to the default of ADI's is considered low.

Early termination of a number of the CDO's is being pursued due to the default by Lehman Brothers occasioned by their bankruptcy in the USA – this relates only to \$4.875m of the Lehman Brothers arranged CDO's. The most recent development in this regard is that note holders have instructed the trustee to terminate the Lehman Brothers arranged CDO's and liquidate the underlying collateral. The timing and final amount to be realised is as yet unknown.

In response to the current market conditions, funds are currently being invested for short periods and only with highly credit rated major Australian banking institutions.

**POLICY IMPLICATIONS**

Corporate Policy 13-PL-003 – Investment of Funds.

As resolved at the 16 December 2008 Ordinary Meeting of Council, the policy has been amended to incorporate mechanisms that protect the Council's investments from undue volatility risk as well as the risk to reputation as a result of investments that may be perceived as unsuitable by the Community.

**ALTERNATE OPTIONS AND THEIR IMPLICATIONS**

Not applicable.

**C09/6000 - INVESTMENT STATEMENTS (REC) (ATTACHMENT)****CONCLUSION**

The current position and outlook in regards to the Council's CDO investments is very poor. It should be noted that the CDO's are structured in such a manner so as to provide for a level of defaults of a number of the entities referenced by the CDO's before there is loss of value at maturity of the CDO's themselves. In light of the extreme downturn being experienced in many world economies the risk of defaults of corporations referenced by CDO's owned by the City has increased significantly. The perceived view at the time of writing is that the economic situation, although appearing to have stabilised somewhat, will result in still further corporate failures some of which may be represented in CDO's owned by the City

It should also be noted however that the concerns with these investments will not impact on the Council's day to day operations or capital works programme as adequate funding is available to carry out the works identified in the Council's 2008/2009 Budget. Due to the long term nature of these investments, future impacts will be determined as the credit market situation becomes clearer.

**OFFICER RECOMMENDATION & COUNCIL RESOLUTION (6000)****NOTING**

**KEY ISSUES / SUMMARY**

- This report presents the financial statements to the end of March 2009 and recommends that they be noted by the Council.

**C09/6002 – FINANCIAL STATEMENTS FOR MARCH 2009 (AMREC) (ATTACHMENT)**

**BACKGROUND**

The Financial Statements for the end of the month of March 2009 have been prepared and tabled in accordance with the Local Government (Financial Management) Regulations 1996 as amended.

**DETAIL**

The attached reports have been prepared in compliance with the requirements of the legislation and Council policy.

To the end of March, a net operating positive variance of \$3.99m was recorded. Net capital expenditure remains \$5.79m under expended.

The majority of these variances reflect the phasing of budgets, unexpended capital expenditure on projects that will not be completed in 2008/2009 and will be carried forward to 2009/10. An estimated \$1.5m positive variance, as a result of salary and other cost savings, was identified in the half yearly budget review. This amount will need to be further refined as at the end of the financial year following determination of the final revenue and expenditure figures.

The Year To Date Budget comprises the budget as originally adopted by Council in June 2008 plus amendments made during the year as a result of the “mini budget review” adopted by Council in December 2008, the mid year budget review adopted by Council in March 2009 and monthly amendments as adopted by Council each month.

Investments have been valued at the cost of acquisition for the purpose of these monthly reports.

**C09/6002 – FINANCIAL STATEMENTS FOR MARCH 2009 (AMREC) (ATTACHMENT)**

**Revenue**

- Governance – 46% negative variance due mainly to incorrect phasing of reserve transfers and a marked slow down in development applications and therefore development application fee receipts.
- General Purpose Funding – 20% positive variance due to slightly higher than budgeted rates and general purpose grant revenue and higher returns on Municipal investment earnings when compared to the revised budget as adjusted during the mini budget review conducted in December 2008. This will be addressed in April as part of the mid year budget review.
- Health – 17% positive variance due mainly to an increase in licence fees collected from health licensing fees.
- Education & Welfare – 12% negative variance due mainly to lower anticipated income from delivered meals.
- Transport – 18% negative variance due mainly to grant income for road related projects not having been claimed as yet due to the relevant projects not being undertaken or not yet completed.
- Other Property & Services – 55% negative variance due mainly to lower proceeds from the disposal of vehicle and plant assets, as a result of a revised fleet replacement policy.

**Expenditure**

- Governance – 13% positive variance due mainly to lower employee costs across all areas.
- Law, Order & Public Safety – 11% positive variance due mainly to Community Security and Swimming Pool Inspections lower employee costs.
- Health – 14% positive variance due mainly to staff vacancies.
- Economic services – 21% negative variance as a result of costs not yet recouped from the South West Group.
- Other Property & Services – 50% negative variance due mainly to Fleet costs not yet allocated out to plant items.
