KEY ISSUES / SUMMARY

- Planning approval is sought from the Metro Central Joint Development Assessment Panel (JDAP) to construct a four storey (with undercroft parking and roof terrace) building comprising of 10 multiple dwellings located on L899 (18A) & L898 (18B) Tweeddale Rd, Applecross.
- The development is located on the corner of Tweeddale and Carron Roads and is designed with 5 multiple dwellings on each lot with a shared boundary wall. There is no shared access between the two lots.
- The application is an optional JDAP application which was submitted to the City on 14 November 2017.
- City Officers have completed the Responsible Authority Report (RAR) which is required to be submitted to the JDAP under the Planning and Development (Development Assessment Panel) Regulations 2011 on 30 January 2018.
- The proposed development was the subject of informal notification in accordance with LPP 1.1: *Planning Process and Decision Making* as the proposal is not seeking discretion under the Canning Bridge Activity Centre Plan.
- Subsequently, two (2) written submissions in opposition to the proposal have been received and prior to the consideration of the application by the JDAP, the details of the RAR including its recommendation to the JDAP is referred to Council for its information, consideration and endorsement.
- The recommendation of the RAR is that the JDAP approve the application.
- A copy of the resolution of the Special Meeting of Council will be forwarded to the JDAP as an attachment to the RAR.

POLICY IMPLICATIONS

Reasons for the Council Decision

Elected Members advised for the record that the following reasons for rejecting the officer recommendation:

- Legal Advice provided by Mr Peter Ward and tabled by Mr Amir Meshkin, Mr John Young and Mr Robert Mazegga, that provided the opinion that the development could not legally be approved.
- The lack of dwelling diversity, the development does not provide any single bedroom or affordable dwellings.
- Conjecture about the natural ground level associated with the development and the lack of a specific definition associated with natural ground level in the Canning Bridge Activity Centre Structure Plan.
- The amenity issues associated with the development, that the separate dwellings are not in fact separate, which requires a level of discretion. If the development was compliant, this level of discretion would not be required to gain approval.
