POLICY STATEMENT

1.0 Applications for Development Approval

- 1.1 The *Planning and Development Act 2005* defines “development” as:
“development” means the development or use of any land, including –
- (a) any demolition, erection, construction, alteration of or addition to any building or structure on the land;
 - (b) the carrying out on the land any excavation or other works;
 - (c) in the case of a place to which a Conservation Order made under section 59 of the *Heritage of Western Australia Act 1990* applies, any act or thing that –
 - i. is likely to change the character of that place or external appearance of any building; or
 - ii. would constitute an irreversible alteration of the fabric of any building.”
- 1.2 Clause 60 of the Regulations states that all development requires approval prior to the commencement of works unless it is of a type referred to in Clause 61.
- 1.3 Clauses 62 and 63 of the Regulations outline the information required to be provided as a part of the application for development approval. The City has also prepared a checklist to assist applicants in this respect. All applications for development approval are to include (at a minimum) all of the relevant information as outlined by the development application checklist. Where all of this information is not provided at lodgement, the application may be returned to the applicant.
- 1.4 Once a preliminary assessment of the application has been undertaken, further information may be requested from the applicant to enable a complete or more detailed assessment to be undertaken.
- 1.5 Clause 75 of the Regulations states that the local government is to determine applications for development approval within 60 days of the receipt of the application or 90 days where the application requires consultation with the public or other authorities. This timeframe may be extended if agreed in writing by the applicant and local government. If a decision is not made before the expiry date, the local government can be taken to have refused the development application, and an application for review to the State Administrative Tribunal may be triggered.
- 1.6 For development applications which are to be determined by the DAP, the timeframe for preparing and submitting an RAR is determined by the DAP Regulations.

2.0 Assessment

- 2.1 Development applications are assessed having regard to the development controls established by the planning framework including LPS6, state planning policies, the R-Codes, adopted precinct structure plans and activity centre plans, local development plans, Council Policy and local planning policy provisions.
- 2.2 Where a development application requires an assessment against the relevant performance standards, the following (as applicable) will be taken into consideration:

- (a) For all applications:
 - The matters to be considered in Clause 67 of the Regulations.
 - Relevant planning documentation such as the Local Planning Strategy, Structure Plans, State Planning Policies and the like.
 - Any other planning document adopted pursuant to LPS6.
 - Any comments received from the City's (or State's) Design Review Panel.
- (b) For applications where an exercise of judgement is sought in relation to the development requirements in LPS6:
 - Whether Clause 34 of LPS6 provides the ability to consider the application.
 - Whether the proposal satisfies the objectives of each zone.
- (c) For applications where an exercise of judgement is sought in relation to the development requirements in a Local Planning Policy or Council Policy:
 - The objective of the policy.
 - Any additional assessment criteria within the policy.
- (d) For applications which require an exercise of judgement under the R-Codes:
 - The objective(s) of the provision.
 - The relevant Design Principle(s) or Element Objective(s).

Note: For clarification in respect of this, refer to the Explanatory Guidelines and other supporting documentation of the R-Codes

- (e) For applications which require an exercise of judgement under an adopted structure plan, activity centre plan or local development plan:
 - The objectives and vision of the plan; and
 - The desired outcome for the relevant element in the Canning Bridge Activity Centre Plan (where assessment is required under this Activity Centre Plan).

2.3 Where Local Planning Policy – 1.2: Design Review Panel is applicable the development application should be referred to the City's Design Review Panel for its assessment and comment.

2.4 Development applications may also be referred to other government departments for their assessment, comment and recommendation where required.

- The City is bound to referral comments received by State Government agencies where required under the MRS and the relevant delegations and received within the required timeframe.
- The City is not bound by comments received by State Government agencies where the referral is not required under the MRS and relevant delegations.
- The City may elect to not determine applications under the MRS and instead refer the MRS component of the application to the Department of Planning, Lands and Heritage for determination. This would be in circumstances where the City does not agree with the comments received by the State Government Agency and be able to determine the LPS6 portion of the application.

2.5 Where, after the granting of development approval, an amendment is sought to either the timeframe to substantially commence, to a condition of development approval or the works component, the City will assess the amendment as per the Regulations and clause 3.13 and may waive the requirements of clause 2.1 to 2.4 depending on the nature of the amendment.

3.0 Advertising of Development Applications

The public consultation, or advertising process (as it is also referred to), is intended to facilitate community input into the decision-making process. Consultation can take a number of forms including letters to adjoining landowners and occupiers, a sign on site and information on the City's website. The written input received during the consultation process inform the decision-making process however neighbour consultation comments are not binding – they do not replace the role of the decision-maker. The decision maker is required to consider the comments received and balance these with a technical assessment against the relevant planning frameworks when making a judgement on the merit of a proposal. The following clauses outline the process the City will follow in relation to the advertising of Development Applications.

3.1 The following table outlines the minimum public consultation requirements for Development Applications

Application Type	Time Period (Calendar Days)	Sign on site	Written notification to owners and occupiers	City of Melville Website
Residential Development*	14	No	Yes As per clause 3.6	Yes
Standard Non-Residential Development	14	As per Clause 64 of Regulations	Yes As per clause 3.6	Yes
Complex Development	28	Yes	Within 200 metres of subject site	Yes

*where the proposal does not meet the definition of a complex development and meets the criteria under clause 3.3

All advertising is required to adhere to the requirements of Clause 64 of the Regulations where applicable.

3.2 Informal consultation and communication between the applicants and adjoining property owners is strongly encouraged prior to lodgement with the City. This more courteous, neighbourly approach will, in many situations enable an outcome to be achieved which best meets the interests of all parties involved.

The City will either reduce or refund 25% of the standard development application fee where:

- The proponent has pro-actively consulted on their plans with the adjoining properties clause 3.1 and 3.6 of this policy prior to development application lodgement; and
- The City has been provided with the necessary evidence at the time of lodgement that pre-lodgement public consultation has occurred. The City can provide the proponent with a list of adjoining property owner and occupier postal addresses consistent with clause 3.1 and 3.6 of this policy. The evidence of pre-lodgement consultation must be completed by the owner/occupier for the relevant property at the time of lodgement. This will be verified by the City;

- c) The City reserves the right to veto any pre-lodgement public consultation and will undertake separate consultation to any owners/occupies in the surrounding area; and
- d) If no response from an adjoining owner/occupier is received within 14 days from the proponent requesting comment, the proponent can submit that an attempt at contact was made at lodgement. This may be accepted in lieu of evidence of pre-lodgement consultation for that specific property only, enabling the proponent to still qualify for the pre-consultation concession (depending on the quality of evidence that consultation was attempted).

3.3 Advertising of Residential Development.

- (a) Any application which seeks a performance assessment against the following the Design Principles of the R-Codes (Volume 1) and Element Objectives of the R-Codes (Volume 2):

Part B: Low Density

- Clause 5.1.3 Lot boundary setback;
- Clause 5.1.6 Building height;
- Clause 5.3.7 Site works;
- Clause 5.4.1 Visual privacy; and
Clause 5.4.2 Solar access for adjoining sites

Part C: Medium Density

- Clause 3.2 Building height;
- Clause 3.4 Lot boundary setbacks;
- Clause 3.5 Site works and retaining walls;
- Clause 3.9 Solar access for adjoining sites; and
- Clause 3.10 Visual Privacy.

Volume 2: Multiple Dwellings R80 and above (including Mixed Use Development)

- All applications excluding subsequent additions which are considered minor in nature.

The applications which meet the above criteria will be advertised to the adjoining owner(s) and occupier(s) as detailed in Clause 3.6 as there may be a possible impact on the amenity of adjoining properties.

- (b) Notwithstanding the advertising requirements for Part B and C of the R-Codes Vol.1 as outlined above, if the City Officers are of the opinion that the discretion sought under the above clauses is minor in nature, the requirement for advertising may be waived if:
 - (i) the development clearly meets the performance requirements of the R-Codes;

- (ii) the discretion sought has the less amenity impact as the deemed to comply requirement; and
- (iii) the proposal will result in a better outcome overall than a deemed to comply requirement scenario.

Note: This exemption does not apply to performance assessments required under Clause 5.1.6 Building height and Clause 5.4.2 Solar access for adjoining sites of Part B or Clause 3.2 Building height and Clause 3.9 Solar access for adjoining sites of Part C. Performance assessments under these clauses always need to be advertised.

- (c) Applications which seek a performance assessment in relation to Design Principles or Element Objectives, other than those listed above, may be advertised at the discretion of City officers if it is considered there may be a possible impact on the amenity of adjoining owners and occupiers.

3.4 Advertising of Standard Non-Residential Development

- (a) The advertising of a 'D' or 'I' land use is generally only required to be undertaken where the scale or nature of the use may have impact on the amenity of the locality.
- (b) Advertising of land uses which have an X permissibility within the respective zone is not required – these land uses are not able to be considered and will be refused.
- (c) Non-residential development which seeks the exercise of judgement having regard to the LPS6 provisions, Council Policy, a Local Planning Policy, adopted precinct structure plans, activity centre plans or local development plans may be advertised at the discretion of City officers if it is considered there may be a possible impact on the amenity of adjoining owners and occupiers.

This will be extended to account for public holidays and the requirements of Clause 64 of the Regulations. Additional time may be provided at the discretion of the City to account for any mailing delays.
- (b) Persons can make formal request for additional time to make a submission, however, to enable the decision maker to achieve the statutory timeframes associated with the assessment of planning applications, formal requests for an extension to the advertising period may not always be facilitated.  - (iii) Where the development results in any additional exercise of judgement which may in the opinion of the City have an adverse impact upon the amenity of adjoining property owners and occupiers.
- (c) Where amended plans reduce the impact of a proposed development and/or where amended plans are lodged in order to address relevant planning related concerns as expressed by submitters, the amended plans need not be the subject of re-advertising.
- (d) Where amended plans are required to be the subject of re-advertising, the consultation process followed should be in accordance with Part 3 of this Policy.
