MESSAGE FROM THE MAYOR

The 2024–2025 year was another exciting one, full of change and progress towards our community vision of a vibrant, prosperous City for everyone who works, lives and visits.

We launched our new Council Plan for the Future 2024–2034 which combines our Strategic Community and Corporate Business plans. This integrated plan provides a consolidated roadmap for the future and will help inform future decision making and direction for the City.

The Council Plan will ensure our projects and services are aligned with our community's aspirations, which feed directly into our new key outcomes and objectives. The community told us that their priority areas were:

1. Sustainable practices/climate change
2. Streetscapes, trees and verges
3. Responsible growth and development
4. Community safety and crime prevention
5. Sport and recreation facilities and services
6. Services, facilities and care for seniors.

These community aspirations became the foundation of our key themes that guided the development of our outcomes and objectives to create a vibrant, inclusive and sustainable Melville now and for the future. Our community-informed focus will be in maintaining our service delivery and working towards key outcomes of green spaces and sustainability, community and recreation facilities, connectivity, responsible growth and development and community safety.

Our integrated planning and reporting framework was used to create the plan and will help ensure we remain focused on our achieving our strategic direction and our short, medium and long-term intergenerational outcomes and objectives.

With our community being an integral part of our decision making, it was very pleasing to see the number of people visiting our dedicated Melville Talks engagement webpages double from last year. Through 68 engagement projects during the year, we asked our community to help shape various projects and provide feedback on a diverse range of topics to ensure that the voice of our community is at the heart of our decision making.

I would like to offer my heartfelt thanks to the State and Federal governments for their significant financial support for key upcoming projects for the City. This support is invaluable to ensuring these major projects come to fruition. I look forward to keeping our community updated about these and other exciting projects in the City of Melville.

I am pleased to report that we successfully moved two motions at the National General Assembly of Local Government. The first motion asked the Australian Government to act to make the producers of items such as electronic waste, tyres, mattresses and packaging more responsible for reducing end-of-life waste and waste disposal costs.

It was fantastic to see Emma Charlton from Bottle Top Hill receive the Community Citizen of the Year Award from Auspire. The award recognised Emma's outstanding contribution and connection to the local community.

In our continued commitment to reconciliation, we proudly launched our second Stretch Reconciliation Action Plan (RAP) 2025–2028 and made several steps to ensure our reconciliation efforts assist First Nations people now and in the future.

We hosted a diverse array of events that increased community connectivity and vibrancy and took several measures to help local businesses prosper. During the 2024-2025 financial year, we took positive steps toward becoming carbon neutral as an organisation by 2030 and facilitate community progression to net zero emissions by 2050 to ensure a sustainable future.

Thank you to our wonderful community for your contribution to making Melville vibrant, sustainable and inclusive, and the prosperous, thriving, connected community that it is today.

Katy Mair
City of Melville Mayor

MESSAGE FROM THE CEO

The close of the 2024–2025 financial year marks the City’s most exciting year since I became CEO in 2023 as we launched our new Council Plan. This community-informed, council-led 10-year plan sets out our direction, outcomes and objectives as we realise our vision of a vibrant, sustainable, inclusive Melville.

Under our Council Plan for the Future 2024–2034, our revitalised vision, outcomes and objectives have honed our focus, helping us to deliver better outcomes by focusing on what matters most to our community, all while demonstrating our values of excellence, participation, integrity and caring and continuing to put our customers at the centre of everything we do.

The City’s We Belong Plan 2023–2027 continued to increase diversity and inclusion in the workplace and we were proud to be named on Diversity Council Australia’s annual list of inclusive employers for 2024–2025.

I am humbled to lead such a dedicated, hardworking, skilled workforce, who value their efforts and contribution in making Melville a great place for everyone to enjoy. In celebrating our fantastic staff, I was proud to see our Coordinator Resource Recovery and Waste Vanja Marjanovic awarded as the Woman of Waste for 2024 at the Waste Innovation and Recycling Awards. This award recognises women in the industry who have driven change and lead in breaking down barriers and creating new career prospects for the next generation.

Voted by the community, our award winning LeisureFit Centres were recognised for their ability to meet the needs of our community, taking home the People’s Choice – Large Business award at the AUSactive Awards. This award demonstrates the value our community places on these centres and their ability to help establish healthy, connected communities. Our newly renovated swimming area at LeisureFit Booragoon is now open and it is great to see our community use this space to further their health and fitness goals.

Our Canning Bridge Place Grants program won a Minister for Local Government Place Innovation Award in October 2024 for the program’s use of an inventive and responsive circular economic model. This program takes parking funds (approximately \$120,000 per year) and reinvests them in the Canning Bridge area through local community and business projects.

Our commitment to carbon neutrality as an organisation by 2030 saw the launch of our first Corporate Climate Action Plan Annual Progress Report and the Community Climate Action Plan marking important milestones in our commitment to sustainability and climate change action.

I would like to thank the City’s hardworking staff and Elected Members who continue to deliver outstanding services and projects for our community to enjoy now and in the future.

The successes of this year have been made possible through ongoing conversations, effective collaboration, and close partnerships with our State and Federal governments; our local State and Federal members; our many communities; sporting, cultural, environmental and not-for-profit partners and agencies; and our incredible volunteers who make our vision of a vibrant, sustainable and inclusive Melville a reality.

A special thanks to our residents, ratepayers and businesses who make the Melville community what it is today – a great place to live, work, run a business, visit and enjoy our natural areas and vibrant centres.

Gail Bowman

City of Melville Chief Executive Officer

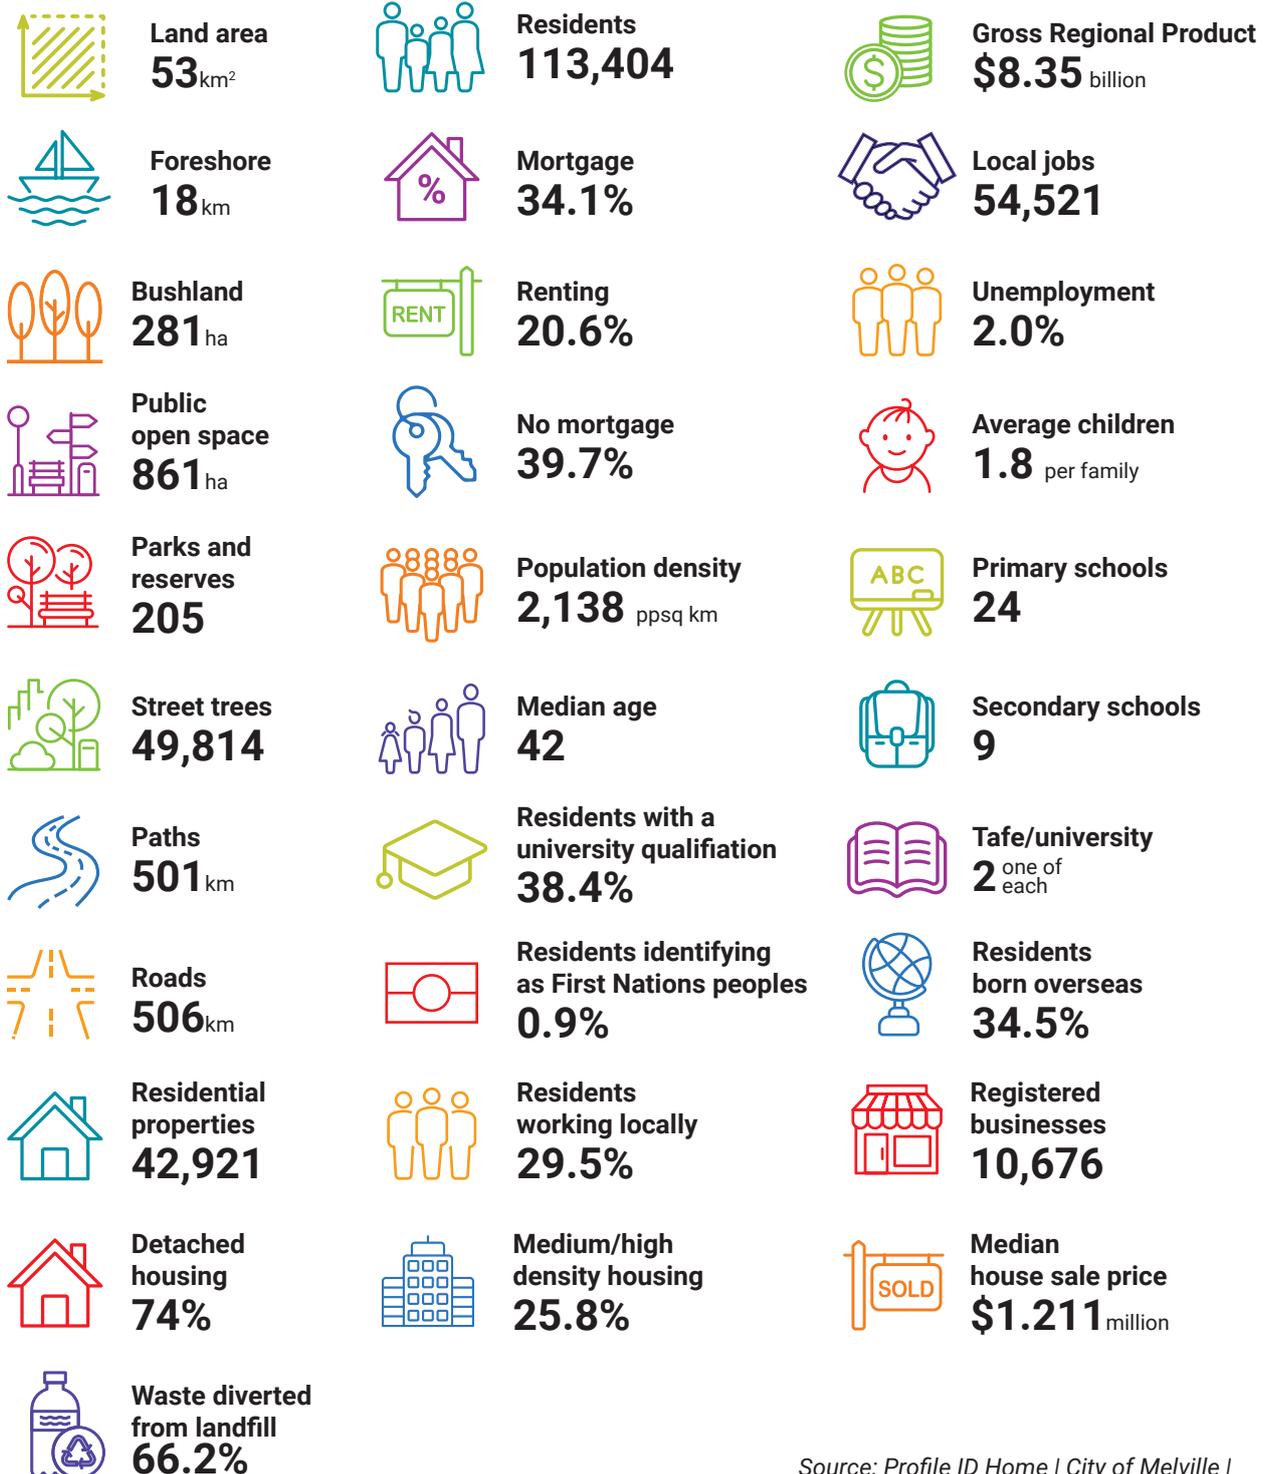

Fast facts

The City of Melville sits along 18km of the banks of Derbal Yerrigan (Swan) and Djarlgarro Beelieer (Canning) rivers on Whadjuck Noongar Boodja, in Perth, Western Australia.

As a metropolitan central sub-region local government, the City of Melville is home to a diverse and multicultural community of more than 113,000 residents across six wards and 18 suburbs.

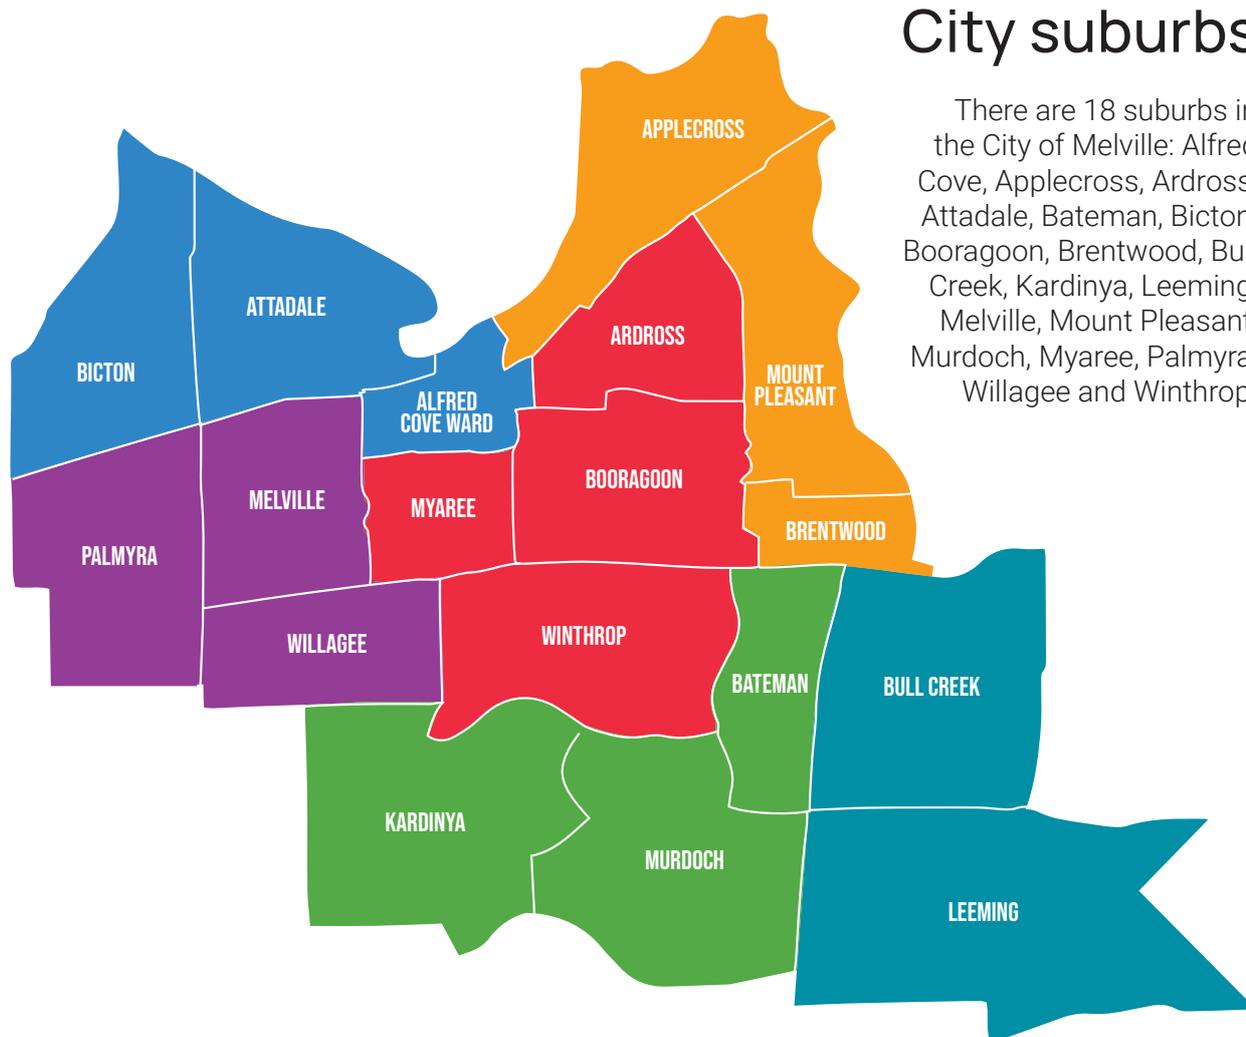

Our residents enjoy a rich built environment, natural heritage, vibrant arts and culture, a variety of retail and business precincts, an abundance of opportunities for physical and social activity, beautiful public open spaces and unique nature landscapes.

Our Council Plan

The City of Melville adopted its first Council Plan for the Future 2024–2035 (Council Plan) in August 2024. The Council Plan integrates the City's Strategic Community Plan (SCP) 2020–2030 and Corporate Business Plan (CBP) 2020–2024, and provides a community-informed and Council-led vision, against which we set our strategic direction for the next 10 years.

Bringing these strategic decision-making plans (CBP and SCP) together created a cohesive, coordinated and integrated Council Plan, ensuring our vision, outcomes and objectives are all connected to our community's priorities and aspirations.

Through extensive community engagement, we found that 65.79% of people felt that the City's previous vision of 'engaging with our diverse community to achieve an inclusive, vibrant and sustainable future,' remains relevant but could be clearer. In response, the community-informed Council Plan introduced a more consolidated vision: **Vibrant, Sustainable, Inclusive Melville**.

The City's mission remains the same: **to provide good governance and quality services for the City of Melville community.**

With the community's input, the five key outcome areas that the City will focus on are:

Healthy, Safe
and Inclusive

Clean
and Green

Sustainable
and Connected
Development

Vibrant and
Prosperous

Good Governance
and Leadership

OUR VISION

Vibrant, Sustainable, Inclusive Melville

The City of Melville's purpose is set out in Section 1.3(3) of the *Local Government Act 1995* (WA): 'In carrying out its functions, a local government is to use its best endeavours to meet the needs of current and future generations [in its district] through an integration of environmental protection, social advancement and economic prosperity.'

OUR MISSION

To provide good governance and quality services for the City of Melville community.

OUR APPROACH

To put the customer at the centre of everything we do.

OUR VALUES (EPIC)

Our values guide our behaviour in everything we do.

Excellence

Striving for the best possible outcomes

Participation

Involving, collaborating and partnering

Integrity

Acting with honesty, openness and good intent

Caring

Demonstrating empathy, kindness and genuine concern

About Council

The Council leads the strategic direction for the City of Melville. They are informed by our community and respond to the community's priorities and aspirations through the Council Plan, delegated decision-making, Council meetings and committees.

The City of Melville Council is made up of a Mayor and 12 Councillors/Elected Members, including the Deputy Mayor, who represent the community in one of the six wards shown below. The community elects the Mayor and Councillors for four-year terms, with a half-Council election every two years. Elected Members elect the Deputy Mayor each year. The Mayor speaks on behalf of the City and liaises with the Chief Executive Officer (CEO) on the affairs and performance of the organisation.

COUNCIL MEETINGS

The Council operates on an Agenda Briefing Forum/Ordinary Meeting of Council structure to conduct its meetings. The Agenda Briefing Forum is for Elected Members and interested residents to become more informed on matters prior to formal consideration and decision at the Ordinary Meetings of Council. The forums encourage dialogue between Elected Members, officers and members of the public and allow Elected Members to gain insight and understanding of issues prior to presentation at the Ordinary Meetings of the Council.

Agenda Briefing Forums are generally held on the second Tuesday of each month and Ordinary Meetings of the Council are generally held on the third Tuesday of each month. Please note, no meeting was held in January 2025.

ABOUT THE COMMITTEES

Elected Members are also involved in the Governance Committee and the Financial Management, Audit, Risk and Compliance Committee (FMARCC).

The FMARCC was renamed the Audit Risk and Improvement Committee at the November 2024 Ordinary Meeting of Council.

The Governance Committee is a non-statutory advisory body that provides guidance and support to the Council on corporate governance, with the aim of enhancing governance standards within our City. The Governance Committee convenes on an as-needed basis and convened four times in 2024–2025 to deliberate the following matters:

- CEO key performance indicators progress reports
- CEO performance review.

The FMARCC is an audit committee tasked with aiding the Council in fulfilling its duties related to risk management, internal controls, legislative compliance, and both internal and external audit reporting. In 2024–2025, the Audit Risk and Improvement Committee convened four times to review and receive reports on the following matters:

- City of Melville Annual Financial Report – 2023–2024
 - City of Melville Community Annual Report – 2023–2024
 - Compliance Audit Return 2024
 - Amendment of Section 3.16 of the *Local Government Act 1995 (Local Government Reform)*
 - Internal audit report – Compliance Audit Return 2024
 - Review of Local Cat and Local Fencing laws (adopted 15 July 2025)
 - Freedom of information activities update
 - Governance and compliance activities update
 - Insurance and risk management report updates
 - Legal status report updates
 - Internal audit report – fraud control
 - ICT cyber security activity report
 - Internal audit activity reports.

Planning for the future and achieving our vision

Our Council Plan for the future 2024–2034 is our highest-level guiding document and articulates our community's aspirations, priorities and vision for the future. It helps us understand what matters most to our community and guides how we deliver services and facilities for the next ten years.

As part of the major review of the City's Strategic Community Plan and Corporate Business Plan and to inform the development of the City's Council Plan 2024–2034, the City engaged the community to understand their aspirations and priorities.

Between October and December 2023 the City conducted an extensive multifaceted consultation process, across two phases which collectively heard from more than 3,000 community members.

A diverse range of participants provided feedback on what makes the City of Melville unique, what they love and what could be enhanced.

MARKYT® Community and Wellbeing Scorecard

The first phase of the engagement occurred in October 2023 with the City of Melville Markyt (R) Community Scorecard. This survey invited the community to rate our services, events, programs and facilities, highlighting areas they love and priorities areas of focus. Respondents were also asked to complete a follow-up survey on their general wellbeing and experiences with the City of Melville as a place to live, work and visit.

The MARKYT® Community Scorecard measures community satisfaction with the products and services we offer. The scorecards provide us with key feedback on our services, infrastructure, and facilities so we can identify areas we are performing well in and areas for improvement. The results are then compared to previous years and other local governments in WA to understand how we are performing over time, and in comparison to other local governments.

The survey is conducted every two years, and in 2023 our 'Overall Performance Index Score' was 73, which is 10 points above the industry average. The overall performance index score is a combined measure of the City of Melville as a place to live and the Council as a governing organisation.

Areas in which we performed particularly well were:

- Library services
- Sport and recreation facilities and services
- Playgrounds, parks and reserves

Our most improved areas were:

- Respect for First Nations peoples, culture and heritage
- Local history and heritage

Areas we need to focus on and improve included:

- The Community Safety Service (CSS)
- New facilities at sporting grounds
- Access to seniors' services and activities
- Growing the urban canopy by planting more trees and preserving existing, mature trees
- Housing affordability and housing diversity.

Informed by community feedback the community's six key priorities identified from phase one were:

1. Sustainable practices and climate change
2. Streetscapes, trees and verges
3. Responsible growth and development
4. Community safety and crime prevention
5. Sport and recreation facilities and services
6. Services, facilities and care for seniors.

The second phase of the community engagement took place between November and December 2023 and focused primarily on capturing the community’s overall vision, emerging and existing aspirations, and to identify challenges and opportunities.

This phase was designed to accommodate various levels of community involvement based on participants preferred time, commitment and interest in shaping the future of our City. A range of engagement methods were undertaken, including workshops, drop-in sessions, idea-sharing and online, in-person and over the phone surveys.

The outcome from the first and second phase of engagement included the refinement of the City of Melville vision and identification of six key themes that guided the development of our outcomes and objectives:

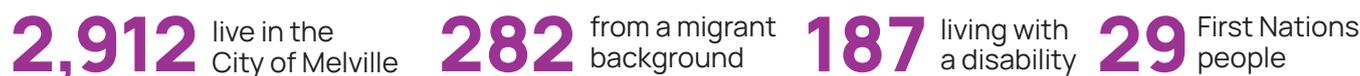

- 1. Green spaces and sustainability
- 2. Community and recreation facilities
- 3. Events and activities
- 4. Connectivity
- 5. Responsible growth and development
- 6. Community safety

This community feedback in collaboration with the Council and City staff resulted in the City’s first Council Plan for the Future.

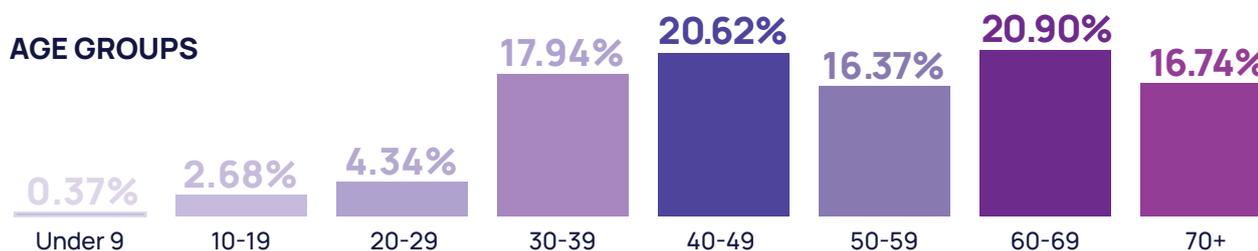

The **ENGAGEMENT SNAPSHOT** for the Council Plan can be viewed below:

DEMOGRAPHICS

AGE GROUPS

GENDERS

To see our community-informed council-led outcomes, go to page 24. We report back to the community on our progress against the Council Plan in this annual report.

Integrated Planning and Reporting Framework

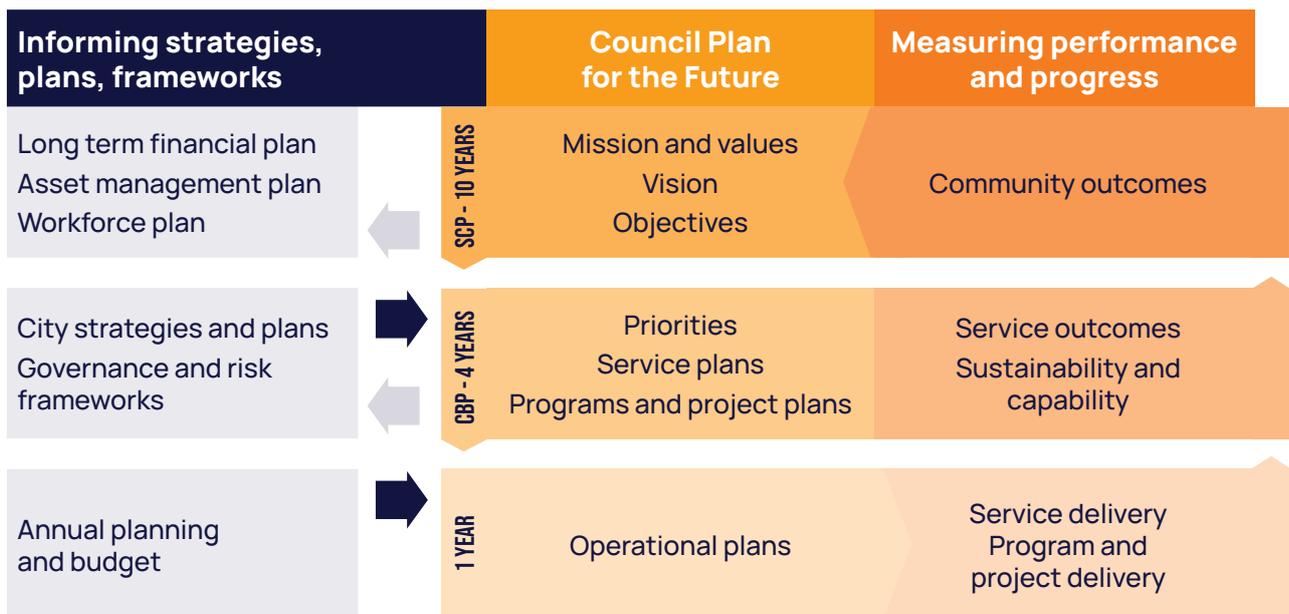

The *Local Government Act 1995 (5.56)* requires all local governments 'to plan for the future'. This is achieved through an Integrated Planning and Reporting (IPR) Framework.

The IPR Framework aims to support the sustainability of local governments by ensuring that the priorities set and services delivered align with and respond to the needs, priorities and aspirations of the community.

The Council Plan incorporates the IPR framework in aligning our long-term vision, values, outcomes and objectives directly with the community's priorities and aspirations, ensuring that the voices of our community are central to our strategic planning and decision making.

The City's services and projects are aligned with our key outcomes and objectives and set against our resourcing capability to deliver short, medium and long-term intergenerational community outcomes.

The diagram below illustrates the IPR framework for our Council Plan.

The Council Plan was informed and influenced by external factors, such as significant strategic impacts and federal and state government legislation, policies, plans and projects.

The direction and outcomes from the Council Plan have been mapped against four significant strategic impacts (social, environment, economic and governance) to assist with building resilience and adaptability within City strategies, plans, policies and practices to meet new and changing community requirements.

For more information on the significant strategic impacts impacting the Council Plan, please see page 13 of the [City of Melville Council Plan for the Future 2024-2034](#).

Ceramcist Robbie Kerr takes part in Melville Open Studios

Our outcomes and objectives

	SOCIAL / COMMUNITY	ENVIRONMENT	BUILT ENVIRONMENT
OUTCOMES	Healthy, Safe and Inclusive	Clean and Green	Sustainable and Connected Development
	Healthy, safe and inclusive communities with a sense of wellbeing, social connection and participation	A clean, green and sustainable City for current and future generations	Sustainable, connected development and transport infrastructure across our City
OBJECTIVES	1.1 Facilitate a sense of community, wellbeing, social connection and participation.	2.1 Protect and enhance our natural environment, ecosystems and biodiversity.	3.1 Facilitate enhanced and sustainable urban development and amenity.
	1.2 Provide a range of inclusive local community services, events and cultural activities.	2.2 Sustainable use of resources and adoption of a circular economy approach, optimising waste reduction and resource recovery.	3.2 Deliver sustainable and well-planned infrastructure and public places and spaces.
	1.3 Improve community safety and security.	2.3 Increase the urban forest tree canopy on City managed land.	3.3 Plan for urban growth and local commercial activity centres.
	1.4 Provide inclusive multipurpose places and facilities to encourage healthy lifestyles and wellbeing.	2.4 Provide and improve parks and green open spaces.	3.4 Protect and promote the City's character and heritage.
	1.5 Support sustainable sporting and community groups and volunteering.	2.5 Mitigate and adapt to climate change impacts.	3.5 Facilitate improved integrated public transport solutions.
	1.6 Provide and facilitate lifelong learning opportunities.	2.6 Transition the organisation to carbon neutrality by 2030 and facilitate community progress to net zero emissions by 2050.	3.6 Provide sustainable and connected road, bicycle, footpath and transport networks.

ECONOMIC		GOVERNANCE	
Vibrant and Prosperous		Good Governance and Leadership	
Economic prosperity and vibrant, resilient communities and businesses		Leadership and good governance for the benefit of the whole community	
4.1	Facilitate vibrant activated local places and centres.	5.1	Provide transparent and accountable good governance.
4.2	Increase awareness of Melville as a tourism and eco-tourism destination.	5.2	Ensure long term financial sustainability, strategic advocacy and partnerships, and diverse revenue streams.
4.3	Attract investment in strategic locations.	5.3	Ensure efficient and effective use of assets, resources and technology.
4.4	Support local business growth and resilience.	5.4	Strengthen active citizen engagement, participation, and access to information.
4.5	Facilitate a business friendly experience.	5.5	Provide excellent customer experiences and ease of access.
		5.6	Provide an inclusive, safe, healthy, equitable and engaging workplace.

Over the next four years the City will deliver the following high-level services to support in the achievement of our community's aspirations and priorities.

Our services

Healthy, Safe and Inclusive	Clean and Green	Sustainable and Connected Development	Vibrant and Prosperous	Good Governance and Leadership
<ul style="list-style-type: none"> • Community development - people • Neighbourhood centres and community capacity building • First Nations engagement and reconciliation • Libraries • Arts, culture and events • Museum and cultural precincts • Community safety • Community safety mobile patrol service • Ranger services • Public health • Sport and recreation • LeisureFit services and facilities • Point Walter Golf Course 	<ul style="list-style-type: none"> • Sustainability • Natural areas management • Parks and streetscape management • Resource recovery and waste management 	<ul style="list-style-type: none"> • Building services • Development compliance • Statutory planning services • Roads and transport infrastructure - roads and carparks • Roads and transport infrastructure - stormwater and drainage • Paths • Traffic and road safety • City buildings project management • City buildings management • Strategic urban planning 	<ul style="list-style-type: none"> • Place activation • Strategic land and property management • Business development 	<ul style="list-style-type: none"> • Community and stakeholder engagement • Customer experience • Asset management planning • Corporate strategy • Communications • Finance and risk • Information communications and technology • Governance • Internal audit • People and culture • Workplace health and safety • Fleet • Business support

We also conduct regular public benefit testing and value for money auditing and look for efficiencies and cost savings to ensure our services and facilities are an economic, efficient and effective use of ratepayer money. We try not to inappropriately duplicate any state, federal or private services or facilities.

Although what we provide responds to the needs of our community, state legislation also requires us to provide certain services or facilities.

For more information on all City services, projects and programs for 2024–2025, including resourcing and costs, see pages 23–67 of the City of Melville Council Plan 2024–2034.

Our roles

As a local government we play a key role in achieving our community's aspirations and our vision of engaging with our diverse community to achieve a vibrant, sustainable and inclusive Melville.

Although we are ideally placed to understand and respond to the changing needs of our community, we understand that some areas are outside our direct control or expertise and we need to work with and through the commitment and action of others, such as State and Federal governments, business, community organisations, and residents.

We aim to be agile and regularly track our progress in achieving our community's aspirations to see if we need to refocus and realign the different roles we play and services and facilities we provide.

Different roles we play

REGULATOR – we have a statutory obligation to regulate a specific area of activity.

MONITOR – we gather information and check progress over time.

FACILITATOR – we bring together and encourage others to achieve goals.

ADVOCATE – we promote the interests of our community to other decision-making organisations, such as state and federal governments.

FUNDER – we provide funding to others to provide services and facilities.

PARTNER – we work collaboratively with others to deliver services and facilities.

PROVIDER – we are responsible for service and facility delivery.

City of Melville CEO Gail Bowman, Minister Catherine King, Member for Tangney Sam Lim and Deputy Mayor Karen Wheatland

A year in review

AUGUST - SEPTEMBER (Djilba: SEASON OF CONCEPTION)

- Seven projects secured funding as part of our Canning Bridge Place Grants program.
- Our staff were recognised at the Library Board Awards.
- Our Library and Cultural Centre (LCC) project hit another important milestone with the architects Christou Design Group (CDG) confirmed.
- Our refurbished Willagee Library was renamed to become our first dual-named library. The library is now known as Willagee Library Wilgi Kaartdijin Mia, meaning Willagee Knowledge Home.
- We continued our commitment to improving road safety in Leeming by installing a speed platform at the exit of Striker Indoor Sports and Fitness onto Farrington Road.
- Lacrosse siblings, a sailor and a BMX racer were among the 11 young athletes awarded a 2024 Youth Sports Scholarship.
- We secured \$60,000 from the State Government's Creativity for Schools (CFS) grants for our Write Club project, which helps local students develop key skills in literacy, critical thinking and self-confidence.

OCTOBER - NOVEMBER (Kambarang: SEASON OF BIRTH)

- To encourage residents to bring nature back into their gardens, the City of Melville and five other local governments partnered with Perth Natural Resource Management (NRM) to support the ReWild Perth Project.
- Our LeisureFit Centres were recognised for their ability to meet the needs of our community, taking home the People's Choice – Large Business award at the AUSactive Awards.
- From November 2024 to March 2025, we hosted Melville Summer Music with ten free, family-friendly concerts featuring WA acts at five stunning parks.
- Our popular Mount Henry Jetty in Mount Pleasant reopened following a \$1.7 million replacement.
- We were proud to have been named on Diversity Council Australia's annual list of Inclusive Employers for 2024–2025.

Business Awards winners

DECEMBER - JANUARY (Birak: SEASON OF THE YOUNG)

- We were thrilled to welcome \$15 million worth of funding through the Federal Government's Thriving Suburbs Program for our future Library and Cultural Centre.
- Launched the rebrand of Piney Lakes Environmental Education Centre to the City of Melville Eco Hub.
- Our commitment to creating a diverse and inclusive workplace was highly commended at the 2024 Most Accessible Communities in WA (MACWA) Awards.
- LeisureFit Booragoon was transformed into a modern, contemporary and accessible swimming facility following a \$13.7 million refurbishment.

FEBRUARY - MARCH (Bunuru: SEASON OF ADOLESCENCE)

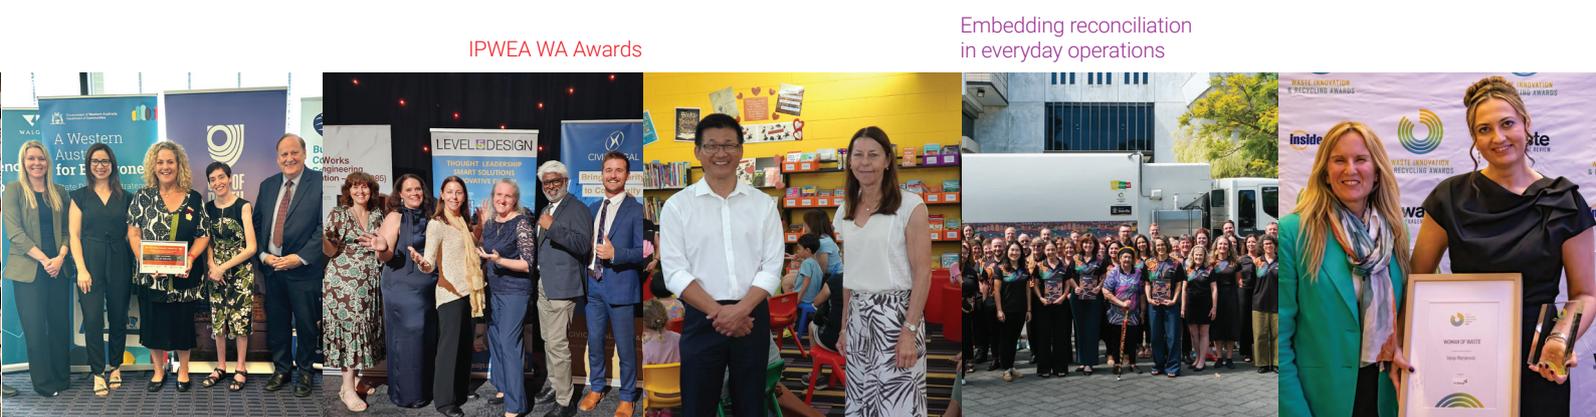

- We encouraged the community to share their ideas for the future Library and Cultural Centre during a public engagement.
- Our engineering team won a highly commended award in the prestigious Institute of Public Works Engineering Australia (IPWEA) WA Awards.
- We secured funding of more than \$518,000 to increase renewable energy generation, reduce reliance on grid electricity and cut carbon emissions.

APRIL - MAY (Djeran: SEASON OF ADULTHOOD)

- We proudly launched our second *Stretch Reconciliation Action Plan (RAP) 2025–2028*, reaffirming our commitment to embedding reconciliation in everyday operations.
- We launched *Murals and More: A Canning Bridge Adventure*, a brand-new children's activity book designed to spark creativity and inspire visits to the area.
- Secured Lotterywest support for two key projects: the culturally significant Goolugatup Lowerlands and an increase in public open space in Canning Bridge. A total of \$2,815,000 in grant funding was awarded.

JUNE - JULY (Makuru: SEASON OF FERTILITY)

- June 2025 Council approved the concept plan for the Moreau Mews Town Square in the Canning Bridge precinct.

Key items of capital expenditure

In 2024–2025, **\$52 million** was incurred in investment activities. Key items of capital expenditure included:

Our 2024–2025 capital works program was partly funded by government funding programs, including the Roads to Recovery Program and Main Roads Regional Grants Program and the Community Sporting and Recreation Facilities Fund (CSRFF) program. The City of Melville did not undertake any major land transactions in 2024–2025.

As per regulation 19BE of the Local Government (Administration) Regulations 1996, below are the amounts of capital grants, subsidies, and contributions received by the City of Melville in the last three financial years for replacing and renewing assets:

Financial year 2024-2025
(Audited): **\$7,719,822.72**

Financial year 2023-2024
(Audited): **\$3,356,376.61**

Financial year 2022-2023
(Audited): **\$4,885,820.06**

\$23.8m for works on City-owned buildings, including \$6.8m for the Leisurefit Booragoon Refurbishment, \$3.2m for upgrading changerooms at Len Shearer Reserve, \$3m for the Blue Gum Community Centre redevelopment, \$2.9m for the Civic Centre HVAC replacement, \$2.3m for the design stage of new Library and Cultural Centre, \$1.2m for the Melville Reserve redevelopment and \$1m for BMX facilities at Bob Gordon Reserve.

\$11.3m for roads, including \$2.5m at various locations between Kirk Road to Murdoch Drive at Somerville Boulevard, \$1.0m for Leeming Recreation Centre carpark, \$727,000 of mill and overlay at various streets between Worley Street and Leach Highway, and \$594,000 for safety improvements between Adrian Street and Cleopatra Street.

\$7.6m for parks streetscapes, including \$3.2m for the Canning Bridge Activity Centre, \$1.1m for the Goolugatup Heathcote Lower Development and \$733,000 for the Webber Reserve redevelopment.

\$2.1m for paths, including \$385,000 for the Blackwall Reach Pde renewal and \$195,000 for constructing a new path between Doney Street, Canning Highway to Norma Road.

\$2.0m for drainage, including a \$221,000 drainage system improvement at Blue Gum Lake, and \$119,000 for installing a new drainage site on Honour Avenue.

\$1.2m for furniture and equipment, including IT hardware and software.

\$1.4m for plant and equipment, including fleet.

\$1.0m for playgrounds, including \$249,000 for the Point Walter Foreshore Playspace.

\$0.9m for irrigation.

\$0.5m for environmental, including \$253,000 for Melville Beach Road.

\$0.2m for lighting, including \$108,000 to upgrade floodlighting and install new poles at Tompkins Park Reserve.

\$0.1m for foreshore facilities, including \$49,000 for the Majestic Close Boardwalk.

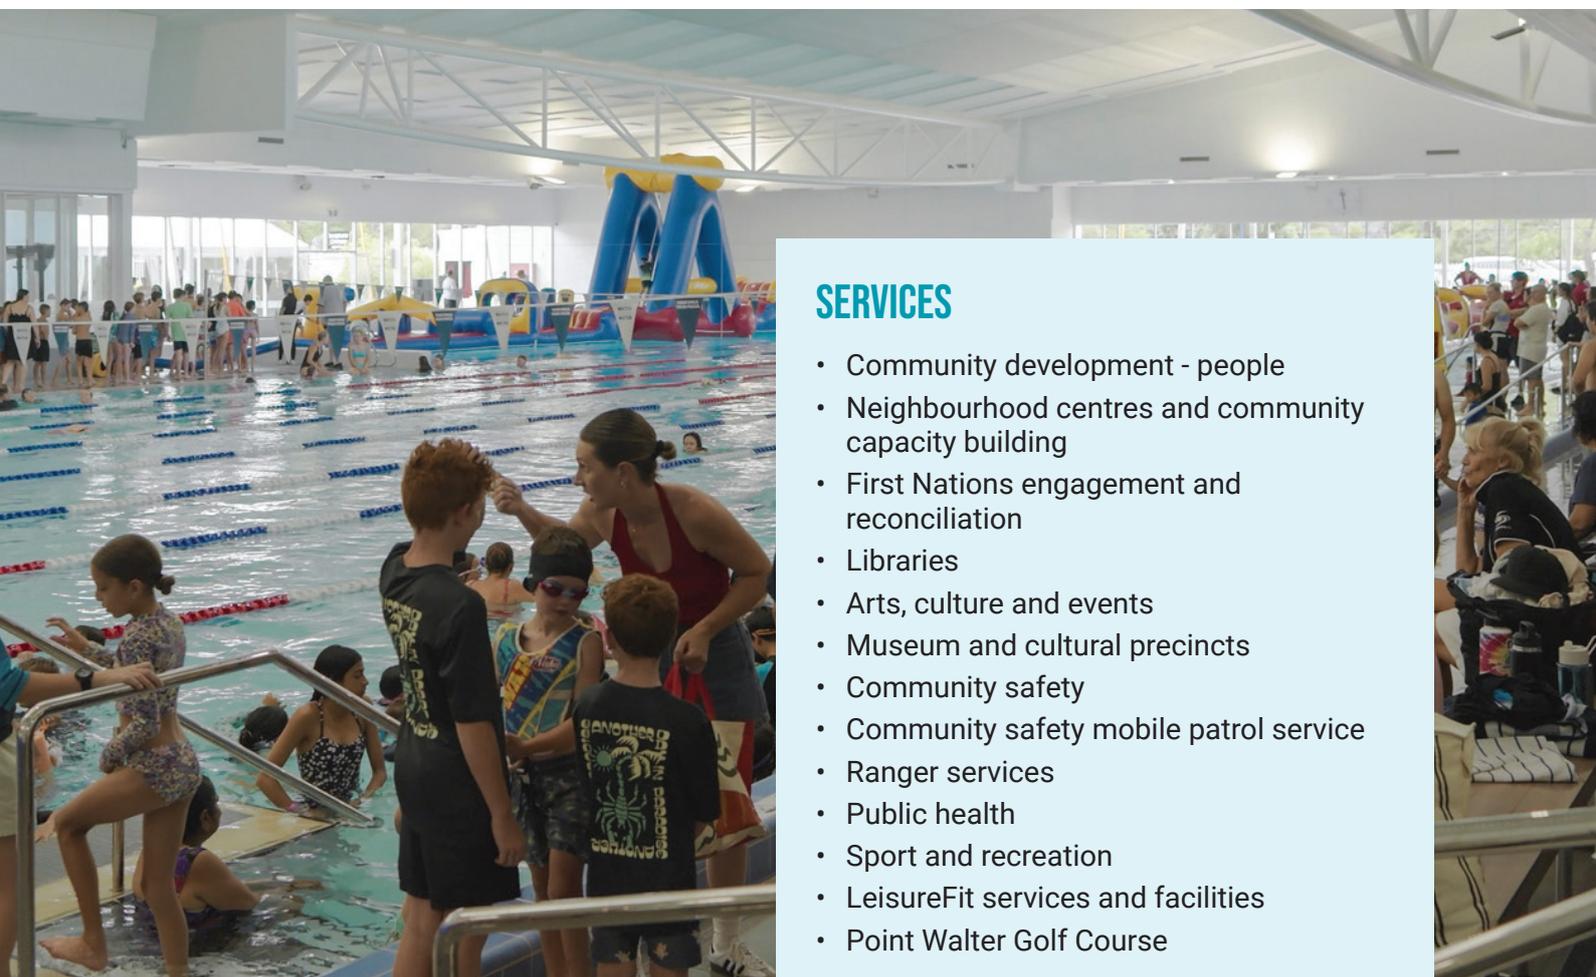

Outcome 1: Healthy, Safe and Inclusive

Healthy, safe and inclusive communities with a sense of belonging and wellbeing

OBJECTIVES

- 1.1 Facilitate a sense of community, wellbeing, social connection, and participation.
- 1.2 Provide a range of inclusive local community services, events and cultural activities.
- 1.3 Improve community safety and security.
- 1.4 Provide inclusive multipurpose places and facilities to encourage healthy lifestyles and wellbeing.
- 1.5 Support sustainable sporting and community groups and volunteering.
- 1.6 Provide and facilitate lifelong learning opportunities.

SERVICES

- Community development - people
- Neighbourhood centres and community capacity building
- First Nations engagement and reconciliation
- Libraries
- Arts, culture and events
- Museum and cultural precincts
- Community safety
- Community safety mobile patrol service
- Ranger services
- Public health
- Sport and recreation
- LeisureFit services and facilities
- Point Walter Golf Course

The community enjoyed the refurbished facilities at LeisureFit Booragoon during a free family fun day

HIGHLIGHTS

Healthy

Issued **8** commercial permits for recreation/personal training/water-based foreshore activities.

Provided **76** Youth Sport Grants and **11** YSS Scholarships.

4,930 LeisureFit Members, up **584** from last year.

864,508 attendances at our LeisureFit Centre, up nearly **50,000** from last year.

Held **234** Active in the Park fitness classes.

54,100 rounds of golf were played at Point Walter Golf Course.

Conducted **3,152** swimming pool inspections.

Completed **843** routine food premises inspections with **96%** of businesses scoring 3+ stars. There were **965** food premises inspections conducted for the year in total.

Handed out **\$4,000** worth of fines following the food safety inspections.

Inspected **20** beauty and hairdressing businesses to check they are clean, well maintained and comply with relevant legislation.

Completed **29** public building inspections to ensure they are safe for our community to use.

Responded to **775** complaints about noise.

Safe

Conducted **20,056** targeted patrols based on information from the community or police.

Conducted **29,031** checks through Holiday Watch Patrols.

Responded to **687** calls from police for assistance. The Community Safety Service (CSS) also provided police with **787** intelligence reports, managed **2,606** maintenance issues and assisted with **45** jobs regarding missing persons.

Received **25** calls about vandalism, **372** calls about antisocial behaviour, **652** calls about suspicious activity and made **2,606** maintenance reports.

Completed **1,197** graffiti removals.

Responded to **2,431** customer requests for illegally parked vehicles.

Responded to **544** reports for abandoned vehicles and **269** reports of barking dogs.

Delivered **13** education and prevention programs.

Reunited **97%** of lost dogs and cats with their owners or helped them find new homes.

Reached out to **171,602** people through our education and prevention programs.

Increased eNews subscribers to **1,418**, up nearly **200** from last year.

1,675 people were transported through the Community Bus Service.

Supported **266** people through the Age Friendly Assistance Fund.

Held five seniors events with **550** people attending.

3,295 people attended the Youth-Drop-In service.

Held **11** youth events.

Across **2** events, **107** participants took part in our Wheeled Sports program.

PHAZE held **8** sessions, attracting **133** people.

More than **300** people came to the Youth Collective Market.

1,629 people connected to volunteer opportunities through the Melville Volunteer Resource Centre (MVRC).

Received **69** community grant applications.

Assisted **184** residents through the financial counselling service.

Loaned **993,689** physical items and **302,536** e-resources to our **34,140** library members.

Welcomed **579,792** visitors to our libraries, with **5,113** children attending Storytime, **10,822** children attending Baby Rhyme Time and **9,045** adults attending our adult events and programs.

Commissioned two new murals in Canning Bridge, installed **15** irrigation cubicles wrapped with new artwork, commissioned four sump murals. Approved **3** public art projects, with **2** installed by developers under the Percent for Art scheme.

135 artworks were displayed for Melville Art Awards, attracting **2,555** visitors.

Melville Open Studios attracted more than **5,000** visitors across the opening weekend as **150** artists opened their studio doors, resulting in close to **\$100,000** in sales.

Hosted **329** people across **17** creative leaning events and workshops employing **28** artists.

462 attendees to Koolangka Waangkiny Noongar Language Storytime.

Showcased **7** children's/young people's work.

101 Write Club participants.

Made **182** art box sales, not including **44** free art boxes provided to Melville families experiencing hardship.

More than **22,500** people attended our key events including Songs for Freedom (**2,000**), Melville Storylines (**1,000**), Place Names Melville exhibition (**450**), the Jacaranda Festival (**13,000**), Melville Summer Music (**4,200**), Blak Dingo Club (**220**) and Melville Midwinter (**800**).

Saw a total of **1,880** attendees at 'Goo Sounds' – **6** musical performances hosted at Goolugatup.

A total of **8,947** people visited the Goolugatup Gallery across **12** exhibitions hosting **59** artists.

Perth Makers Market attracted approximately **36,000** visitors.

Wireless Hill Museum saw **6,655** visitors to exhibitions from July to December 2024. The museum closed for refurbishment from January to June 2025.

Welcomed **13,527** visitors to Atwell House (**5,257**) and Atwell Gallery (**8,270**).

Welcomed **4,595** people at various events hosted in our Main Hall, including a DJ workshop (**10**), Blak Disco Club (**495**), Tender is the Night (**200**), two discos (**340**), and a public forum (**40**). The Melville Theatre Company hosted **3,509** people.

KEY PROJECTS AND ACHIEVEMENTS

Healthy

Several projects and key achievements in support of healthy communities came to fruition this year.

We reached nearly 5,000 LeisureFit members, our highest-ever membership number. This has been attributed to our marketing efforts, customer first approach, fitness program offerings and our newly renovated pool. Since reopening the pool area in January 2025, we welcomed 163,020 people to our aquatic programs, classes and general visits. Attendance at our LeisureFit centres increased to 864,508, demonstrating our community's commitment to staying fit, healthy and connected.

LeisureFit had an incredible 2024–2025. LeisureFit was awarded the National People's Choice Award from AUSactive for Best Fitness Facility in Australia. This recognition, voted by our community, was a wonderful surprise and we're so grateful to our members for making LeisureFit the place to be for health and fitness.

We opened two new training spaces – the Performance Studio at LeisureFit Melville and The Box at LeisureFit Booragoon – giving our members even more ways to train, move and connect.

We were also thrilled to be nominated for Facility of the Year at the LIWA Awards, reflecting the hard work of our team and the support of our community.

The City's ever popular free Active in the Park classes were held 234 times across various indoor and outdoor locations throughout the year.

We provided 11 Youth Sports Scholarships (YSS) and 76 Youth Sports Grants to encourage young people to continue with their sporting and fitness journeys and reach new heights in their preferred sport.

Left to right: Councillors Terry Lee, Glynis Barber, CEO Gail Bowman, Mayor Katy Mair, Councillors Scott Green, Daniel Lim and Soo Hong

2024 Youth Sports Scholarship recipients with Councillor Daniel Lim, Mayor Katy Mair and Councillor Soo Hong

We continued to roll forward with the adoption of our first Wheeled Sports Plan at the October Ordinary Meeting of Council. The plan will provide strategic direction for wheeled sports in the City to ensure our facilities are functional, diverse, sustainable and accessible in the future. Since adopting this plan, it was pleasing to note that participants to our wheeled sports program nearly tripled from last year.

With 13,619 people playing sports in the City of Melville and with 4,050 bookings, we continued to implement our Active Reserves Infrastructure Strategy (ARIS) to ensure the sustainability and effective use of sporting reserves groups for the future.

Our Netball and Multi-Use Indoor and Outdoor Needs Assessment was developed and adopted by Council in March to ensure the City appropriately plans for the provision of netball infrastructure into the future.

Our swimming pool inspectors completed 3,152 swimming pool inspections this year, which is an increase of 1,111 from 2041 pools that were inspected last year. We also implemented an online swimming pool inspection booking portal, allowing customers to book their mandatory inspection at a time that suits them.

In creating healthy, safe and inclusive communities, the City developed a Hoarding and Squalor Procedure, which was written to incorporate a whole-of-organisation response to address these complicated matters if/when they arise.

Safe

We saw progress against our 2023–2027 Safer Melville Plan through community education and prevention programs, our safety mobile patrol services and working closely with WA Police.

During the 2024–2025 financial year we delivered 13 education and prevention programs reaching 171,602 people. Significant achievements include supporting organisations such as the Constable Care Child Safety Foundation, Melville Senior High School, Zonta House Refuge Association and local aged-care facilities, delivering targeted initiatives to key demographic groups.

A review of the City's community safety area was approved by Council in December 2024. This review included a deep dive in the MARKYT Community Scorecard Results for 2023, where the community's sentiments were assessed against the Safer Melville Plan, identifying several gaps.

The Community Safety Service (CSS) was reviewed and is transitioning to a more enhanced, customer centric service, renamed and rebranded to MelSafe. This revitalised service will be rolled out during the 2025–2026 financial year.

Staff and contractors saw an upgrade for the access control systems at the City of Melville Civic Centre and the operations centre, helping to ensure a safe and secure working environment for everyone.

To ensure compliance, fair use and parking safety in the Canning Bridge area, licence plate technology was installed across three Canning Bridge parking stations, making it easier for those who park in the area.

Canning Bridge area

Our Pups in the Park event was buzzing!

With 3,227 dogs and cats registered in our City we were pleased to review and combine our 2022–2026 Cat Management Plan with an Animal Management and Exercise Plan. These merged plans promote the positive roles cats play in households and families and opportunities for healthy indoor play, while also educating owners on the benefits of keeping cats indoors.

Pups in the Park attracted approximately 450 attendees. Event outcomes were promoting responsible pet ownership (registering and microchipping dogs), raising awareness of the City's ranger services relating to animal management, fostering friendly neighbourhoods where dog owners can meet and mingle with other dog owners in a common location, and supporting **local businesses**.

Inclusive

Several projects and key achievements in support of healthy communities came to fruition this year.

To help achieve our vision of an inclusive Melville, we supported community group and volunteering services, provided inclusive community spaces, services and events, and helped create opportunities for lifelong learning.

Progress was made to undertake the City's most significant cultural development of the new Library and Cultural Centre highlighted by \$15 million worth of funding through the Federal Government's Thriving Suburbs Program.

The Goolugatup Heathcote Lowerlands Renewal Project secured \$2.35 million from Lotterywest, which will boost the culturally significant site and help increase knowledge and understanding of Aboriginal and Torres Strait Islander cultures, histories and achievements within our community. It also has the benefit of enhancing the provision of community and recreational spaces.

Auspire Community Citizens of the Year Melville Youth Steering Group (Active Citizenship Group or Event), Mike Nichol, represented by his wife Margaret, (Senior Community Citizen of the Year) and Community Citizen of the Year Emma Charlton.

Willagee Library reopened following a \$1.6 million refurbishment with a new dual name through the Place Names Melville Project, with the library now known as Willagee Library Wilgi Kaartdijin Mia, meaning Willagee Knowledge Home.

It was pleasing to see more than 100,000 additional physical library items loaned from last year and total loans for physical items nearly reached one million. Library visitation numbers rose substantially this year too, with an additional 80,000 visitors across our five libraries. Our popular adult events and programs attracted 1,000 more people than last year, aligning with our objective of providing and facilitating lifelong learning opportunities.

Our hardworking Willagee library staff were awarded three grants via the Kay Poustie Scholarship to enhance, innovate and implement best practice programs for young people. These \$8,000 grants will further enhance our youth programs and create a more vibrant and inclusive space for local young people.

Additionally, the team prepared for the opening of the new Canning Bridge Library, the City's first open-access library, offering extended hours and a unique boutique library experience that will enhance accessibility and community connection.

In celebrating our youth, it was fantastic to see our Melville Youth Steering Group receive the Active Citizenship (Group or Event) in the Auspire Community Citizens of the Year Awards for their outstanding contribution and connection to the local community.

We hosted 21 youth-related events and saw an impressive 300 people attend our annual Youth Collective Market Day and provided six Youth Development grants to help support inclusive programs, initiatives, events, and other activities that have a youth focus.

This year's jam-packed events season saw our ever-popular Melville Music series from November 2024 to March 2025 attract 4,200 people and our Melville Midwinter night event saw many of the 800 in attendance jump into the freezing waters at Dyoondalup to celebrate the start of Makuru.

Songs for Freedom

Melville Storylines hosted 30 popular events throughout October 2024. Songs For Freedom, an event co-produced with BighART, attracted 2,000 people and our Place Names Melville Exhibition saw 450 people come along to the opening and three events. The Blak Dingo Club program saw four movie nights and a quiz, and we continued our support for the annual Jacaranda Festival, which attracted 13,000 people this year.

Our 49th art awards continued to be one of the biggest celebrations of WA's emerging and established artists. Curated at Wireless Hill Museum, this year saw 135 artists display their works, and we welcomed more than 2,500 visitors.

Melville Art Awards 2024 Overall Winner Holly O'Meehan with the artwork *Lost Lands*

The Melville Open Studios on Saturday 3 May and Sunday 4 May saw more than 5,000 people come along to see more than 150 local artists open their studio doors and present their masterpieces. The event raised close to \$100,000 in sales, of which \$85,000 went back to the artists living and/or working in the City.

During the financial year Goolugatup Heathcote Gallery saw more than 22,500 visitors for various events, activations and exhibitions, including 12 shows/exhibitions, TILT, six Goolugatup (Goo) Sounds performances and the popular Makers Market, WA's premier handmade artisan market attracted approximately 36,000 people.

Wireless Hill Museum attracted more than 6,500 visitors throughout its opening period this year, with refurbishment and collections work occurring from January to July 2025. Seventy-one local history research enquiries were made, and our local history collection now consists of 8,628 items.

After taking over the management of Atwell House in 2023, visitor numbers to Atwell House and Atwell Gallery reached just over 13,500, demonstrating the cultural significance and popularity of the site. Building refurbishment works are planned in future years to ensure the continued longevity of the site.

We made significant progress against the City's Public Art Strategy with the review and endorsement of the City's Local Planning Scheme 1.4, which guides the integration of public art into new developments.

The City purchased 22 artworks for our public art collection, including 17 indoor artworks from the Art Awards, TILT, exhibitions and direct commissions. Two new murals were commissioned through the Canning Bridge Place Grants program, and four new pieces were completed in the Murdoch Health precinct.

Under the Percent for Art scheme, three projects were approved, with two completed, as part of developer contributions to the area. We also wrapped 15 irrigation cubicles with new artwork, commissioned four sump murals and six new murals.

Work in support of our Directions from Young People Strategy saw 21 youth-related events take place throughout the year. Three projects were completed with local artists aged under 26 in partnership with our arts and culture team.

Our community centres continued to be vibrant community hubs and the heart of our neighbourhoods. Our centre management team worked with community organisations, non-profits and individuals to organise 8,800 bookings. In 2024–2025 we delivered a weekly ArtAbility program at Bull Creek Community Centre to encourage young people with a disability to connect through art.

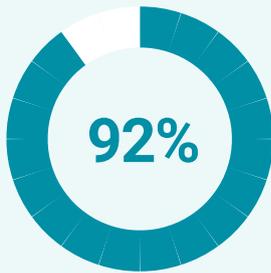

We continued to promote the benefits of volunteering to the wider community and supported, facilitated and advertised 1,629 volunteer opportunities in the City of Melville, with 194 volunteers and 143 volunteer organisations currently listed with the City.

We assisted 184 residents through our financial counselling service, a service which has seen an uptick in current years, highlighting the increasing cost of living pressures and financial hardship experienced in our City.

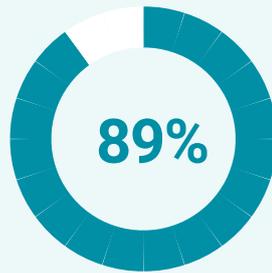

Melville Summer Music getting our community dancing

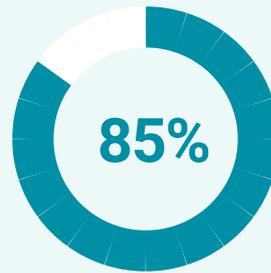

Key performance indicators

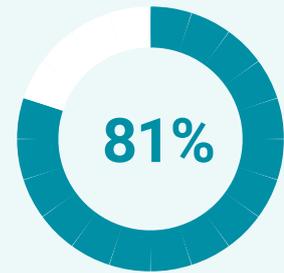

Residents are satisfied with access to **health and community services**

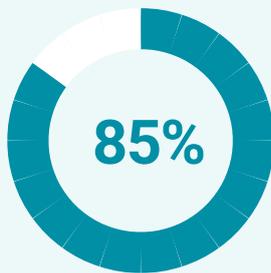

Residents satisfied with **sport and recreation facilities**

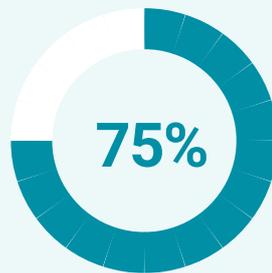

Residents are satisfied with management of **food, health, noise and pollution**

Residents are satisfied with **multiculturalism and racial harmony**

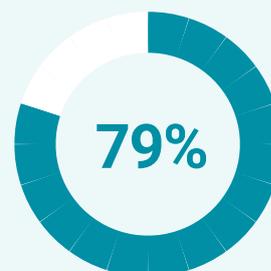

Residents are satisfied with **volunteer support and recognition**

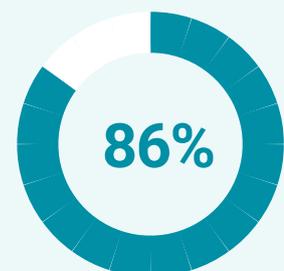

Residents are satisfied with **library services**

Residents are satisfied with **festivals, events, and cultural activities**

Residents are satisfied with **street artworks and public art**

Residents are satisfied with how **local history and heritage** is preserved and promoted

Year ahead – key initiatives

Health

- Undertake a needs analysis and pre-feasibility study for Leeming Recreation Centre.
- Complete a major review of the Active Reserve Infrastructure Strategy (ARIS).
- Commence work on the Melville Bowling Club business case.
- Finalise capital replacement of health club (gym) equipment.
- Undertake the design of the LeisureFit Booragoon outdoor spray area.

Safety

- Implement the Child Safe Melville Program.
- Undertake the MelSafe transformation
- Review the Safer Melville Plan.
- Develop an Animal Management and Exercise Plan.

Inclusion

- Continue progress on the Goolugatup Lowerlands project.
- Continue progress on the new Library and Cultural Centre.
- Open new Canning Bridge Library.
- Finalise the City's Community Infrastructure Strategy.
- Commence work on a Social Infrastructure Strategy.
- Complete a major review of our Directions for Young People Strategy.
- Focus on programming community-inspired, home-based events designed to engage and interest residents from diverse backgrounds with differing interests.
- Debut Christmas lights installation.
- Targeted development for our museum and local history collection.

Outcome 2: Clean and Green

**A clean, green and sustainable City
for current and future generations**

OBJECTIVES

- 2.1 Protect and enhance our natural environment, ecosystems and biodiversity.
- 2.2 Sustainable use of resources and adoption of a circular economy approach, optimising waste reduction and resource recovery.
- 2.3 Increase the urban forest tree canopy on City managed land.
- 2.4 Provide and improve parks and green open spaces.
- 2.5 Mitigate and adapt to climate change impacts.
- 2.6 Transition the organisation to carbon neutrality by 2030 and facilitate community progress to net zero emissions by 2050.

SERVICES

- Sustainability
- Natural areas management
- Parks and streetscape management
- Resource recovery and waste management

HIGHLIGHTS

Planted more than **18,286** seedlings and **1,658** mature stock in our natural areas.

Planted **5,919** trees in our natural areas, streetscapes, parks and reserves.

Gave away **5,400** free native plants to residents and local schools in our annual native plant giveaway.

Supported **28** Friends groups and **20** schools, which contributed more than **9,750** volunteer hours.

Renewed **9** playgrounds.

Delivered a total of **240** sustainability and waste education programs, with more than **7,362** attendees.

Diverted **66.2%** of waste from landfill across all streams (including residential and commercial, bulk verge collections and public drop off days).

Collected a total of **43,531** tonnes of residential waste and recycling, comprising **21,548** tonnes of food organics, garden organics (FOGO), **11,566** tonnes of general waste and **8,679** tonnes of recycling.

Collected **1,625** tonnes of commercial waste and **279** tonnes of commercial recycling.

Collected **1,934** tonnes of bulk verge waste including **219** tonnes of white goods, **119** tonnes of steel, **71** tonnes of mattresses, **17** tonnes of e-waste and **1,737** tonnes of garden organics.

Collected **357** tonnes of waste from street and park bins.

Provided more than **4 million** doggie bags at our parks and reserves.

Collected **15** tonnes of e-waste collected through our e-waste drop off days.

Responded to **1,535** calls about illegal dumping.

Handed out **50** compost rebates and worm cafe subsidies, **43** cloth nappy rebates and **44** reusable menstrual product rebates.

KEY PROJECTS AND ACHIEVEMENTS

To help realise our outcome of a clean, green and sustainable City for future generations, we took further steps in reducing our carbon footprint, maintaining and enhancing our 205 parks and reserves and continuing to lead the way in reducing waste and increasing resource recovery.

Sustainability

Our commitment to transition our organisation to carbon neutral by 2030 and to facilitate and support community progression to net zero emissions by 2050 has seen the City continue to put sustainability as an area of focus this financial year.

We were thrilled to receive more than \$518,000 in funding from the Federal Government* to increase renewable energy generation, reduce reliance on grid electricity and cut carbon emissions. This funding will go towards various projects across the Civic Centre, Operations Centre and Point Walter Depot, abating ~118 tCO₂e of carbon emissions each year.

Towards the end of 2024, the Council adopted its first Corporate Climate Action Plan Annual Progress Report and the Community Climate Action Plan (CAP) marking an important milestone in our bid to become carbon neutral as an organisation by December 2030 and reach net zero carbon emissions by city-wide by December 2050.

Several actions progressed this year built on work completed in 2023–2024 in regard to reducing emissions through identifying specific actions for service areas through establishing annual carbon budgets. A key focus in 2024–2025 was implementing a new carbon emissions accounting system. This system will automate and streamline the tracking of our direct emissions and help build the City's indirect emissions inventory.

In addition to progressing this system, the City also rolled out a climate action tracker app to efficiently manage actions and provide a holistic view of the City's status to reaching net zero emissions.

We maintained our Gold Waterwise status and retained an A- (A minus) score in our Carbon Disclosure Project Score, reflecting our consistent commitment to climate action and environmental leadership.

Community members at our Eco Action Expo

Thanks to grant funding from the WALGA ARENA Future Fuels Program in collaboration with the State Government and the WA Local Government Association, the City now has three electric vehicle (EV) chargers located at LeisureFit Booragoon, LeisureFit Melville and the Civic Centre. We also invested in an additional two electric vehicles, bringing our EV fleet to nine.

We took progressive steps towards our sustainability goals, rebranding the Piney Lakes Environmental Education Centre to the City of Melville EcoHub.

We delivered a total of **240** sustainability and waste education programs, with more than **7,362** attendees – significantly up from last year's **159** events and **5,200** attendees. Programs included our Eco-Action Expo, and championing 'Grow it Local' and 'Switch your think' campaigns.

We partnered with five other local governments and Perth NRM to support the ReWild Perth Project, where the community can learn about the actions they can take to rewild their gardens. We also worked with volunteers and the Youth Steering Group to deliver black cockatoo restoration services.

We expanded our early years education programming to include waste avoidance education sessions, intergenerational gardening, nature-based play and eco-oriented library storytime sessions.

The Sustainable Melville grants program continued to support community capacity and community-led projects delivering sustainability outcomes. We also provided in-kind support for a variety of programs, including but not limited to MCCAN Electrify Melville City Expo, Piney Lakes Community Garden events and FOGO sales, monthly Bottle Top Hill events, Repair Labs, and Social Textiles.

**The funding was awarded through the Federal Government's Department of Climate Change, Energy, the Environment and Water and their Community Energy Upgrade Fund Program.*

The Moreau Mews Town Square Public Open Space concept design was approved by Council.

Parks and natural areas

Our objective is to increase our urban forest tree canopy on City land (currently 12.5%). The Urban Forest Strategy Review was endorsed by Council at the October Ordinary Meeting of Council.

The City was honoured to present at the WA Wetland Conference on the learnings of our Blue Gum and Booragoon Lake Reserve restoration projects, raising the profile of the City's natural resource management program.

Several new play spaces were constructed at Alison Harris Park; Hugh Corbert Park; Karroonda Reserve; John Connell Reserve, including new exercise equipment; Troy Park; Allan Edwards Reserve; and Point Walter.

The Moreau Mews and The Esplanade Public Open Space concept designs were approved and endorsed by Council during 2024–2025.

We demonstrated our effectiveness in managing water use for public open spaces by using less than our water allocation in 2024–2025.

We demonstrated our ongoing care and protection for our native fauna with the declaration at the October 2024 Ordinary Meeting of Council that we will become an owl friendly City, adopting principles and practices to protect owls. We also implemented the Urban Greening Grant Project to restore one hectare of habitat for possums and black cockatoos in Piney Lakes Reserves and installed two cockitroughs, which are bird watering station that provide essential hydration for native birds, at Carawatha Park and Point Walter Reserve as part of our Cockatoo Conservation Action Plan.

Through our Feral Animal Control Program, we removed 2 foxes, 3 cats and 47 feral honeybee hives, and implemented RHDV rabbit control at Ken Hurst Park.

To protect and enhance our native flora, we treated 13 reserves and bushland areas (74.91 hectares) for dieback. We removed litter every six weeks from all bushland reserves, including any illegal dumping.

As part of our Foreshore Restoration Strategy, we maintained 18km of foreshore, with an emphasis on weed reduction, compacting sinkholes, minor erosion works, and enhancing and extending vegetation buffers. Five hundred metres of foreshore were fully restored.

Work on the Melville Beach Road and Goolugatup Heathcote foreshore restoration projects saw us establish vegetation to consolidate shoreline stability over a 50m section of the Goolugatup Lowerlands shoreline.

We monitored seven wetlands and two waterways across 13 specific locations under our Water Quality Improvement Plan. This was a continuation of the 18-year planned program. Waterway buffers continue to be enhanced through plantings, and we installed water sensitive urban design infrastructure at Blue Gum Lake.

Our Bushfire Risk Management Plan saw us complete work surrounding Carroll Drive, Point Walter, 2A Burke and throughout various bushland reserves to reduce fuel loads, increase fire breaks and provide separation distance for potential bush fires. We secured funding from Mitigation Activity Fund (MAF) Grants Program to establish 31m low fuel separation between Piney Lakes bushland reserve and Melville Eco Hub building.

Deputy Mayor Karen Wheatland with CARG members and City staff at the dual launch of the EcoHub and CCAP

Waste and resource recovery

The City of Melville continues to lead the way with sustainable waste management.

In July 2024, our Elected Member representatives successfully moved two motions at the National General Assembly of Local Government held at the National Convention Centre in Canberra. The first motion urged the Australian Government to take urgent action to implement mandatory product stewardship schemes for priority materials, such as electronic waste, tyres, mattresses and consumer packaging. The second motion called for increased funding of arts and cultural infrastructure in cooperation with all levels of government.

We are proud to celebrate our Coordinator Resource Recovery and Waste Vanja Marjanovic as the Woman of Waste for 2024 at the Waste Innovation & Recycling Awards. This award recognises women in the industry who have driven change and lead progress in breaking down barriers and creating new career prospects for the next generation.

FOGO commercial collections commenced in July 2024, diverting organic waste from landfill, reducing greenhouse gas emissions, and supporting more sustainable waste practices for local businesses.

We continued to diversify and provide ongoing delivery of sustainable living and eco-education programming for community, including but not limited to 'Buy Nothing' events, clothes swaps, local food production and waste avoidance sessions.

The uptake of our cloth nappy rebates this year, doubled from last year with 43 cloth nappy rebates, showing the community is pivoting to more sustainable practices.

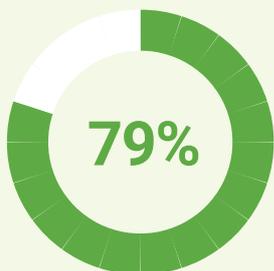

We commenced digitisation and routing of our commercial fleet in July 2024, significantly reducing reliance on paper-based systems and allowing for improved alignment between service charges and actual collections. As we transition to a more sustainable approach to our fleet, 83% of the fleet replacement program has been completed. We also commenced a trial of artificial intelligence (AI) camera systems on two waste collection trucks.

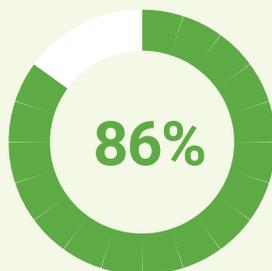

City staff with Lifeline Chief Executive Officer Lorna MacGregor

Key performance indicators

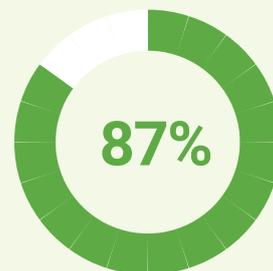

We evaluate our performance from various sources to inform our future service delivery and strengthen our customer first approach.

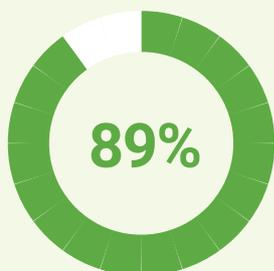

Residents positively rated our efforts to adopt and promote sustainable practices to address climate change*

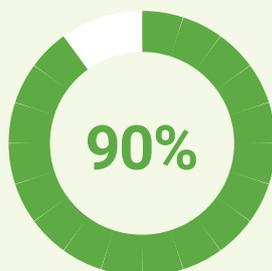

Residents positively rated our conservation and environmental management*

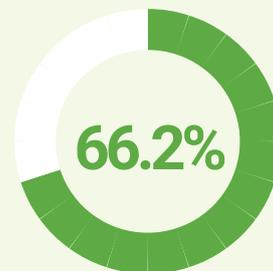

Residents positively rated our efforts to maintain and enhance the river and foreshore*

Residents positively rated City playgrounds, parks and reserves*

Residents positively rated our waste collection services*

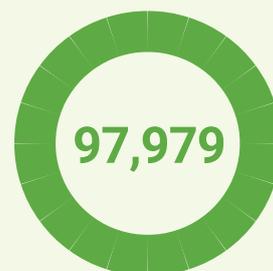

Residential waste diverted from landfill

tCO₂e Scope 1 & 2 GHG emissions by the City as an organisation in 2024-2025

Total kW solar power PV capacity

Total kL water consumed by the City

*Data sourced from MARKYT® Community Scorecard and Wellbeing Survey

Year ahead – key initiatives

Sustainability

- Roll out renewable energy and energy efficiency improvement projects.
- Maintain emissions tracking:
 - Building out Scope 3 emissions inventory.
 - Launch the new software for Scopes 1 and 2 emissions tracking within the organisation.
- Support the Net Zero Fleet transition through the Fleet Asset Management Plan.
- Install four additional EV chargers for City vehicles.
- Under the Community Climate Action Plan (CAP), partner with Murdoch University to deliver the Biodiverse Backyards program.
- Establish a Climate Action Advisory Group to help drive and inform the CAP.
- Deliver 'The Adaptation Game (TAG)', a gamified means for residents to experience the effects of climate change to enhance awareness and develop community resilience of climate change.

Parks and natural areas

- Complete 12 roundabout renewal plantings.
- Undertake tee box renewals at Point Walter Golf Course.
- Complete nine playground renewals.
- Update the Natural Areas Asset Management Plan.
- Implement the Foreshore Management Plan.
- Install an additional four cockitroughs and further enhance habitat in Piney Lakes for possums and black cockatoos.

Resource recovery and fleet

- Finalise the Fleet Plan, commence the agreed upon recommendations and commence the Fleet Capital Program.
- Finalise the rollout of Wastedge (a waste management software tool) for our commercial and domestic collections.

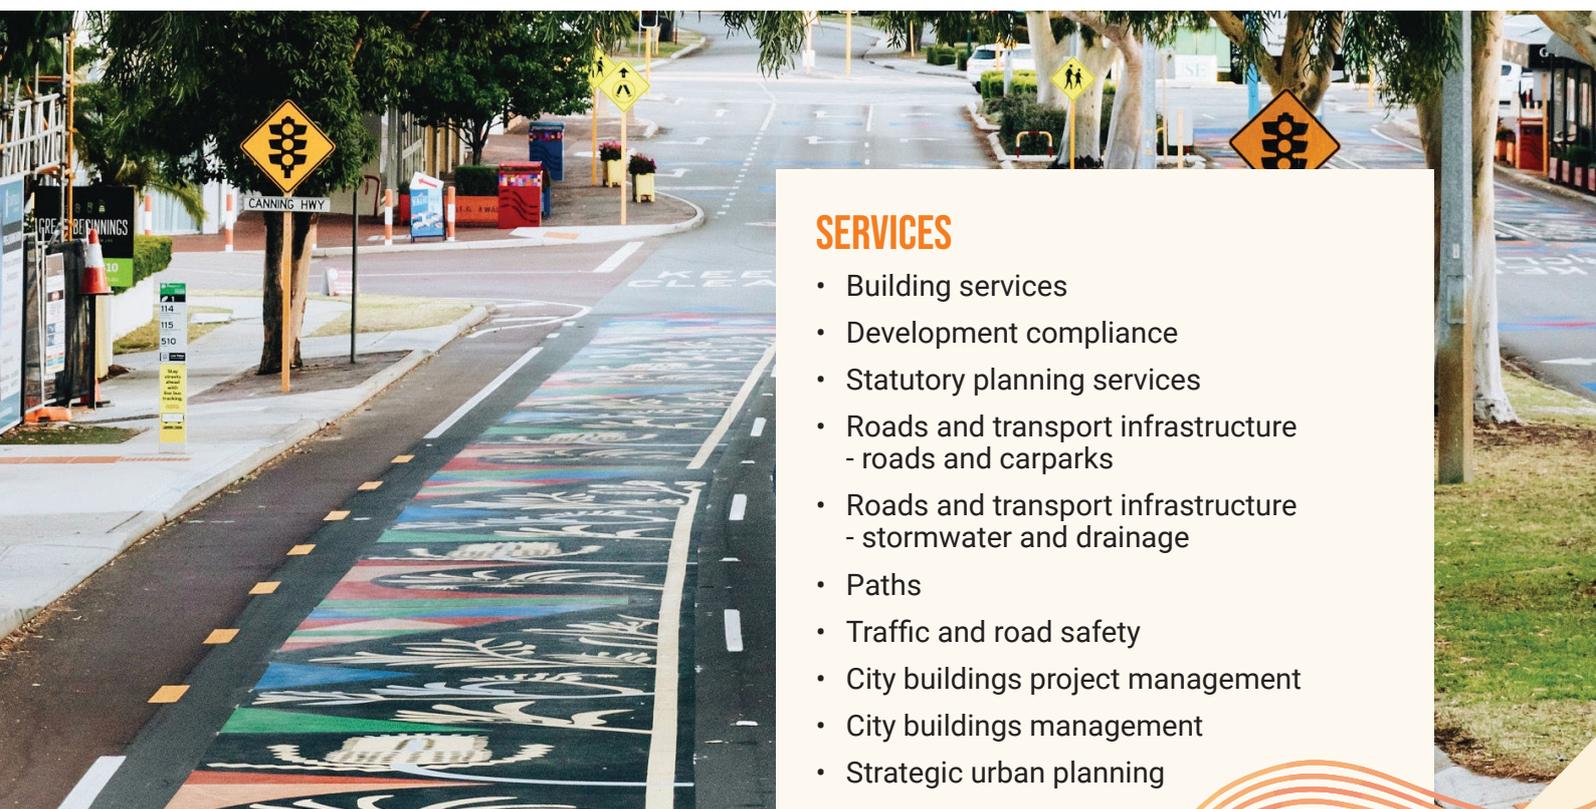

Outcome 3: Sustainable and Connected Development

Sustainable, connected development and transport infrastructure across our City

OBJECTIVES

- 3.1 Facilitate enhanced and sustainable urban development and amenity.
- 3.2 Deliver sustainable and well-planned infrastructure and public places and spaces.
- 3.3 Plan for urban growth and local commercial activity centres.
- 3.4 Protect and promote the City's character and heritage.
- 3.5 Facilitate improved integrated public transport solutions.
- 3.6 Provide sustainable and connected road, bicycle, footpath and transport networks.

SERVICES

- Building services
- Development compliance
- Statutory planning services
- Roads and transport infrastructure - roads and carparks
- Roads and transport infrastructure - stormwater and drainage
- Paths
- Traffic and road safety
- City buildings project management
- City buildings management
- Strategic urban planning

HIGHLIGHTS

Approved **1,049** development applications with a total construction value of approximately **\$269 million**.

Referred **5** development applications to the Metro Inner Development Assessment Panel, with a total construction value of approximately **\$150.2 million**.

Conducted **155** planning compliance and **261** building compliance investigations.

Issued **2,001** building permits.

Completed or progressed **38** road and car park projects, **42** stormwater and drainage projects and **23** path capital works projects.

2 underground power projects are in progress in Willagee and Melville.

5 black spot projects were completed, with a total of **\$864,093** funding secured.

Inspected and cleaned approximately **3,801** drainage pits.

Maintained approximately **16,000** drainage pits and **361km** of stormwater pipes.

Swept and maintained **506km** of roads, and **501km** of paths.

Maintained riverside facilities including **13** jetties and boardwalks, and **2** boat ramps.

Resurfaced **13km** of road

Completed **5km** of new and renewed footpaths.

Completed **4,656** maintenance requests and **60** renewal/upgrade projects on City owned buildings.

KEY PROJECTS AND ACHIEVEMENTS

Planning continued for the exciting Melville City Centre and new Library and Cultural Centre at Booragoon with the redevelopment of Westfield Booragoon.

We completed preliminary stakeholder engagement to help inform the review of the precinct planning for the centre. Although the development of Westfield Booragoon has been delayed, we will continue to progress the planning for our first ever City Centre.

We improved our planning lodgement processes to reduce delays and resourcing requirements by improving the quality of applications.

With City building assets valued at approximately \$154.4 million, the City continued to renew and upgrade several buildings this year, including: \$6.8m for the LeisureFit Booragoon Refurbishment, \$3.2m for upgrading Len Shearer Reserve changerooms, \$3.0m for the Blue Gum Community Centre Redevelopment, \$2.9m for the Civic Centre HVAC Replacement, \$2.3m for the design stage of New Library and Cultural Centre. 1.2m for the Melville Reserve Redevelopment, \$1.0m for the Southside BMX Facilities at Bob Gordon Reserve.

Our community enjoying the Dyoondalup Bike Park

This year saw development applications (DAs) increase by 214, demonstrating our objective of facilitating enhanced sustainable urban development and amenity. A total number of 5 development applications were referred to the JDAP with a combined total construction value of \$150.2m.

In 2023-2024 we made progress on the review of the City's Local Planning Scheme 6 and commenced strategic planning for activity centres at Booragoon and Riseley.

The Riseley Centre and surrounding area

During 2024–2025 we:

- reviewed local planning policy (LPP) 1.1 Planning Process and Decision Making
- reviewed LPP 1.4 Provision of Public Art in Development Proposals
- reviewed LPP 1.6 Car Parking and Access completed
- advertised the revised LPP 1.21 Short Term Rental Accommodation (including revoking LPP 1.13 – Bed and Breakfast with provisions covered by LPP 1.21)
- reviewed LPP 1.9 Height of Buildings and 3.1 Residential Development, which has been approved for advertising.

There have been several updates to legislation this year, including:

- the Planning and Development Act 2005 – significant development pathway amendments to increase remit for consideration of community housing developments in target areas.
- Single house reforms for mandatory delegation to CEO.
- Planning and Development (Local Planning Schemes) Regulations 2015 – changes to provide exemptions and definitions around short term rental accommodation land uses.
- Local Government (Development Assessment Panels) Regulations 2025 – introduced a requirement for responsible authority reports (RARs) to be prepared and finalised by the CEO or sub-delegate.
- Metropolitan Region Scheme saw:
 - modernisation of structure and provisions
 - increased exemptions under the MRS
 - changes to referral requirements.

Substantial progress was made on the preliminary phase of the Local Planning Scheme Review, including preliminary engagement and the commencement of technical investigations. This work will enable further development on concepts and inform future Council decision making.

Engineering

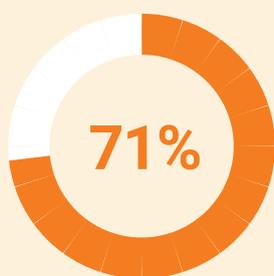

We completed the City's first Low Cost Urban Road Safety Program funded project in Palmyra. The project was fully funded and included installing speed plateaus and raising intersection treatments on local streets to reduce crashes and improve road safety.

In 2024–2025 we also completed 5 fully funded Australian Government Black Spot projects:

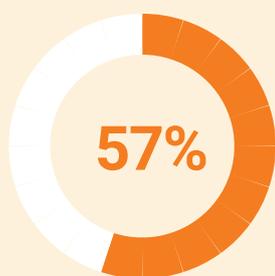

1. Marmion Street/Justinian Street raised intersection treatment
2. Marmion Street/Redwood Crescent raised intersection treatment
3. Hammad Street speed plateaus
4. Marmion Street/Norma Road right turn lane adjustment and removal of the right turn filter
5. Somerville Boulevard/Winthrop Drive speed plateaus

Metropolitan Regional Road Group funding covered two-thirds of the cost of road rehabilitation projects on Somerville Boulevard during the year.

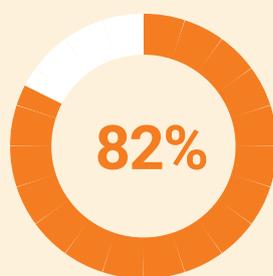

Key performance indicators

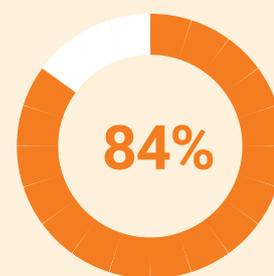

Residents are satisfied with City managing **responsible growth and development**

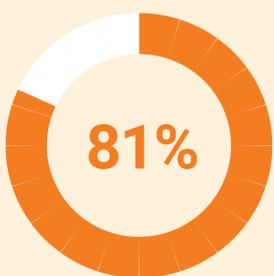

Residents are satisfied with **planning and building approvals**

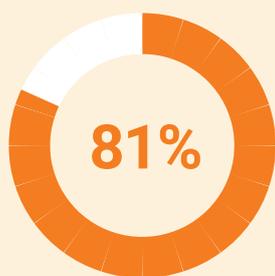

Residents are satisfied with **access to housing that meets their needs**

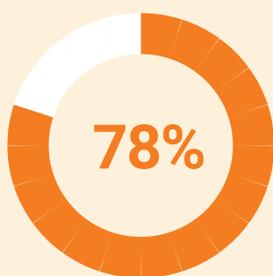

Residents are satisfied with **lighting of streets and public places***

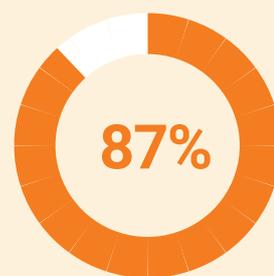

Residents are satisfied with **management and control of traffic**

Residents are satisfied with **footpaths and cycleways**

Residents are satisfied with **parking management**

Residents are satisfied with **access to public transport**

*top performing LG in WA

Data sourced from MARKYT® Community Scorecard and Wellbeing Survey

Year ahead – key initiatives

- Complete remediation works at Majestic Boardwalk, ensuring this well-utilised boardwalk is safe for all users.
- Complete renovations at Bicton Baths and Karoonda Reserve changerooms to provide compliant, gender-neutral facilities.
- Finalise the Melville Men's Shed refurbishment, ensuring accessibility to all areas of the workshop.
- Complete designs for Troy Park, Beasley Reserve and Winnacott Reserve and have them ready for tender in the next financial year.
- Continue to review the City's Local Planning Policies (based on legislative changes and age of policies).
- Improve compliance with statutory timeframes for development application decisions.
- Complete improvements to systems and information available to customers and applicants to increase level of self-service for planning and building services.
- Review Local Planning Scheme 6.
- Review structure plans for Melville City Centre (Booragoon) and the Riseley Centre.
- Complete our Public Spaces Strategy.
- Review the Parking Management Strategy, including a cross functional review of parking management plans for the Riseley Centre and Canning Bridge area.
- Install traffic signals at the intersection of North Lake Road and Winterfold Road (funded by the Australian Government Black Spot program).
- Complete the Ogilvie Road Streetscape upgrade project.

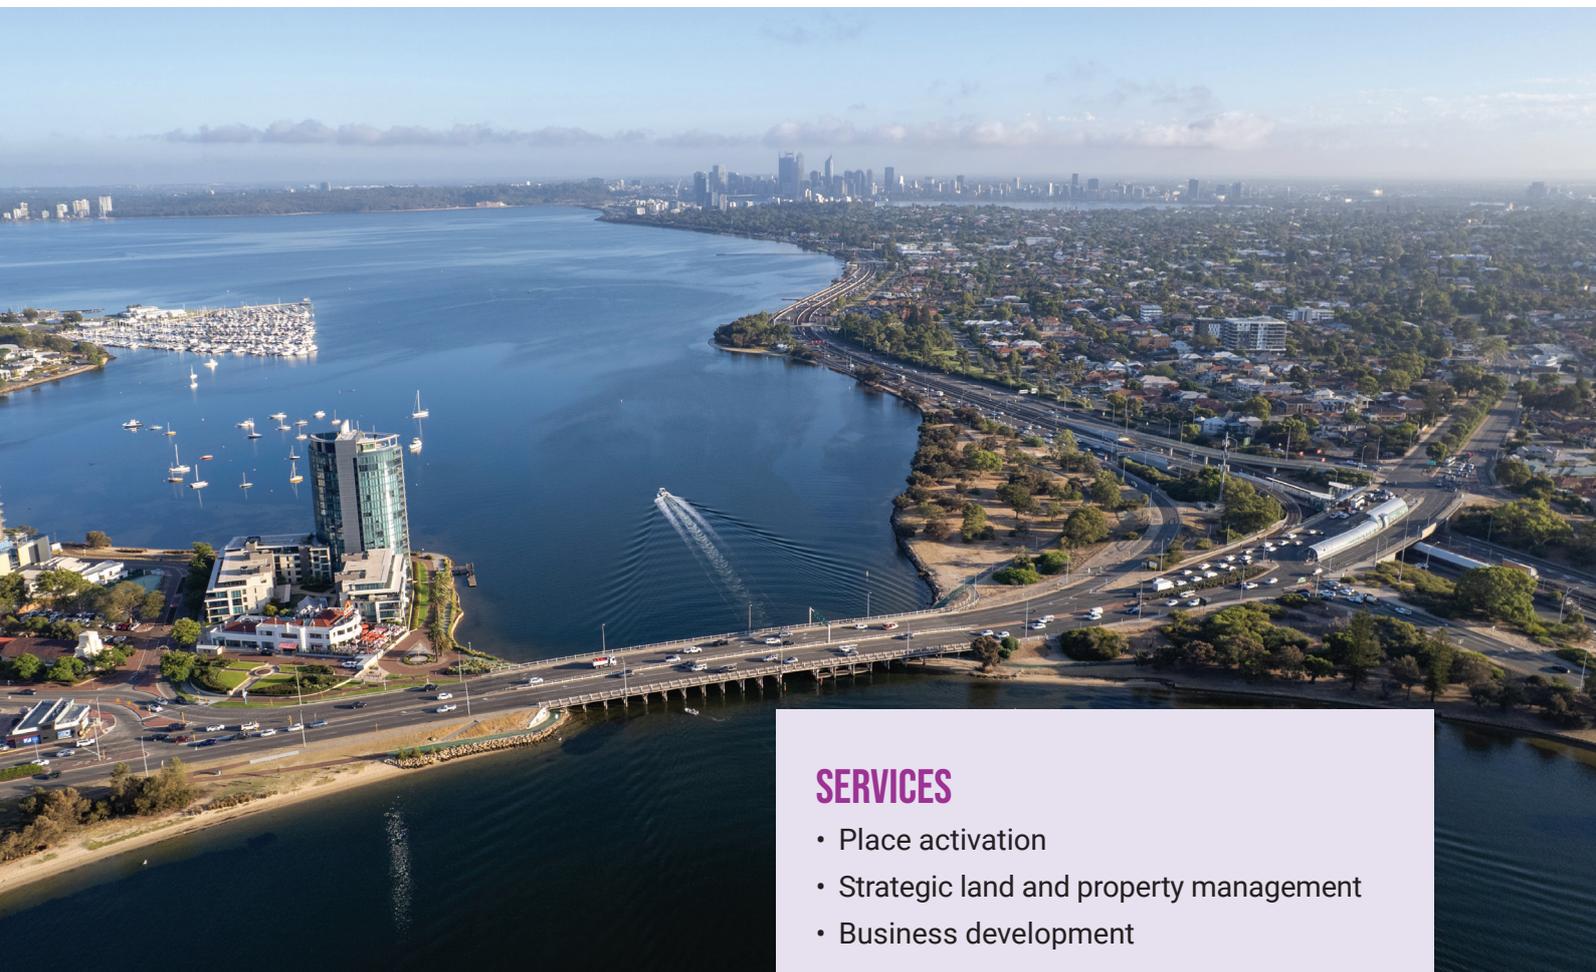

Outcome 4: Vibrant and Prosperous

Economic prosperity and vibrant, resilient communities and businesses

OBJECTIVES

- 4.1 Facilitate vibrant, activated local places and centres.
- 4.2 Increase awareness of Melville as a tourism and eco-tourism destination.
- 4.3 Attract investment in strategic locations.
- 4.4 Support local business growth and resilience.
- 4.5 Facilitate a business friendly experience.

SERVICES

- Place activation
- Strategic land and property management
- Business development

HIGHLIGHTS

- Housing development at Carawatha is **80%** complete with **18** townhouses sold.
- Began preparation of a Master Plan for the Myaree Business District.
- Approved **5** Canning Bridge Place Grant applications.

KEY PROJECTS AND ACHIEVEMENTS

To help realise our outcome of a vibrant and prosperous City, we took further steps to facilitate vibrant places, support local businesses, attract investment and make Melville the eco-tourism destination in Perth/WA.

We were grateful to secure \$465,582 funding from Lotterywest and a commitment of \$150k from the WA Government to increase public open space in the Canning Bridge area, with the creation of two new public open spaces at 13 The Esplanade and 64 Kishorn Road, Mount Pleasant.

The concept plan for the Moreau Mews Town Square was approved at the June 2025 Ordinary Meeting of Council. The new vibrant Town Square plan includes open turf for recreation; a shelter and BBQ area; playspace; interactive water feature; open space for community events; a café/community space; accessible toilets; and public art.

Our Canning Bridge Place Grants program won a Minister for Local Government Place Innovation Award in October 2024 for its use of an inventive and responsive circular economic model. This vital program takes parking funds (approximately \$120,000 a year) and reinvests them back into the Canning Bridge area through local community and business projects. This year, five projects were funded as part of this program:

- Olive Cheng for the Sleat Road Mall mural (\$18,500).
- Dr Jillian Horton for an ageism seminar in September 2025 (\$2,000).
- Alike WA for an Alike WA's Men's Health Week event in June 2025 (\$2,302).
- ArtbyRow to complete a large-scale mural at 896 Canning Highway (\$27,470).
- Oh Hey WA to host street art walking tours from September 2025 to April 2026 (\$15,750).

Our focus continued in Canning Bridge with the launch of the City of Melville's Murals and More: A Canning Bridge Adventure children's activity book. The book offers families a fun, free way to explore the Canning Bridge area. Colouring pages, scavenger hunts and design challenges, all based on real-life murals from the area and featuring well-known Australian artists such as Amok Island, Kyle Hughes-Odgers and Steve Cross, help promote connection, vibrancy and support for local businesses, while exploring outdoors.

We also secured \$2.35m funding from Lotterywest for the Goolugatup Heathcote Lowerlands Renewal Project in Applecross. With a vision to heal and connect our community through a place-based reconciliation approach, we co-designed a transformation of the disused waterfront site on the Derbarl Yerrigan (Swan River) with Traditional Owners and the local community, turning it into a valuable community, cultural, natural and recreational space for our community to enjoy.

The Carawatha Redevelopment Project progressed substantially in 2024–2025. Our partnership with the Satterley Group saw the completion and sale of eight townhouses, with the remainder to be completed by December 2025.

We continued to support our local businesses and retained our focus on attracting and encouraging local businesses to grow and prosper within our City. Our Small Business Friendly Approval Program saw more City processes simplified as we continued to reduce red tape and put our customers at the centre of our decision making.

Vibrant and prosperous places are only created where communities are strongly connected to people and place. We continued to support our local not-for-profit and community groups with 66 hosted events at our community centres.

In our vision to become Perth/WA's eco-tourism destination we aired a three-segment feature on Channel 9's Destination WA TV program, with the first segment on Dyoondalup Point Walter featuring the bike track, golf course and recreational activities.

After the segment aired with 612,000 views, local businesses Walter's River Cafe and Point Walter Golf Course reported an increase in visitation and customers. The other two segments focused on Goolugatup Heathcote and Piney Lakes Reserve.

Murals and More A Canning Bridge Adventure is a fun and free resource is packed with engaging activities

Key performance indicators

Residents are satisfied with **economic development efforts**

Residents are satisfied with **development and activation of city centres**

Businesses are satisfied with the City as a **location to operate a business**

Residents are satisfied with the **condition of local roads**

* Data sourced from MARKYT® Community Scorecard and Wellbeing Survey

Year ahead – key initiatives

- Create a three-year Business Friendly Road Map.
- Create the City's first Tourism Plan.
- Continue planning and oversight for new community facilities in Canning Bridge.
- Review and further improve the Canning Bridge Place Grants Program.
- Create a plan for Christmas lights for the next three years.

Outcome 5: Good Governance and Leadership

Leadership and good governance for the benefit of the whole community

OBJECTIVES

- 5.1 Provide transparent and accountable good governance.
- 5.2 Ensure long term financial sustainability, strategic advocacy and partnerships, and diverse revenue streams.
- 5.3 Ensure efficient and effective use of assets, resources and technology.
- 5.4 Strengthen active citizen engagement, participation, and access to information.
- 5.5 Provide excellent customer experiences and ease of access.
- 5.6 Provide an inclusive, safe, healthy, equitable and engaging workplace.

City of Melville Elected Members and CEO Gail Bowman

SERVICES

- Community and stakeholder engagement
- Customer experience
- Asset management planning
- Corporate strategy
- Communications
- Finance and risk
- Information communications and technology
- Governance
- Internal audit
- People and culture
- Workplace health and safety
- Fleet
- Business support

HIGHLIGHTS

Our customer relations team answered **89,510** calls, **20,847** emails, **6,764** live chat enquiries, **11,958** online requests and helped an average of **2,330** customers at the counter each month.

We achieved a **1.44** customer effort score (lower is better and the target was **2.00**).

The ratio of complaints to compliments was **1:0.58** with the target being **3:1**. This means that for every one complaint, we received **0.58** compliments, which is better than the target ratio.

13,092 contributions from the community were received across **68** engagement projects. We completed approximately **63** communication projects each month.

We received a **100%** compliance audit score from the Department of Local Government, Sport and Cultural Industries.

We welcomed **57** new citizens at nine citizenship ceremonies.

We managed **45,755** rates notices.

We advertised **22** tenders seeking goods and services from businesses.

31 active information communications technology projects progressed.

KEY PROJECTS AND ACHIEVEMENTS

We continued to provide transparent and accountable governance, ensuring long term financial sustainability, efficient use of resources and technology, strengthen community participation, providing an inclusive and engaging workplace, while striving to provide excellent customer experiences.

During the 2024–2025 financial year, the City of Melville received a 100% compliance score from the Department of Local Government, Sport and Cultural Industries*. This reflects the commitment and focus of the City to provide good governance and leadership.

To ensure the City is set up for the future, 31 active and ongoing information communications technology projects were undertaken this year to help propel our digital transformation journey at the City.

Use of the Snap, Send, Solve app saw the City of Melville receive an Inclusive Excellence Award at the app's Solver of the Year awards for 2024.

We also maintained an impressive average score of 92% for our mystery shopper surveys in both walk-in and phone-based surveys. We use this feedback to inform our customer first approach and continue to review and improve our customer experiences. We continued work on the Customer Experience Re-imagined (CXR) Project, with the vision improving our interactions through a centralised system of customer information. This project will remain a key focus in 2025–2026.

This year we continued to strengthen our engagement with the community through encouraging active participation and creating more opportunities for the community to help shape projects and services to better meet their needs and expectations now and for the future.

During the 2024–25 financial year we sent nearly 95,000 direct emails to our community with updates on engagement and opportunities to participate. More than 13,000 people participated in engagement activities, and our dedicated engagement website hub (Melville Talks) received more than double last year's visitation numbers, suggesting that our community is more informed about engagement opportunities and how they can have their say in shaping the future.

We completed 68 engagement projects this year on several different topics, including the Moreau Mews Town Square,

In celebrating our community, places and projects we showcased several stories of what makes Melville unique. The ongoing campaign called One Community Endless Stories was communicated on our social media platforms and website throughout the financial year and received several positive comments.

Our people and culture team conducted a staff engagement survey for the first time in several years to establish a baseline to understand and monitor staff engagement and attitudes. The results indicated we were on target and highlighted four areas for the City to focus on to help increase staff engagement and sense of belonging.

**From 1 July 2025, the state government department responsible for local government is the Department of Local Government, Industry Regulation and Safety (LGIRS).*

Key performance indicators

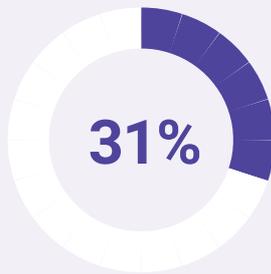

Businesses are satisfied with the City as a governing organisation*

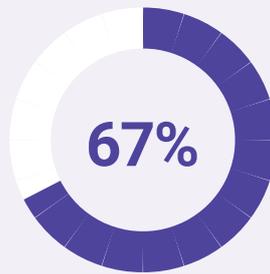

Residents are satisfied with how the community is engaged on local issues

Residents are satisfied with the City's customer service

Residents are satisfied with how the City has developed and communicated a clear vision for the area

Residents are satisfied with how the community is informed about what's happening in the local area

Residents are satisfied with how the City embraces change, innovation and new technology

* Data sourced from MARKYT® Community Scorecard and Wellbeing Survey

Year ahead – key initiatives

- Review and develop new Code of Conduct and supporting documentation.
- Review delegations (including organisational restructure).
- Progress our Customer Experience Re-imagined (CXR) project.
- Continue our mystery shopper program.
- Develop a destination marketing strategy.
- Develop Our Future Melville Project (Communications).

Ardross Street in Applecross

Disability Access and Inclusion Plan

The following is a summary of some of the key achievements and initiatives this year from our Disability Access and Inclusion Plan 2024–2029.

This report outlines the actions and strategies we have taken to promote accessible outcomes for members of our community that promote inclusion and equal opportunity for an accessible and inclusive Melville. It also demonstrates how we have met the legislative requirements of the *Disability Services Act 1993* and the strategy - A Western Australia for Everyone: State Disability Strategy 2020–2030.

KEY ACHIEVEMENTS

Outcome 1

SERVICES AND EVENTS - People with disability have the same opportunities as other people to access the services and events of a public authority

- **Delivered the ActiveLink program**, subsidising 218 residents to overcome barriers to participating in sport and recreation, across gym, swimming, and tennis, and well-being programs such as yoga, and dance classes.
- **Delivered all abilities recreation** in Pilates (partnering with ReLink), social table tennis, tai chi, yoga (partnering with ReLink), Bollywood dance, and Zumba regularly through Willagee Community Centre; we welcomed support workers to all abilities sessions.
- **Delivered Exercise for Every Body**, a specialised exercise program for people with cognitive decline. Carers and support workers reported improvements in physical and cognitive functioning in participants.
- **Delivered Sit-to-Fit** seated exercise classes, suitable for people with reduced mobility. Suitable for people who may have reduced mobility, balance issues or are recovering from an injury.
- **Delivered Art Ability**, a free weekly program for young people with disability at the Bull Creek Community Centre, providing individualised support for activities that allow freedom of expression and experimentation with many different forms of art.
- **Provided accessible matting** for wheel-friendly pathways, **ACROD parking**, and a **quiet space** at the Melville Youth Collective Market.
- Created an **inclusive and welcoming space** for the City's Pride event, Pride and Prejudice: Navigating Pride as a Young Person, with speakers with disability.
- **Delivered Catch Music Willagee**, an all ages and all abilities singing and instrument playing group.

Memory Café participants

- Provided a **bus for mobility support and audio description** at the Culture Photo Wall on the Jenna Bidi Yorga Blackwall Reach trail, a tour for ages 16 to 25 with photographer Cole Baxter and Noongar language teacher Dylan.
- **Delivered Memory Café**, partnering with Westfield Booragoon shopping centre to provide monthly meetings where people living with dementia, their loved ones and supporters can enjoy a coffee and a friendly chat.
- **Delivered CareSong Melville**, a new dementia-friendly singing group, at Willagee Community Centre, recognising that creativity supports the well-being of people living with dementia, enabling shared experiences with carers, family members, and other singers.
- **Delivered the workshop Dementia and Community**, presented by Michael Verde, on a vision of community that includes individuals with dementia.
- **Delivered two events for the International Day of People with Disability**, to improve service delivery quality by staff, celebrating diversity, non-verbal communication, and improving culture at work.
- **Delivered the YODyssey Art Exhibition**, showcasing the art works created by people living with young onset dementia (YOD), using visual art to engage and educate the wider community about the prevalence and impacts of YOD.
- **Delivered the Mental Health Peer Support Group**, partnering with Consumers of Mental Health WA, providing a monthly group where people living with or recovering from mental health conditions connect with and support one another.
- **Delivered Sensory Storytime**, a program to build early literacy skills for children who are neurodivergent and those who may experience sensory processing difficulties, aged two to five years and their families, at Bull Creek library. This included a four-week exploration with *We're Going on a Bear Hunt* by Michael Rosen and messy, hands-on sensory play. Other Sensory Storytime activities were also delivered at AH Bracks Library and Creative Space.
- **Delivered an inclusive film night by Bus Stop Films**, films with, for and about people from diverse backgrounds and abilities, with the goals of changing community attitudes globally around the rights and contribution to society of and by people with disability.
- **Collaborated with ADHD WA** to deliver an ADHD information session for parents and carers.
- **Delivered an art and support group**, Under the Surface, for parents of neurodivergent children and/or children with disability. The group offers a welcoming space for parents who may experience additional challenges or barriers.
- **Provided compassionate waste services**, assisting people with a medical condition in providing more bin capacity (for general waste) and help taking bins to the kerb and back at no additional cost.

Outcome 2

BUILDINGS AND FACILITIES - People with disability have the same opportunities as other people to access the buildings and facilities of a public authority.

- **LeisureFit Booragoon was transformed** into a modern, contemporary and accessible new swimming facility. The exciting new upgrades include:
 - walking and lap swimming lanes
 - a separate warm water pool for rehabilitation, seniors, and baby programs
 - improved acoustics for a quieter pool environment
 - accessible ramp entrance added to both leisure and 50m pools
 - wheelchair-friendly bays and access in pool deck areas
 - a unisex accessible 'Changing Places' change room.
- **Refurbished the pathway** at the front of Willagee Community Centre so that people with mobility aids now have ease of access to the car park.
- **Installed a handrail** outside the activity room at Willagee Community Centre for support guiding people down the ramp to courtyard.
- **Provided an accessible toilet**, wider security gates for ease of access for mobility devices and accessible workstations at Willagee Community Centre.
- **Reconfigured the collection at AH Bracks Library and Creative Space** to lower the shelving for greater accessibility.
- **Continued to provide the Melville Community Bus**, which is driven by volunteers and enables excursions for residents who don't drive or need mobility support. These community buses also provide a safe environment for social connections, where participants help each other with cognitive and mobility support.

The Melville Community Bus

Len Shearer Reserve changerooms

- **Made the Melville Community Based Transport Service available for hire** by not-for-profit retirement village Alchera Living, Melville Cares, and the First Nations Youth Team, among others.
- **We partnered with Cycling Without Age** to provide free wheelchair accessible trishaw rides, and getting out into nature, at Point Walter and Wireless Hill.
- **We partnered with Volleyball WA** to provide Adaptive Volly, an inclusive volleyball program designed for people with disability of all ages, who want to learn to play sitting or standing volleyball. The activities are easily adaptable for people who use a wheelchair.
- **We consulted with the community** and planned site-wide renewals at Morris Buzacott Reserve to prioritise accessibility and inclusivity throughout the design process to ensure the site is welcoming and usable for all. This includes providing for change room upgrades featuring access ramps at all entrances, compliant door widths for wheelchair access, tactile paving, and braille signage.
- **Commenced renewal work** on the Ogilvie streetscape. The new streetscape will have increased seating and no kerb.
- **Increased path networks** through park renewals, including at Bicton Substation and Alison Harris Park.
- **Renewed the changerooms** at Len Shearer Reserve to include a universal access toilet.
- **Upgraded bus shelters** to meet disability access requirements.

Outcome 5

COMPLAINTS - People with disability have the same opportunities as other people to make complaints to a public authority.

- **Delivered on the City's Customer Complaints Handling Policy**, making it easy for customers to raise complaints and ensuring assistance is available to customers wishing to raise a complaint, including customers with special needs or requiring additional assistance (including translating and interpreting services).
- **Provided flexible complaint mechanisms:** a complaint to the City may be lodged in writing, in person, online using e-pathway or by email, by telephone (national TTY/Speech Relay/translation services are available).

The City's Access Advisory Panel

Outcome 6

CONSULTATION - People with disability have the same opportunities as other people to participate in any public consultation by a public authority..

- **Consulted the City's Access Advisory Panel** on accessibility needs in the following projects:
 - Library and Cultural Centre
 - Booragoon (Melville City Centre)
 - Activity Centre Plan Review
 - Morris Buzzacott Reserve Site Development
 - Tompkins Park
 - Kearns Crescent Streetscape upgrade
 - Moreau Mews concept design
 - Guidelines for organising events
 - Website updates for people with disability
 - Social and Community Infrastructure Strategy, for connectivity and accessibility.
- The City's Youth Steering Group and the City's Access Advisory Panel **provided digital access to meetings and consultation** for members unable to attend in-person, utilised by members in hospital and members with disability; also provided meeting material in various formats with image descriptions for digital reading by people with vision support needs. The Youth Steering Group membership includes people with disability and people with neurodivergence, providing young people positive experiences in engagement with City and community processes.
- **Delivered the Melville Sounding Board**, to engage with the City's diverse community.

Outcome 7

EMPLOYMENT - People with disability have the same opportunities as other people to obtain and maintain employment with a public authority.

- Aspirational target to reach **3% representation of people with disability employed at the City of Melville** by 30 June 2025 has been reached. The EEO report revealed 3.3%.
- **Hosted six students** from Leeming High School Education Support Centre across City functions, in community development, libraries, and streetscapes.
- **Prepared a policy** on reasonable adjustments.
- **Short-term, part time paid work is being explored** with external provider Maxima, using \$20,000 allocated to this initiative in the City's We Belong Plan on diversity, inclusion, and belonging.

Stretch Reconciliation Action Plan

Since the 2023 Voice to Parliament referendum our commitment to the First Nations peoples and reconciliation has not wavered. We continue to be guided by the voices, opinions and knowledge of Aboriginal and Torres Strait Islander communities.

Our work across the organisation ensures reconciliation is at the heart of our decision making as we seek to grow and nourish relationships with Elders and the wider community as we continue to embed programs that improve outcomes for our community.

During the engagement for our Council Plan for the Future 2024–2034 we heard from 29 First Nations community members. Their knowledge and connection to Country provided valuable feedback that helped inform our Council Plan.

In asking our entire community ‘what makes our City unique?’ the most common responses were the water, rivers and foreshores in the City, as well as its accessibility and location. This strong connection to place further reinforces our need for reconciliation and learning from First Nations peoples to help create a brighter future.

The following is a summary of some of the key First Nations engagement achievements and initiatives during the 2024–2025 financial year.

Melville Boxing Program

KEY ACHIEVEMENTS

- **Employed 11 staff** who identify as Aboriginal and/or Torres Strait Islander peoples.
- **Engaged with more than 44 First Nations suppliers** for an aggregate total of **\$496,977.88** worth of services.
- We secured several **key grants** to assist in our journey to reconciliation:
 - **\$200,000** to establish a case management service from the Department of Justice through the Criminal Property Confiscation grant program.
 - **\$40,000** to fund 'Willagee Gloves' boxing program through the Australian Sports Commission's Play Well grant program.
 - **\$75,000** to fund BlakSounds, a hip hop program at Wilgi Kaartdijin Mia, through Healthway and DLGSC's Creativity and Wellbeing for Young People grant program.
 - **\$125,000** for Write Club at Caralee Community School and Melville SHS for 2025, 2026 and 2027
- Worked with **6 First Nations artists** as we progressed our **Public Art Strategy and Master Plan**.
- **Nearly half** of the artists engaged for our Creative Learning programs were First Nations artists.
- **Our second Stretch Reconciliation Action Plan** was endorsed by Council and launched in April 2025, with the below key deliverables underway or completed:
 - **Incentivised recruitment** from First Nations suppliers through an update to the Procurement Policy.
 - **Review and update of the City's Naming** of Roads, Parks, Buildings and Infrastructure Policy. Work is continuing into 2025–2026.
 - We are in the process of establishing an **advisory group of Aboriginal and Torres Strait Islander** community members.

The Write Club at Caralee Community School

Tracey Westerman in Conversation

- Our **First Nations Engagement and Reconciliation (RAP)** steering group met eight times during the financial year to continue to elevate our commitment to reconciliation and improve our processes and services for First Nations communities.
- We **expanded the Noongar Language Storytime (Koolangka Waangkiny) program** to include weekly sessions at Wilgi Kaatidjin Mia, and continued at AH Bracks library, with 462 children and 415 adults attending.
- **Facilitated 18 engagement opportunities** for First Nations people to help shape our City, services and processes.
- Our ongoing youth events and programs saw **8,200 young people** attend our sessions across Brentwood and Willagee.
- The 2025 theme for National Reconciliation Week was **'bridging now to next'** and during 27 May to 2 June the City hosted nine community events and seven internal events for staff, including:
 - **5** Blak Dingo Club events
 - **182** attendees at Reconciliation in Conversation with Dr Tracy Westerman
 - A **smoking ceremony** with Uncle Neville Collard
 - **Reconciliation WA breakfast** livestream
 - Blak Dingo Club **staff movie screening**
 - **Yarning circle** with the Aboriginal Family History Unit
 - **Two Knowledges Walk** with Uncle Noel Nannup and Prof Stephen Hopper
 - **Planting on Country** with Welcome from Uncle Neville Collard
 - **Reconciliation in Action** staff workshop.

Looking to the year ahead we will continue to advance our Stretch Reconciliation Action Plan and implement a comprehensive reporting system across the entire organisation to ensure ongoing progress, accountability and sustainability.

Our measures

KEY PERFORMANCE INDICATORS

The key organisational performance indicators outlined below are an additional level of measurement at a more operational level, ensuring we are benchmarking our performance against previous performance and industry standards.

Operational KPI	Means of measurement	Target	Actual	Comments
People management				
Staff turnover	Formula: Total number of resignations for the period (ex contracts) <hr/> Total number of employees at the beginning x 100	18%	18.7%	Staff turnover has decreased compared to the previous financial year and remains stable at approximately 18%, consistent with current industry benchmarks
Staff satisfaction	Survey results	62	61	The staff survey was conducted for the first time in several years and almost hit target. Four projects have been actioned to help increase staff engagement
Lost time injury frequency rate (LTIFR)	Formula: Number of lost time incidents for period x 1,000,000 <hr/> Number of total hours worked for the period = 930,810.4	2.37	12.89	Our LTIFR remains above target, driven mainly by musculoskeletal injuries such as sprains and strains. With the Warm-Up for Work program restarting in June 2025, we expect improvement over time. We have also identified that the current LTIFR target may not fully reflect the nature of our operations or activity levels and will review it to ensure it is realistic and evidence-based going forward.
Staff non-availability	Formula: Work hours <hr/> Number of total hours worked for the period	15%	12.07%	

Operational KPI	Means of measurement	Target	Actual	Comments
Environment management				
Diversion of waste from landfill	Percentage of total waste diverted from landfill	N/A	66.2%	Exceeds the Waste Avoidance and Resource Recovery Strategy of 2030 target of 65% waste diversion from landfill.
Energy efficiency - electricity	Electricity consumption across the City's facilities	N/A	5.69 GWh	Increase of 0.29 GWh from last financial year due to replacing gas with electricity.
Energy efficiency - gas	Gas consumption across the City's facilities	N/A	7,779 GJ	Reduction of 10,154 GJ from last financial year due mainly to pool shutdown for refurbishment and replacement of gas heating with electric at the Civic Centre.
Energy efficiency - fuel	Fuel use in all vehicles and small plant	N/A	675 kL	Reduction of 46 kL from last financial year due to the replacement of 6 petrol vehicles with fully electric vehicles.
Water efficiency	The City's total scheme water consumption (kL)	N/A	97,979 kL	
Governance				
Department of Local Government compliance audit score	Audit results	100%	100%	Increased to 100%. Up 5.4%
Audit plan implemented	Number of audits	16	6	Major internal audits have been completed including Regulation 17 Local Government Audit Regulations (a review of the appropriateness and effectiveness of the local government's systems and procedures for risk management, internal control, and legislative compliance) and Financial Management Regulations internal audit.

The *Local Government Regulations Amendment (Financial Management and Audit) Regulations 2022* removed the requirement for an annual financial report of the City to include financial ratios and an auditor's opinion on financial ratios, significant adverse trends and indications of non compliance. These financial ratios are not audited by the WA Auditor General Department (OAG)/KPMG but the information for the calculation is extracted from the audited financial statement for 2024–2025.

Enabling legislation and regulatory reporting requirements

Local government authorities operate in a complex legislative environment. We must adhere to more than 200 Acts and regulations, in addition to numerous standards and legislative guidelines.

Here are some examples of the legislation we have to comply with:

Local Government Act 1995 (WA)

As a local government authority, we are required to conduct business in accordance with the *Local Government Act 1995* (WA). This Community Annual Report Part A, together with the Community Annual Report Part B, complies with the requirements of Section 5.53(1) of the Act to prepare an annual report for each financial year. Both annual reports can be accessed online at melvillecity.com.au/annualreport

Elected Members' conduct

During the 2024–2025 financial year there were no new complaints of minor or major breaches by Elected Members.

State Records Act 2000 (WA)

The *State Records Act 2000* (WA) requires us to produce an annual report, as outlined in our Record Keeping Plan. Our Record Keeping Plan was first approved by the State Records Commission in July 2004 and a comprehensive five-yearly review was undertaken and completed in April 2020, when it was approved by the State Records Commission.

We continuously review and develop our record keeping systems to improve efficiency and reliability and meet new requirements. The current core system centralises all corporate documents and increases our efficiency in document retrieval, storage, and retention. Staff are made aware of and trained in their record keeping responsibilities.

All new staff who have access to the City's electronic document and records management system (EDRMS) are required to attend training. This training covers document registration, searching, tasking, and editing, which are complemented by work instructions and guidelines. The Information Management team conducts both basic and intermediate level training depending on staff needs. Current staff can request refresher training in any of these areas when required. The effectiveness and efficiency of the record keeping program is reviewed and audited annually with evaluation forms completed at the end of each training session by all participants.

Elected Members receive training in their record keeping obligations and the associated process when they commence their term of office. Regular updates are provided to Elected Members through their normal communication channels.

The City is conducting a major update of its information management practices with the forthcoming implementation of a new document management system that will improve the way information is captured, shared, used, and managed to improve decision making, which benefits the community and City as a whole.

New scanning equipment has been purchased to comply with the State Records General Disposal Authority for Source Records, which will see a reduction in hard copy records being sent offsite for storage.

Local Government (Financial Management) Regulations 1996 (WA)

The City is required to review the appropriateness and effectiveness of our financial management systems and procedures no less than once every three years.

The last review was finalised in April 2022, with the report tabled at the Financial Management, Audit, Risk and Compliance Committee in May 2022.

The next review will be undertaken towards the end of 2025.

Freedom of Information Act 1992 (WA)

The objectives under Section 3(2) of the *Freedom of Information Act 1992 (WA)* create, among other things, a general right of access for residents to state and local government documents. This is a legally enforceable right to access records (that are not otherwise exempt) held by state and local government agencies.

We assist customers in the FOI application process and customers can apply using a preformatted PDF form, or an online form.

Freedom of information activity report

	2024–2025	2023–2024	2022–2023	2021–2022	2020–2021	2019–2020
FOI requests received	60*	47	43	56	61	40
Average processing time (days)	34	40	83	44	49	45
Amendment of personal information applications received	1	1	2	3	1	0
Outcome						
Access in full	1	1	2	3	6	7
Edited access	44	39	37	38	41	30
Application withdrawn	2	2	5	2	4	1
Access deferred	0	0	0	1	0	0
Access refused**	6	0	11	2	7	2
Requests in progress at 30 June	7	5	1	16	12	13
Total	60	47	56	62	70	53

* Out of the 60 applications received in 2024–2025, six were applications for personal information. All other applications received were for release of non-personal information.

** Please note that if the information does not exist, it is deemed to be a refusal in accordance with the *Freedom of Information Act 1992 (WA)*. While no application was refused in full, three applications included a refusal as part of the decision due to some of the documents being requested not existing but other documents were released as part of those applications.

Legislation requires that all requests are responded to within 45 days.

In accordance with Sections 96 and 97 of the *Freedom of Information Act 1992*, the City is required to publish an annual Information Statement that details the process for applying for information under the Act, as well as information that the City provides outside the Act. This document is available on the City of Melville website. Further information can be found at melvillecity.com.au/FOI

Food Act 2008 (WA)

The *Food Act 2008 (WA)* became effective 23 September 2009 and applies to all food premises within the City, based on the Australian and New Zealand Food Standards Code and a risk assessment approach to food safety. All registered food businesses are given risk classifications (high, medium, and low). The frequency of inspections will vary depending on the individual business risk classification and compliance standards.

Aquatic Facilities Standards

All public swimming pools and spas within the City are inspected regularly. To ensure an adequate safety level for the prevention of infections and disease, water samples are taken to determine water treatment and microbiological quality. Results for the past year indicate a very good standard of water quality in these facilities.

Health (Miscellaneous Provisions) Act 1911 (WA)

The *Public Health Act 2016 (WA)* passed through Parliament in 2016 and is being introduced in stages. Regulations under the *Health (Miscellaneous Provisions) Act 1911 (WA)* are under review and new regulations under the *Public Health Act 2016 (WA)* will be introduced during stage five of implementation of the Act.

Building Act 2011 and Building Regulations

On 21 June 2024, amendments to the Building Regulations came into full effect, negating the need for a building permit for swimming pool barriers. Regulation 28, which stipulated the need for an inspection of the pool barrier to be identified on the Certificate of Design Compliance, was deleted (inspections are still required). There are further changes scheduled with regard to required inspection. At this stage it appears that 4 mandatory inspections will be required to be undertaken by building surveyors. There was further clarification with regard to 'an authorised person' to carry out swimming pool inspections.

The National Construction Code is regularly reviewed to ensure building standards always reflect best practice and are given statutory weight through the Building Regulations 2011. On Thursday, 1 May 2025, the National Construction Code 2022 came into effect which necessitated all building permits lodged after this date to comply with this new code. Key changes include increased energy efficiency requirements, clarification on information to be submitted for performance solutions, structural safety requirements, plumbing and drainage requirements, fire separation clarifications and access and egress updates.

Equal Opportunity Act 1984 (WA)

Our equal opportunity management plan and procedures are compliant and support and adhere to the *Equal Opportunity Act 1984 (WA)* to eliminate discrimination, sexual and racial harassment, and to promote equality. There is also an extensive contact and grievance officer network in place throughout the organisation.

Work Health and Safety Act 2020 (WA)

The new *Work Health and Safety (General) Regulations 2022* commenced on 31 March 2022, bringing the *Work Health and Safety Act 2020 (WA)* into full force and effect. Our comprehensive safety system has been accredited against ISO 45001:2018 and meets the requirements of the work health and safety legislation. We pride ourselves on promoting a safe workplace where hazards are either eliminated or reduced to as low as reasonably practicable.

Review of local laws

Section 3.16 of the *Local Government Act 1995* (WA) requires that local laws of a local government must be reviewed within an eight-year period after their commencement to determine if they should remain unchanged or be repealed (revoked) or amended. We continue to review local laws and recommend amendments as required.

During 2023–2024 we:

- finalised and adopted the new Cat Local Law at the July 2025 Ordinary Meeting of Council (OMC)
- reviewed and adopted the Fencing Local Law at the July 2025 OMC

Planning legislation that we comply with:

- *Planning and Development Act 2005* (WA)
 - *Planning and Development (Local Planning Schemes) Regulations 2015*
 - *Planning and Development Regulations 2009*
 - *Strata Titles Act 1985* (WA)
-

Appendix

Glossary

THE COUNCIL

In this document, 'the Council' refers to the Mayor and Councillors.

THE ORGANISATION

In this document, 'the organisation' refers to the Chief Executive Officer and staff.

THE CITY OF MELVILLE

In this document, 'the City of Melville' generally refers to the Council and organisation as a whole i.e. the corporate entity. It may also describe the geographical area of the City.

THE CITY

In this document, 'the City' refers to the district, our geographical boundaries or our municipality.

Auditor General

INDEPENDENT AUDITOR'S REPORT

2025

City of Melville

To the Council of the City of Melville

Opinion

I have audited the financial report of the City of Melville (City) which comprises:

- the statement of financial position as at 30 June 2025, the statement of comprehensive income, statement of changes in equity, statement of cash flows and statement of financial activity for the year then ended
- notes comprising a summary of material accounting policies and other explanatory information.

In my opinion, the financial report:

- is based on proper accounts and records
- presents fairly, in all material respects, the results of the operations of the City for the year ended 30 June 2025 and its financial position at the end of that period
- is in accordance with the *Local Government Act 1995* (the Act) and, to the extent that they are not inconsistent with the Act, Australian Accounting Standards.

Basis for opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial report section below.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other information

The Chief Executive Officer (CEO) is responsible for the preparation and the Council for overseeing the other information. The other information is the information in the entity's annual report for the year ended 30 June 2025, but not the financial report and my auditor's report.

My opinion on the financial report does not cover the other information and accordingly, I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial report, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I did not receive the other information prior to

the date of this auditor's report. When I do receive it, I will read it and if I conclude that there is a material misstatement in this information, I am required to communicate the matter to the CEO and Council and request them to correct the misstated information. If the misstated information is not corrected, I may need to retract this auditor's report and re-issue an amended report.

Responsibilities of the Chief Executive Officer and Council for the financial report

The Chief Executive Officer (CEO) of the City is responsible for:

- keeping proper accounts and records
- preparation and fair presentation of the financial report in accordance with the requirements of the Act, the Regulations and Australian Accounting Standards
- managing internal control as required by the CEO to ensure the financial report is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the CEO is responsible for:

- assessing the City's ability to continue as a going concern
- disclosing, as applicable, matters related to going concern
- using the going concern basis of accounting unless the State Government has made decisions affecting the continued existence of the City.

The Council is responsible for overseeing the City's financial reporting process.

Auditor's responsibilities for the audit of the financial report

As required by the *Auditor General Act 2006*, my responsibility is to express an opinion on the financial report. The objectives of my audit are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

A further description of my responsibilities for the audit of the financial report is located on the Auditing and Assurance Standards Board website. This description forms part of my auditor's report and can be found at https://www.auasb.gov.au/auditors_responsibilities/ar4.pdf.

My independence and quality management relating to the report on the financial report

I have complied with the independence requirements of the *Auditor General Act 2006* and the relevant ethical requirements relating to assurance engagements. In accordance with ASQM 1 *Quality Management for Firms that Perform Audits or Reviews of Financial Reports and Other Financial Information, or Other Assurance or Related Services Engagements*, the Office of the Auditor General maintains a comprehensive system of quality management including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Matters relating to the electronic publication of the audited financial report

This auditor's report relates to the financial report of the City of Melville for the year ended 30 June 2025 included in the annual report on the City's website. The City's management is responsible for the integrity of the City's website. This audit does not provide assurance on the integrity of the City's website. The auditor's report refers only to the financial report. It does not provide an opinion on any other information which may have been hyperlinked to/from the annual report. If users of the financial report are concerned with the inherent risks arising from publication on a website, they are advised to contact the City to confirm the information contained in the website version.

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

1. BASIS OF PREPARATION

The financial report of the City of Melville which is a Class 1 local government comprises general purpose financial statements which have been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996* prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the City to measure any vested improvements at zero cost.

The *Local Government (Financial Management) Regulations 1996* provide that:

- land and buildings classified as property, plant and equipment; or
 - infrastructure; or
 - vested improvements that the local government controls ;
- and measured at reportable value, are only required to be revalued every five years. Revaluing these non-financial assets every five years is a departure from AASB 116 *Property, Plant and Equipment*, which would have required the City to assess at each reporting date whether the carrying amount of the above mentioned non-financial assets materially differs from their fair value and, if so, revalue the class of non-financial assets.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Critical accounting estimates and judgements

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
 - Property, plant and equipment - Note 8
 - Infrastructure - Note 9
 - Investment property - Note 11
- Measurement of employee benefits - Note 15
- Measurement of provisions - Note 16

"Fair value heirarchy information can be found in Note 26

The local government reporting entity

All funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 34 of the financial report.

Initial application of accounting standards

During the current year, the following new or revised Australian Accounting Standards and Interpretations were applied for the first time.

- AASB 2020-1 *Amendments to Australian Accounting Standards - Classification of Liabilities as Current or Non-current*
- AASB 2022-5 *Amendments to Australian Accounting Standards - Lease Liability in a Sale and Leaseback*
- AASB 2022-6 *Amendments to Australian Accounting Standards - Non-current Liabilities with Covenants*
- AASB 2023-3 *Amendments to Australian Accounting Standards - Disclosure of Non-current Liabilities with Covenants: Tier 2*
- AASB 2024-1 *Amendments to Australian Accounting Standards - Supplier Finance Arrangements: Tier 2 Disclosures*
- AASB 2023-1 *Amendments to Australian Accounting Standards - Supplier Finance Arrangements*
- AASB 2022-10 *Amendments to Australian Accounting Standards - Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities*

New accounting standards for application in future years

The following new accounting standards will have application to local government in future years:

- AASB 2014-10 *Amendments to Australian Accounting Standards - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*
- AASB 2024-4b *Amendments to Australian Accounting Standards - Effective Date of Amendments to AASB 10 and AASB 128 [deferred AASB 10 and AASB 128 amendments in AASB 2014-10 apply]*
- AASB 2022-9 *Amendments to Australian Accounting Standards - Insurance Contracts in the Public Sector*
- AASB 2023-5 *Amendments to Australian Accounting Standards - Lack of Exchangeability*
- AASB 18 *(NFP/super) Presentation and Disclosure in Financial Statements - (Appendix D) [for not-for-profit and superannuation entities]*
- AASB 2024-2 *Amendments to Australian Accounting Standards - Classification and Measurement of Financial Instruments*
- AASB 2024-3 *Amendments to Australian Accounting Standards - Annual Improvements Volume 11*

The impact of these new accounting standards has not yet been assessed.

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

2. REVENUE AND EXPENSES

(a) Revenue

Contracts with customers

Recognition of revenue is dependant on the source of revenue and the associated terms and conditions associated with each source of revenue and recognised as follows:

Revenue category	Nature of goods and services	When obligations typically satisfied	Payment terms	Returns/refunds/warranties	Timing of revenue recognition
Grants, subsidies or contributions	Community events, minor facilities, research, design, planning evaluation and services	Over time	Fixed terms transfer of funds based on agreed milestones and reporting	Contract obligation if project not complete	Output method based on project milestones and/or completion date matched to performance obligations
Fees and Charges - Licences/Registrations/Approvals	Building, planning, development and animal management, having the same nature as a licence regardless of naming.	Single point in time	Full payment prior to issue	None	On payment and issue of the licence, registration or approval
Fees and Charges - Pool inspections	Compliance safety check	Single point in time	Equal proportion based on an equal annually fee	None	Revenue recognised annually.
Fees and Charges - Waste management collections	Kerbside collection service	Over time	Payment on an annual basis in advance	None	Provision of collection service
Fees and Charges - Property hire and entry	Use of halls and facilities	Single point in time	In full in advance	Refund if event cancelled within 7 days	On entry or at conclusions of hire
Fees and charges for other goods and services	Library fees, reinstatements and private works	Single point in time	Payment in full in advance	None	Output method based on provision of service or completion of works
Fees and Charges - Other inspections	Regulatory food, health and safety	Single point in time	Full payment prior to inspection	None	Revenue recognised after inspection event occurs
Fees and Charges - Memberships	Gym and pool membership	Over time	Payment in full in advance	Refund for unused portion on application	Output method over 12 months matched to access right
Other Revenue - Reimbursements	Insurance claims	Single point in time	Payment in arrears for claimable event	None	When claim is agreed

Revenue recognition

Revenue recognised during the year under each basis of recognition by nature of goods or services is provided in the table below:

For the year ended 30 June 2025

Nature	Contracts with customers	Capital grant/contributions	Statutory requirements	Other	Total
	\$	\$	\$	\$	\$
Rates	-	-	109,584,696	-	109,584,696

FOR THE YEAR ENDED 30 JUNE 2025**

2. REVENUE AND EXPENSES (Continued)

(a) Revenue (Continued)

Note	2025 Actual \$	2024 Actual \$
Assets and services acquired below fair value		
Recognised volunteer services	824,431	841,852
	824,431	841,852

The City utilises volunteer services at its libraries, community centres, in waste education and in its natural areas. Volunteers provide their time willingly for the common good and without financial gain (National Standards for Volunteer Involvement 2024). The fair value of volunteers is calculated by using Volunteering WA's Benefits Calculator. The replacement cost of a volunteer is calculated using the average hourly part-time wage of a person of their age in their specific state of residence plus 15% employer on costs.

Interest revenue

Financial assets at amortised cost - self-supporting loans

Interest on reserve account	8,279,778	8,789,011
Interest on municipal account funds	1,123,912	1,344,093

Cash - unrestricted funds	14,593,752	7,280,307
	36,402,845	31,231,114

MATERIAL ACCOUNTING POLICIES

Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of financial position.

Term deposits are presented as cash equivalents if they have a maturity of three months or less from the date of acquisition and are repayable with 24 hours notice with no loss of interest.

Restricted financial assets

Restricted financial asset balances are not available for general use by the local government due to externally imposed restrictions. Restrictions are specified in an agreement, contract or legislation. This applies to reserve accounts, unspent grants, subsidies and contributions and unspent loans that have not been fully expended in the manner specified by the contributor, legislation or loan agreement.

4. OTHER FINANCIAL ASSETS

Note	2025 \$	2024 \$
(a) Current assets

Financial assets at fair value through profit and loss	(1,015,493)	(131,390)
Carawatha Redevelopment - closing balance	5,155,842	5,711,897

Loans receivable from clubs have the same terms and conditions as the related borrowing disclosed in Note 31 as self supporting loans. Fair value of financial assets at fair value through profit or loss is determined from the net asset value of the units held in the Trust at balance date as compiled by WALGA.

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

MATERIAL ACCOUNTING POLICIES

Other financial assets at amortised cost

The City classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows; and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Fair values of financial assets at amortised cost are not materially different to their carrying amounts, since the interest receivable on those assets is either close to current market rates or the assets are of a short term nature. Non-current financial assets at amortised cost fair values are based on discounted cash flows using a current market rates. They are classified as level 2 fair values in the fair value hierarchy (see Note 26(i)) due to the observable market rates.

Interest received is presented under cashflows from operating activities in the Statement of Cash Flows where it is earned from financial assets that are held for cash management purposes.

Financial assets at fair value through profit or loss

The City classifies the following financial assets at fair value through profit or loss:

- debt investments which do not qualify for measurement at either amortised cost or fair value through other comprehensive income.
- equity investments which the City has elected to recognise as fair value gains and losses through profit or loss.

Impairment and risk

Information regarding impairment and exposure to risk can be found in Note 24.

Refuse debtors	60,362	55,013
Fire Emergency Services levy debtors	791,999	813,475
Pensioner rebates	1,530,307	1,653,515
Sundry debtors	483,311	589,770
Allowance for credit losses of other receivables	24(b) (4,228)	(43,702)
GST receivable	1,379,453	1,579,372
Other receivables (Accrued Income)	2,311,629	5,370,688
	<u>10,973,596</u>	<u>14,575,509</u>
Non-current		
Rates outstanding - pensioners	1,934,452	2,101,022
	<u>1,934,452</u>	<u>2,101,022</u>

The provision for expected credit loss was measured using the historical data to estimate future expected collections. In determining the recoverability of trade receivables, the City consider any changes in the credit quality of the trade receivable from the date credit was initially granted up until the reporting date. The concentration of credit risk is limited due to the customer base being large. Accordingly, management believes that there is no further credit provision required in excess of the expected credit loss of \$4,228 in 2024-2025 in accordance with AASB 9 Financial Instruments.

Total trade and other receivables from contracts with customers	<u>479,083</u>	<u>546,068</u>	<u>752,505</u>

MATERIAL ACCOUNTING POLICIES

Rates and statutory receivables

Rates and statutory receivables are non-contractual receivables arising from statutory requirements and include amounts due from ratepayers for unpaid rates and service charges and other statutory charges or fines.

Rates and statutory receivables are recognised when the taxable event has occurred and can be measured reliably.

Trade receivables

Trade receivables are amounts receivable from contractual arrangements with customers for goods sold, services performed or grants or contributions with sufficiently specific performance obligations or for the construction of recognisable non financial assets as part of the ordinary course of business.

Other receivables

Other receivables are amounts receivable from contractual arrangements with third parties other than contracts with customers and amounts received as grants for the construction of recognisable non financial assets.

Measurement

Trade and other receivables are recognised initially at the amount of the transaction price, unless they contain a significant financing component, and are to be recognised at fair value.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the City measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

Impairment and risk exposure

Information about the impairment of trade receivables and their exposure to credit risk and interest rate risk can be found in Note 24.

FOR THE YEAR ENDED 30 JUNE 2025**

10. FIXED ASSETS (Continued)

MATERIAL ACCOUNTING POLICIES

Initial recognition

An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the City includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Local Government (Financial Management) Regulation 17A(5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the City's revaluation policy, are recognised at cost and disclosed as being at reportable value.

Measurement after recognition

Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under *Local Government (Financial Management) Regulation 17A(2)*. Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses being their reportable value.

Reportable value

In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the local government controls.

Reportable value is for the purpose of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.

Revaluation

Land and buildings classified as property, plant and equipment, infrastructure or vested improvements that the local government controls and measured at reportable value, are only required to be revalued every five years in accordance with the regulatory framework. This includes buildings and infrastructure items which were pre-existing improvements (i.e. vested improvements) on land vested in the City.

Whilst the regulatory framework only requires a revaluation to occur every five years, it also provides for the City to revalue earlier if it chooses to do so.

For land, buildings and infrastructure, increases in the carrying amount arising on revaluation of asset classes are credited to a revaluation surplus in equity.

Decreases that offset previous increases of the same class of asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

Subsequent increases are then recognised in profit or loss to the extent they reverse a net revaluation decrease previously recognised in profit or loss for the same class of asset.

Depreciation

The depreciable amount of all property, plant and equipment and infrastructure, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Depreciation on revaluation

When an item of property, plant and equipment and infrastructure is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways:

- (i) The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset; or
- (ii) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Impairment

In accordance with *Local Government (Financial Management) Regulations 17A(4C)*, the City is not required to comply with *AASB 136 Impairment of Assets* to determine the recoverable amount of its non-financial assets that are land or buildings classified as property, plant and equipment, infrastructure or vested improvements that the local government controls in circumstances where there has been an impairment indication of a general decrease in asset values.

In other circumstances where it has been assessed that one or more of these non-financial assets are impaired, the asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains or losses on disposal

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income in the period in which they arise.

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

11 INVESTMENT PROPERTY

	2025	2024
	Actual	Actual
	\$	\$
Non-current assets - at reportable value		
Carrying balance at 1 July	60,846,541	58,982,501
Acquisitions	1,213	26,040
Net gain/(loss) from fair value adjustment	3,350,000	1,838,000
Closing balance at 30 June	<u>64,197,754</u>	<u>60,846,541</u>
Amounts recognised in profit or loss for investment properties		
Rental income	1,049,276	1,075,963
Direct operating expenses from property that generated rental income	(26,686)	(26,686)
Leasing arrangements		
Minimum lease payments under non-cancellable operating leases of investment properties not recognised in the financial statements are receivable as follows:		
Less than 1 year	842,668	824,720
Later than one year but not later than 5 years	3,813,603	4,438,463
> 5 years	35,696,287	33,745,545
	<u>40,352,558</u>	<u>39,008,728</u>

The City revalues investment land annually under AASB 140, but the \$4.4 million investment buildings recorded at fair value were not revalued this year, as modelling indicated that fair value movements were immaterial. Some buildings are located on land rezoned to Public Open Space, with planned demolition already reflected in the prior valuation.

The investment properties are leased to tenants under operating leases with rentals payable monthly. Lease income from operating leases where the group is a lessor is recognised in income on a straight-line basis over the lease term.

Lease payments for some contracts include CPI increases, but there are no other variable lease payments that depend on an index or rate. Although the City is exposed to changes in the residual value at the end of the current leases, the City group typically enters into new operating leases and therefore will not immediately realise any reduction in residual value at the end of these leases. Expectations about the future residual values are reflected in the fair value of the properties.

MATERIAL ACCOUNTING POLICIES

Investment properties

Investment properties are principally freehold buildings, held for long-term rental yields and not occupied by the City.

In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are investment properties, are shown at their reportable value.

Reportable value for the purposes of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date.

Revaluation

In accordance with the regulatory framework, investment properties are required to be revalued whenever required by AASB 140 and, in any event, every five years.

Fair value of investment properties

An external valuation was performed to determine the fair value of investment properties. The main Level 3 inputs used in the valuation were discount rates, yields, expected vacancy rates and rental growth rates estimated by management based on comparable transactions and industry data.

	<u>281,149</u>	<u>286,510</u>

MATERIAL ACCOUNTING POLICIES

Financial liabilities

Financial liabilities are initially recognised at fair value when the City becomes a party to the contractual provisions of the instrument.

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and any consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the City prior to the end of the financial year that are unpaid and arise when the City becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are usually paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

Prepaid rates

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the City recognises income for the prepaid rates that have not been refunded.

	<u>1,394,449</u>	<u>1,634,317</u>

MATERIAL ACCOUNTING POLICIES

Contract liabilities

Contract liabilities represent the City's obligation to transfer goods or services to a customer for which the City has received consideration from the customer.

Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

Capital grant/contribution liabilities

Capital grant/contribution liabilities represent the City's obligations to construct recognisable non-financial assets to identified specifications to be controlled by the City which are yet to be satisfied. Capital grant/contribution liabilities are recognised as income when the obligations in the contract are satisfied.

MATERIAL ACCOUNTING POLICIES

Borrowing costs

The City has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

Borrowings fair values are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy (see Note 26(i)) due to the unobservable inputs, including own credit risk.

Risk

Details of individual borrowings required by regulations are provided at Note 32(a).

Information regarding exposure to risk can be found at Note 24.

**CITY OF MELVILLE

Total employee related provisions	<u>10,223,276</u>	<u>10,302,172</u>

Provision is made for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave and associated on costs for services rendered up to the reporting date and recorded as an expense during the period the services are delivered.

Annual leave liabilities are classified as current, as there is no unconditional right to defer settlement for at least 12 months after the end of the reporting period. Assessments indicate that actual settlement of the liabilities is expected to occur as follows:

	Note	2025	2024
		\$	\$
Amounts are expected to be settled on the following basis:			
Less than 12 months after the reporting date		9,273,341	9,330,106
More than 12 months from reporting date		949,935	972,066
		<u>10,223,276</u>	<u>10,302,172</u>

MATERIAL ACCOUNTING POLICIES

Employee benefits

The City's obligations for employees' annual leave, long service leave and other employee leave entitlements are recognised as employee related provisions in the Statement of Financial Position.

Short-term employee benefits

Provision is made for the City's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and personal leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The City's obligations for short-term employee benefits such as wages, salaries and personal leave are recognised as a part of current trade and other payables in the statement of financial position.

Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The City's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the City does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

16. OTHER PROVISIONS

	Provision for John Connell	Total
	\$	\$
Opening balance at 1 July 2024		
Non-current provisions	6,893,140	6,893,140
	6,893,140	6,893,140
Additional provision	144,756	144,756
Balance at 30 June 2025	7,037,896	7,037,896
Comprises		
Non-current	7,037,896	7,037,896
	7,037,896	7,037,896

Other provisions

The provision relates to the indicative costs for remediation of John Connell Reserve, a previous landfill site. The amount is based on an assessment performed by an independent consultant of the indicative costs of the scope of works to satisfy the Department of Health and Department of Water and Environmental Regulation requirements. The assessment provided an indicative amount of \$6.59m in 2022-2023 with a CPI increase of 4.6% applied in 2023-2024 and a further CPI increase of 2.1% has been applied to current 2024-2025 provision of \$7.037m for the remediation of John Connell Reserve. This is reflected in the present value of the remediation provision of each reporting date.

The provision of future remediation costs is the best estimate of the present value of the expenditure required to settle the remediation obligation at the reporting date. Future remediation costs are reviewed annually and any changes in the estimate are reflected in the present value of the remediation provision at each reporting date.

MATERIAL ACCOUNTING POLICIES

Provisions

Provisions are recognised when the City has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

19. CONTINGENT LIABILITIES

Workers' Compensation Premium

The City negotiates its Workers' Compensation Premium on a "burning cost" basis whereby a minimum and maximum premium are determined for workers' compensation and the City pays a deposit premium only with the actual premium being settled based on known and anticipated claims experience. Therefore, the City may be required to fund an additional premium if the actual premium (as yet to be determined) exceeds the deposit premium already paid. Accordingly, a contingent liability is recognised for the difference between the deposit premium paid and the maximum premium payable.

Contingent Liability For Additional Workers' Compensation Premium is \$ 8,556,258 for the year 2024-2025 , compared to \$ 8,788,791 for the previous year 2023-2024.

Possible Contaminated Sites

AASB 137.86 In compliance with the Contaminated Sites Act 2003, the City has listed sites to be possible sources of contamination.

Details of those sites are:

- Tompkins Park (Lot 9789 on Plan 182892)
- John Creaney Park (Lot 3073 & Lot 3142 on Plan 214497)
- Leeming Recreation Centre 55 Farrington Road Leeming WA 6149
- Booragoon Lake (Lot 680 on Plan 25318)
- Len Shearer Reserve (Lot 2348 on Plan 181771 LR-3053/112)

Until the City conducts an investigation to determine the presence and scope of contamination, assess the risk, and agree with the Department of Water and Environmental Regulation on the AASB 137.91 need and criteria for remediation of a risk based approach, the City is unable to estimate the potential costs associated with remediation of these sites. This approach is consistent with the Department of Water and Environmental Regulation Guidelines.

20. CAPITAL COMMITMENTS

	2025	2024
	\$	\$
Contracted for:		
- capital expenditure projects	9,708,559	18,790,000
	9,708,559	18,790,000

These capital commitments are expected to be paid within the next 12 months and the City had no other commitments as at 30 June 2025.

**CITY OF MELVILLE

	411,341	469,810	433,352
21(b)	643,353	699,901	650,425

(b) Key management personnel (KMP) compensation

The total of compensation paid to KMP of the City during the year are as follows:

Short-term employee benefits	1,971,552	1,700,655
Post-employment benefits	195,233	164,822
Employee - other long-term benefits	42,009	34,026
Employee - termination benefits	0	193,299
Council member costs	643,353	650,425
21(a)	2,852,147	2,743,227

Short-term employee benefits

These amounts include all salary and fringe benefits awarded to KMP except for details in respect to fees and benefits paid to council members which may be separately found in the table above.

Post-employment benefits

These amounts are the current-year's cost of the City's superannuation contributions made during the year.

Other long-term benefits

These amounts represent annual leave and long service leave entitlements accruing during the year.

Termination benefits

These amounts represent termination benefits paid to KMP (Note: may or may not be applicable in any given year).

Council member costs

These amounts represent payments of member fees, expenses, allowances and reimbursements during the year.

FOR THE YEAR ENDED 30 JUNE 2025**

21. RELATED PARTY TRANSACTIONS (Continued)

(c) Transactions with related parties

Transactions between related parties and the City are on normal commercial terms and conditions, no more favourable than those available to other parties, unless otherwise stated.

No outstanding balances or provisions for doubtful debts or guarantees exist in relation to related parties at year end.

(d) Related parties

The City's main related parties are as follows:

i. Key management personnel

Any person(s) having authority and responsibility for planning, directing and controlling the activities of the City, directly or indirectly, including any council member, are considered key management personnel.

ii. Other Related Parties

Outside of normal citizen type transactions with the City, there were no other related party transactions involving key management personnel and/or their close family members and/or their controlled (or jointly controlled) entities.

iii. Entities subject to significant influence by the City

There were no such entities requiring disclosure during the current or previous year.

22. JOINT ARRANGEMENTS

Share of joint operations

Share in Carawatha Redevelopment Project

This joint arrangement perform the residential redevelopment project of the Carawatha site between the City of Melville and Satterley Property Group (SPG). The project aims to address urban renewal objectives, generate economic value, and deliver planning outcomes in line with the City's Land Asset Management Plan. The proposed development structure involves a joint venture model where the City contributes the land and SPG provides a participation fee, with SPG managing the project's development and sales.

City of Melville's 50% equity share of the project is as follows:

Statement of financial position	2025 Actual	2024 Actual
	\$	\$
Cash and cash equivalents	709,166	535,889
Current Assets - Inventories and Other Receivables	4,965,404	5,696,778

MATERIAL ACCOUNTING POLICIES

Joint operations

A joint operation is a joint arrangement where the City has joint control with two or more parties to the joint arrangement. All parties to joint arrangement have rights to the assets, and obligations for the liabilities relating to the arrangement.

Assets, liabilities, revenues and expenses relating to the City's interest in the joint operation are accounted for in accordance with the relevant Australian Accounting Standards.

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

23. INVESTMENT IN ASSOCIATES

(a) Investment in associates

Set out in the table below are the associates of the City. All associates are measured using the equity method. Western Australia is the principal place of business for all associates.

Name of entity	% of ownership interest		2025	2024
	2025	2024	Actual	Actual
Share in Investment in Resource Recovery Group (RRG)	77.68%	73.65%	\$ 4,860,644	\$ 8,409,132
Total equity-accounted investments			4,860,644	8,409,132

(b) Share of investment in Resource Recovery Group

The Resource Recovery Group (RRG) is a statutory local government authority established in 1991 by the local governments of Canning, Cockburn, East Fremantle, Fremantle, Kwinana, Melville, and Rockingham. The RRG is responsible for developing environmentally sustainable waste management solutions for the communities of the Participants.

The member local governments have jointly agreed to establish RRG under an Establishment Agreement and each participant may participate in regional projects that are governed by a Participants' Project Agreement.

There are two core projects being:

1. The Regional Resource Recovery Centre (RRRC) Project and;
2. The Office Accommodation Project.

Both the projects were established through separate project participants' agreements. The City of Kwinana are not participants in the RRRC project. In addition to the above two projects, the support activities of RRG such as Administrative activities, Education and Marketing and Research and Development, are referred to as Existing Undertakings.

Over the period the following local governments have since withdrawn from the Regional Council: City of Canning in June 2010, City of Rockingham in June 2012, City of Cockburn in June 2019 and Town of East Fremantle June 2024.

Existing Undertakings

The historical annual contributions made by Participants to the Existing Undertakings are used to determine the proportional contribution percentage of each Participant to the Existing Undertakings.

The City's share as on 30 June 2025:

RRG Existing Undertakings Proportional Equity Share: **77.68%**

Regional Resource Recovery Centre (RRRC) Project

RRRC Project Participants shall make an annual contribution towards the acquisition of any asset of a capital nature required by the Project, plus pay gate fees for each tonne of waste they deliver to the facility to cover the operating costs. The annual contribution shall be an amount which bears the same proportion to the cost of the acquisition disclosed in the Project Budget for the financial year as the Population of the Project Participant bears to the total of the Populations of all Project Participants.

The capital costs for each participating Local Government member is based on the Australian Bureau of Statistics population statistics. Each project participant will develop equity in the project equal to the relevant proportion of the total capital loan repayments made by that project participant.

The City's share as on 30 June 2025:

RRRC Project Proportional Equity Share: **77.97%**

RRRC - Lending Facility

The capital construction of the RRRC facility was funded by borrowings from Western Australian Treasury Corporation (WATC). The lending facility was fully repaid on the 30 June 2023.

The RRG administer the borrowings with the project participants making quarterly contributions equal to the repayment costs of these borrowings.

The Council guaranteed by way of agreement to its share of the loan liability to the RRG and the WATC. The City's estimated share of the project funding is based on population percentages as derived from the Australian Bureau of Statistics census. These are revised yearly over the life of the lending facility.

As at 30 June 2025, the balance outstanding against the lending facility stood at: Nil

with the Council's share of this liability being:

using the current cost/profit sharing percentage of: **39.31%**

Office Accommodation Project

The Office Project pertains to RRG's office located at 9 Aldous Place, Booragoon, Western Australia. The City's equity share of the project is based on their proportional populations.

The City's share as on 30 June 2025:

Office Accommodation Project Proportional Equity Share: **77.21%**

Office Accommodation Project

As a RRG participant, the City has guaranteed by way of security to the Western Australian Treasury Corporation, a charge over its' general funds for its' share of any outstanding debenture borrowings provided for the RRG administration building at 9 Aldous Place Booragoon. This facility has a limit of \$2 million.

As at 30 June 2025, the balance outstanding against the lending facility stood at: **\$1,612,200**

With the City's share of this liability being:

Using the current cost/profit sharing percentage of: **\$1,222,854**

Using the current cost/profit sharing percentage of: **75.85%**

The City at its Ordinary Council Meeting held on 21 November 2023 resolved to withdraw from the RRG and all associated projects, effective 1 July 2025.

The decision was subsequently amended at the Ordinary Council Meeting held on 17 September 2024, extending the withdrawal date by six months to 31 December 2025. The City has subsequently decided, via the CEO's discretion to extend this withdrawal date to 30 June 2026.

MATERIAL ACCOUNTING POLICIES

Investments in associates

An associate is an entity over which the City has significant influence, that is it has the power to participate in the financial and operating policy decisions of the investee but not control or joint control of those policies.

Investments in associates are accounted for using the equity method. The equity method of accounting, is whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the City's share of net assets of the associate. In addition, the City's share of the profit or loss of the associate is included in the City's profit or loss.

(e) Share of associates net profit/(loss) for the period

Investment in Share in Investment in Resource Recovery Group (RRG)

2025	2024
Actual	Actual
\$	\$
(3,548,488)	(1,830,750)
(3,548,488)	(1,830,750)

The financial statements of RRG for the year ended 30 June 2025 have been prepared on the basis of an orderly termination of operations basis. This is to reflect the resolution of the Council of the Resource Recovery Group (RRG) to windup the Regional Resource Recovery Centre and Office Accommodation project. The assets and liabilities of RRG disclosed above have been measured at their net realisable value as at 30 June 2025. The carrying amount recognised for the investment in RRG reflects the amount the City expects to receive on the completion of the orderly windup of the entity.

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

24. FINANCIAL RISK MANAGEMENT

This note explains the City's exposure to financial risks and how these risks could affect the City's future financial performance.

Risk	Exposure arising from	Measurement	Management
Market risk - interest rates	Long term borrowings at variable rates	Sensitivity analysis	Utilise fixed interest rate borrowings
Credit risk	Cash and cash equivalents, trade receivables, financial assets and debt investments	Aging analysis Credit analysis	Diversification of bank deposits, credit limits. Investment policy
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities

The City does not engage in transactions expressed in foreign currencies and is therefore not subject to foreign currency risk.

Financial risk management is carried out by the finance department under policies approved by the council. The finance department identifies, evaluates and manages financial risks in close co-operation with the operating divisions. Council have approved the overall risk management policy and provide policies on specific areas such as investment policy.

(a) Interest rate risk

Cash and cash equivalents

The City's main interest rate risk arises from cash and cash equivalents with variable interest rates, which exposes the City to cash flow interest rate risk. Short term overdraft facilities also have variable interest rates however these are repaid within 12 months, reducing the risk level to minimal.

Excess cash and cash equivalents are invested in fixed interest rate term deposits which do not expose the City to cash flow interest rate risk. Cash and cash equivalents required for working capital are held in variable interest rate accounts and non-interest bearing accounts. Carrying amounts of cash and cash equivalents at the 30 June and the weighted average interest rate across all cash and cash equivalents, term deposits, and Treasury bonds held disclosed as financial assets at amortised cost are reflected in the table below.

	Weighted average interest rate	Carrying amounts	Fixed interest rate	Variable interest rate	Non interest bearing
	%	\$	\$	\$	\$
2025					
Cash and cash equivalents	4.60%	36,402,845	18,600,000	17,800,155	2,690
Financial assets at amortised cost - term deposits	4.60%	122,494,961	122,494,961	-	-
Financial assets at amortised cost - Treasury bonds					
2024					
Cash and cash equivalents	4.39%	31,231,114	18,600,000	12,628,359	2,755
Financial assets at amortised cost - term deposits	4.39%	133,492,462	133,492,462		
Financial assets at amortised cost - Treasury bonds					

Sensitivity

Profit or loss is sensitive to higher/lower interest income from cash and cash equivalents as a result of changes in interest rates.

	2025	2024
	\$	\$
Impact of a 1% movement in interest rates on profit or loss and equity*	178,002	126,284

* Holding all other variables constant

Borrowings

Borrowings are subject to interest rate risk - the risk that movements in interest rates could adversely affect funding costs. The City manages this risk by borrowing long term and fixing the interest rate to the situation considered the most advantageous at the time of negotiation. The City does not consider there to be any interest rate risk in relation to borrowings. Details of interest rates applicable to each borrowing may be found at Note 32(a).

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

24. FINANCIAL RISK MANAGEMENT (Continued)

(b) Credit risk

Trade and other receivables

The City's major trade and other receivables comprise contractual non-statutory user fees and charges, grants, contributions and reimbursements. The major risk associated with these receivables is credit risk – the risk that the debts may not be repaid. The City manages this risk by monitoring outstanding debt and employing debt recovery policies.

The level of outstanding receivables is reported to council monthly and benchmarks are set and monitored for acceptable collection performance.

The City applies the AASB 9 Financial Instruments simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade and other receivables. To measure the expected credit losses, receivables from grants, contributions and reimbursements are separated from other trade receivables due to the difference in payment terms and security.

The expected loss rates are based on the payment profiles of trade and other receivables over a period of 36 months before 1 July 2024 or 1 July 2025 respectively and the corresponding historical losses experienced within this period. Historical credit loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors such as the ability of users to settle the receivables.

The loss allowance as at 30 June 2025 and 30 June 2024 was determined as follows for trade and other receivables.

	Current	More than 30 days past due	More than 60 days past due	More than 90 days past due	Total
30 June 2025					
Trade receivables					
Expected credit loss	0.00%	0.00%	0.00%	0.00%	
Gross carrying amount	4,364,949				4,364,949
Loss allowance	-	-	-	-	-
Other receivables					
Expected credit loss	0.00%	0.00%	0.00%	1.54%	
Gross carrying amount	110,326	65,127	33,607	274,251	483,311
Loss allowance	-	-	-	4,228	4,228
30 June 2024					
Trade receivables					
Expected credit loss	0.00%	0.00%	0.00%	0.00%	
Gross carrying amount	4,390,884	-	-	-	4,390,884
Loss allowance	-	-	-	-	-
Other receivables					
Expected credit loss	0.00%	0.00%	0.00%	19.69%	
Gross carrying amount	273,685.00	65,891.00	28,247.00	221,950	589,773
Loss allowance	-	-	-	43,702	43,702

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

24. FINANCIAL RISK MANAGEMENT (Continued)

(b) Credit risk (Continued)

The loss allowances for trade, other receivables and contract assets as at 30 June reconcile to the opening loss allowances as follows:

	Trade receivables		Other receivables		Contract assets	
	2025 Actual	2024 Actual	2025 Actual	2024 Actual	2025 Actual	2024 Actual
Opening loss allowance as at 1 July	\$ 43,702	\$ 166,509	\$ -	\$ -	\$ -	\$ -
Increase in loss allowance recognised in profit or loss during the year	4,228	43,702	-	-	-	-
Unused amount reversed	(43,702)	(166,509)	-	-	-	-
Closing loss allowance at 30 June	4,228	43,702	-	-	-	-

Trade, other receivables and contract assets are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the City, and a failure to make contractual payments for a period of greater than 120 days past due.

Impairment losses on rates and statutory receivables, trade, other receivables and contract assets are presented as net impairment losses within other expenditure. Subsequent recoveries of amounts previously written off are credited against the same line item.

Contract assets

The City's contract assets represent work completed, which have not been invoiced at year end. This is due to the City not having met all the performance obligations in the contract which give an unconditional right to receive consideration. The City applies the simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all contract assets. To measure the expected credit losses, contract assets have been grouped based on shared credit risk characteristics and the days past due. Contract assets have substantially the same risk characteristics as the trade receivables for the same types of contracts. The City has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets.

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

24. FINANCIAL RISK MANAGEMENT (Continued)

(c) Liquidity risk

Payables and borrowings

Payables and borrowings are both subject to liquidity risk – that is the risk that insufficient funds may be on hand to meet payment obligations as and when they fall due. The City manages this risk by monitoring its cash flow requirements and liquidity levels and maintaining an adequate cash buffer. Payment terms can be extended and overdraft facilities drawn upon if required and disclosed in Note 18(c).

The contractual undiscounted cash flows of the City's payables and borrowings are set out in the liquidity table below. Balances due within 12 months equal their carrying amounts, as the impact of discounting is not significant.

	Due within 1 year	Due between 1 & 5 years	Due after 5 years	Total contractual cash flows	Carrying amount
	\$	\$	\$	\$	\$
2025					
Trade and other payables	26,699,542	281,149	-	26,980,691	26,980,691

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

25 EVENTS OCCURRING AFTER THE END OF THE REPORTING PERIOD

The City was a defendant in a legal matter with respect to the Resource Recovery Group. On 19 November 2025 a settlement deed was executed, resulting in a consent order being filed to dismiss the legal proceedings without an order for costs.

Other than the above matter, no events have occurred after the reporting date which impact the financial report disclosures at 30 June 2025.

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

26. OTHER MATERIAL ACCOUNTING POLICIES

a) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

b) Current and non-current classification

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the City's operational cycle. In the case of liabilities where the City does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the City's intentions to release for sale.

c) Rounding off figures

All figures shown in this annual financial report, other than a rate in the dollar, are rounded to the nearest dollar. Amounts are presented in Australian Dollars.

d) Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

When the City applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statements that has a material effect on the statement of financial position, an additional (third) Statement of Financial Position as at the beginning of the preceding period in addition to the minimum comparative financial report is presented.

e) Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in this annual financial report relate to the original budget estimate for the relevant item of disclosure.

f) Superannuation

The City contributes to a number of Superannuation Funds on behalf of employees. All funds to which the City contributes are defined contribution plans.

g) Fair value of assets and liabilities

Fair value is the price that the City would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

h) Interest revenue

Interest revenue is calculated by applying the effective interest rate to the gross carrying amount of a financial asset measured at amortised cost except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

i) Fair value hierarchy

AASB 13 *Fair Value Measurement* requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The City selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the City are consistent with one or more of the following valuation approaches:

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of the service capacity of an asset.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the City gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

j) Impairment of assets

In accordance with Australian Accounting Standards the City's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount except for non-financial assets that are:

- land and buildings classified as property, plant and equipment;
- infrastructure; or
- vested improvements that the local government controls, in circumstances where there has been an impairment indication of a general decrease in asset values.

These non-financial assets are assessed in accordance with the regulatory framework detailed in Note 10.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (e.g. AASB 116 *Property, Plant and Equipment*) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

27. FUNCTION AND ACTIVITY

(a) Service objectives and descriptions

City operations as disclosed in this financial report encompass the following service orientated functions and activities.

Objective	Description
Governance To provide a decision making process for the efficient allocation of scarce resources.	Includes the activities of members of council and the administrative support available to the council for the provision of governance of the district. Other costs relate to the task of assisting council members and ratepayers on matters which do not concern specific local government services.
General purpose funding To collect revenue to allow for the provision of services.	Rates, general purpose government grants and interest revenue.
Law, order, public safety To provide services to help ensure a safer and environmentally conscious community.	Supervision and enforcement of various local laws relating to fire prevention, animal control and other aspects of public safety including emergency services.
Health To provide an operational framework for environmental and community health.	Inspection of food outlets and their control, provision of meat inspection services, noise control and waste disposal compliance.
Education and welfare To provide services to disadvantaged persons, the elderly, children and youth.	Maintenance of child minding centre, playgroup centre, senior citizen centre and aged care centre. Provision of senior care and youth services.
Housing To provide residential properties in the City	Maintenance of residential properties owned by the City.
Community amenities To provide services required by the community.	Rubbish collection services, operation of rubbish disposal sites, litter control, construction and maintenance of urban storm water drains, protection of the environment and administration of town planning schemes, and public conveniences.
Recreation and culture To establish and effectively manage infrastructure and resources which will help the social well being of the community.	Maintenance of public halls, civic centres, aquatic centre, beaches, recreation centres and various sporting facilities. Provision and maintenance of parks, gardens and playgrounds. Operation of library, museum and other cultural facilities.
Transport To provide safe, effective and efficient transport services to the community.	Construction and maintenance of roads, streets, footpaths, depots, cycle ways, parking facilities and traffic control. Cleaning of streets and maintenance of street trees, street lighting etc.
Economic services To help promote the local government and its economic well being.	Tourism and area promotion including the maintenance and operation of parks.
Other property and services To monitor and control operating accounts.	Private works operation, plant repair and costs.

**CITY OF MELVILLE
 NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
 FOR THE YEAR ENDED 30 JUNE 2025**

28. COMPARATIVE CHANGES

Comparative Information

The City has adopted the Department of Local Government recommended Local Government Financial Reporting Model. As a result, the presentation and disclosure of comparative information for 2023-24 have been reformatted to align with the new reporting structure. The reclassification only affects the presentation and does not impact the audited financial results for the 2023-24 financial year.

These reclassifications did not result in any change to the prior year's **net result, total comprehensive income, or equity balances**. The changes are limited to minor presentational and disclosure adjustments resulting from the implementation of the new template for the current reporting year. In addition, there have been other minor reclassifications in the notes to the financial statements to align with the new reporting structure.

<u>Name of the statement or Note</u>	<u>Nature of the reclassification</u>	<u>Reason for the Reclassification</u>
Statement of Financial Activity	Rates - provide more Details of the Rates income into General and Rates Excluding General Rates Reclassification between Investment and Financial activity.	Adopted the Department of Local Government recommended Local Government Financial Reporting Model.
	Other Revenue - Split to different categories	Adopted the Department of Local Government recommended Local Government Financial Reporting Model.
	Other Expenses -Minor reclassification of the other expenses	Adopted the Department of Local Government recommended Local Government Financial Reporting Model.
	Movement in surplus or deficit - changes as a result of the above reclassification	Adopted the Department of Local Government recommended Local Government Financial Reporting Model.

During the year, certain comparative figures have been reclassified and regrouped to enhance clarity and ensure alignment with the recommended Local Government Financial Reporting Template. These updates aim to improve transparency and comparability with other local governments and to better reflect the presentation requirements under the current reporting framework.

These presentation changes represent disclosure enhancements only and do not involve any restatement of prior period balances.

CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025

29. PRIOR PERIOD RESTATEMENTS

In order to comply with accounting standards, the Local Government Act and the City's accounting policies, the City made the following prior period adjustments during the year.

During the 2025 financial year, it was identified that property, plant and equipment assets under construction (work in progress) had been incorrectly classified under the infrastructure financial statement caption as infrastructure work in progress. This prior period misstatement has been corrected by restating each of the affected financial statement line items for the prior period.

In accordance with AASB 108, the effect of the adjustment has been recognised in the opening balance for the comparative period, being 1 July 2023 (to the extent to which they relate to the financial year 30 June 2023 and before) . The net impact of these adjustments is shown below:

	1 July 2023 Opening Balance		
	30 June 2023	Adjustment	As restated at
	\$	\$	1 July 2023
			\$
Statement of financial position (extract):

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

All reserves are supported by cash and cash equivalents and financial assets at amortised cost and are restricted within equity as Reserve accounts.

In accordance with council resolutions or adopted budget in relation to each reserve account, the purpose for which the reserves are set aside and their anticipated date of use are as follows:

Name of reserve account	Purpose of the reserve account
Restricted by legislation/agreement	
(a) Funds in lieu of Development on Public Open Space Reserve	Maintained for the purpose of retaining and using funds in accordance with section 154(2) of the Planning and Development Act 2005.
Restricted by council	
(b) Melville South Underground Power & Streetscape Enhancement Reserve	To be used for underground power projects and streetscape enhancements in the Melville South Underground Power project area.
(c) Civic Centre Precinct Improvements Reserve	To be used for improvements to the buildings and associated landscaping and car parking located within the Civic Centre Precinct (Melville City Centre).
(d) Commercial Refuse Reserve	To be used for the acquisition and replacement of commercial refuse bins, vehicles, and plant and equipment used for commercial waste operations and the development of commercial waste collection opportunities and to meet any shortfalls in the Refuse Facilities Reserve.
(e) Community Facilities Reserve	To be used for the provision of new, renewed or upgraded community facilities/buildings.
(f) Community Centre Fitout, Furniture and Equipment Reserve	To be used to fund the acquisition and replacement of the fitouts, furniture and specialised equipment requirements for Community Centres and multipurpose rooms at venues owned by the City of Melville.
(g) Community Surveillance and Security Reserve	To temporarily retain any surpluses that may arise from the Property Surveillance and Security Service Charge to be used to offset future years Property Surveillance and Security Service Charges or for the purchase of plant and equipment used for community surveillance and security services.
(h) Fleet Services Vehicles, Plant and Equipment Replacement Reserve	To be used to fund the purchase of replacement vehicles, plant and equipment.
(i) New/Upgrade Works Reserve (Previously Future Works Reserve)	To be used to fund the "New" and "Upgrade" components of the costs of Infrastructure Capital Works and Buildings as opposed to renewal of existing assets as per Asset Management Plans.
(j) Information Technology Reserve	To be used to fund the acquisition and replacement of computer software, information technology hardware and costs of utilisation of service based and emerging technologies.
(k) Infrastructure Asset Management Reserve	To be used to fund infrastructure asset management projects including the construction, maintenance and renewal of the City of Melville's road, path, kerbing, street furniture, park structures, playground, irrigation/reticulation and drainage infrastructure assets.
(l) Land and Property Reserve	To be used to a) fund the acquisition or construction of commercial revenue earning land and or buildings, or b) fund the acquisition of land and buildings in structure plan areas to help encourage the redevelopment of those structure plan areas by assembling developable land parcels and fund with Council approval, infrastructure and other developments in line with structure plan principles; or c) internally fund the purchase or construction of City of Melville community facilities or infrastructure assets, on the basis that those funds will be returned to the Land and Property Reserve over a predetermined period of time with interest, with the interest rate being set at what would have been charged by the Western Australian Treasury Corporation for the term of the borrowing using the Semi Annual Annuity interest rate.
(m) Leave Entitlements Reserve	To be used to fund the non-current liability amount of annual, sick and long service leave entitlements accrued in previous financial years beyond the amount provided for in the Provision for Leave current liability account.
(n) Library, Museums & Arts Equipment & Specialised Fitout Reserve	To be used to fund the acquisition and replacement of the fit outs, furniture and specialised equipment for art centres, museums and libraries.
(o) Organisational Environment Sustainability Initiatives Reserve	To be used to fund environmental initiatives which are intended to reduce the energy usage and/or carbon footprint of the corporation of the City of Melville or for debt servicing costs associated with any loan borrowings taken out for such purposes.
(p) Parking Facilities Reserve	To be used to fund the provision, refurbishment or improvement of parking facilities and equipment.

**CITY OF MELVILLE
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2025**

(q) Parking Management Reserve - Canning Bridge Activity Centre	To fund public place improvement, business improvement, place activation and encourage a safer, more active and vibrant community and business precinct, through a place based grant program at the discretion of an internal assessment committee.
(r) Parking Management Reserve - Riseley Activity Centre	To fund public transport, car parking, streetscape upgrades that improve opportunities for walking and cycling, footpaths and other pedestrian-related infrastructure, cycle paths and other cycling-related infrastructure, street trees, plants and landscaping that improves pedestrian amenity and/or Travelsmart programs and initiatives at the Riseley Activity Centre, or as per the discretion of the Council under the advice of a Parking Fund Advisory Committee.
(s) Private Swimming Pool Inspection Fee Reserve	To temporarily retain any surpluses that may arise from the Swimming Pool Inspection fees to be used to offset any deficits that may occur in future years operations of the Private Swimming Pools Inspection Program.
(t) Public Open Space and Urban Forest Reserve	To be used to fund the purchase, development and re-development of public open spaces, including streetscapes, bushlands, parks and reserves and to fund initiatives to enhance and improve the urban forest or for debt servicing costs associated with any loan borrowings taken out for such purposes.
(u) Rates Equalisation Reserve	To temporarily retain any surplus carried forward funds as shown in the audited Annual Financial Report Rate Setting Statement in excess of the estimated surplus funds brought forward amount identified in the following years Annual Budget Rate Setting Statement to subsequently be used to reduce the need to raise rates in future years or to meet any budget shortfalls identified during budget reviews including expenditure on unbudgeted contingencies.
(v) Recreation Centres Specialised Plant, Equipment and Structures Reserve	To be used to fund the acquisition, repair, upgrade and replacement of Recreation Centres specialised plant, equipment and structures.
(w) Refuse Bins Reserve	To be used for the purchase and replacement of any non-commercial refuse, recycling or Food Organics Garden Organics bins or receptacles.
(x) Refuse Facilities Reserve	To be used for payments relating to the establishment and operation of waste management facilities, funding associated costs, and the cost of landscaping, environmental and rehabilitation works of former refuse tip sites operated or funded by the City of Melville. The reserve is also used for any additional waste collection, management and disposal costs of waste associated with storm, disaster or major pollution events.
(y) Risk Management and Insurance Equalisation Reserve	To be used to fund prior years insurance premium contingencies, the self insured element of insurance claims, risk reduction initiatives or projects, losses arising from investment activities and discretionary expenditure required as a consequence of unforeseen events beyond the control of the City.
(z) Special Projects Reserve	To be used to fund costs associated with City of Melville Council Elections, infrastructure asset condition surveys, asset valuations and gross rental value revaluations and strategic planning projects.
(aa) Unexpended Works and Specific Purpose Grants Reserve	To be used to carry forward available funding for uncompleted projects and specific purpose grants that will be completed and expended in ensuing financial years.
