

Tender Number:	RFT192002
Tender Title:	Supply of Online Learning Management System Software
Tender Description: <i>Reg 17(2)(a)</i>	<p>The City of Melville ("City") is seeking a suitably qualified and experienced Contractor to supply learning management system software to replace the existing online training software program.</p> <p>The Contract period is for an initial term of three years with two additional 24 months option periods which will be exercised at the sole discretion of the City. The City aims to start the delivery of online training by the 1st July 2020.</p> <p>A recent review of the City's current online training has revealed that it does not meet the City's requirements for:</p> <ul style="list-style-type: none"> • Training governance – the current software does not effectively support the online training processes or managing its structure. It does not have an interface to the City's Human Resource Information System to enable a single source of truth for all training. • User engagement –the software is not easy to use and it is not easy for trainers to create engaging courses or manage them. • Sustainability – there is a lack of professional support for the existing software. It also does not automatically enrol users to mandatory courses. • Return on investment – The amount of time it takes to develop courses and the resulting quality does not increase the effectiveness of employee training. • Accessibility – online courses are not mobile friendly. <p>The City is now ready to purchase a new learning and management system to support the online training strategy to be rolled out across the City in July 2020.</p>
