

<b>Tender Number:</b>	RFT202115
<b>Tender Title:</b>	Foreshore Revetment Works on four Sites in the City of Melville
<b>Tender Description:</b> <i>Reg 17(2)(a)</i>	<p>The City of Melville ("City"), is seeking a suitably qualified and experienced Contractor to undertake the construction of Revetment at 4 City of Melville Sites</p> <p>Several sites along the City of Melville foreshore are experiencing coastal erosion, which is placing existing natural and built assets at risk. This coastline is comprised of vegetated areas, sandy beaches and existing hard foreshore treatments and is traced with a coastal path and/or local road. The area is currently used for a variety of purposes including:</p> <ul style="list-style-type: none"> <li>• Passive and active recreation (picnicking, dog walking, running, cycling etc)</li> <li>• Boating</li> <li>• Fishing</li> </ul> <p>The main issues affecting the coastline are erosion of unprotected areas from wave conditions and wind erosion, trampling damage and water run off down steep slopes. Works are required to provide a long-term solution to stabilise the project sites.</p> <p>Detailed Designs and Department of Biodiversity, Conservation and Attractions (DBCA) approval have now been completed for the four foreshore sites; two at Blackwall Reach Parade, Bicton (site A and B) and two at Point Heathcote Reserve, Applecross (Waylen Bay Scout Hall and Heathcote East).</p> <p>Section 18 (S18) approval is still pending but is expected to be issued early in the New Year (2022). A provisional budget has been set aside for the actions expected to be set out in the S18 approval notice. As part of the DBCA permit a Construction and Environmental Management Plan (CEMP) will need to be submitted to the DBCA prior to works commencing. This would best be undertaken while the successful contractor is waiting for S18 approval.</p>
