Tender Number:	RFT222323
Tender Title:	Foreshore Revetment of Melville Beach Road and Heathcote West
Tender Description: <i>Reg 17(2)(a)</i>	<p>CoM is seeking a suitably qualified and experienced contractor to undertake the construction of foreshore revetments that will utilise bioengineering approaches as the primary methodology for their formation. Beach access will be maintained through the formalisation of pathways and informal access ways will be closed off to prevent trampling and erosion. Construction will involve the creation of formal beach access ways, shore stabilisation with the installation of brush walling, planting and infill of estuarine sedges, some shrubs and trees to improve the condition of existing foreshore vegetation and increase foreshore resilience against the current erosive pressures.</p> <p>Detailed Designs, Project Summary and Technical Specifications were completed in late 2022 with approval by DBCA who have granted construction permits for implementation of the projects. An Aboriginal Cultural Heritage (ACH), Survey was conducted at the project sites on the 20th of June 2023 with the subsequent report submitted on the 30th of June to the Department of Planning, Lands and Heritage (DPLH) for section 18 approval under the Aboriginal Heritage Act 1972. The ACH approval for the projects is anticipated to be in place prior to December 2023. The successful tenderer will be required to assist the CoM in maintaining compliance with any conditions outlined in these permits.</p> <p>CoM does not guarantee the exact commencement date or specify the exact duration of the construction phase of the two foreshore revetments; the works are proposed to be completed in the summer-autumn period of December 2023 – June 2024, with a 12-month maintenance period to follow before management transfers to the CoM.</p>
